MUNICIPAL REGULATIONS

FOR PAYMENT OF BILLS AGAINST THE CITY.

All persons furnishing materials or service for the city, or aid to the city poor, should be particular to take the name of the person ordering such service, material, or aid, and should *know* that the person is duly authorized to contract said liability.

The city will not be holden for merchandise sold or delivered on city poor account, except on the written order of the overseer of the poor, and for no longer time than until his successor shall have been appointed and qualified.

Duplicate copies will be required of all bills payable by the city, furnished on county poor account.

All bills against the city must be approved by the person authorizing the charge; and unless this is done, no action can be had upon the bill by the Committee on Accounts and Claims, and no order will be given for its payment.

Bills so certified should be left with the city clerk on or before the second day of the month.

If approved by the Committee on Accounts and Claims, they will be ready for payment on Thursday following the regular monthly meeting of the city government.

The regular monthly meetings of the city government occur on the second Monday of each month.

HENRY E. CHAMBERLIN,

City Clerk.

MAYOR FRENCH'S THIRD INAUGURAL ADDRESS.

JANUARY 23, 1912.

Gentlemen of the Board of Aldermen:

We have met here to-day to inaugurate a second administration under the new city charter, and I am happy to say, the third under which I am to be the chief magistrate of our city. At the outset, I desire to express my deep appreciation of the honor conferred upon me by my selection for a third time as such chief magistrate. During my past administrations, economy in the expenditures of the city funds has always been my watchword, to the end that the taxpayers of the city should be relieved as much as possible from the burdens necessarily placed upon them. I feel that I have been fair and impartial to all in my conduct of city affairs, striving always to do that which is for the best interest of all. I have been independent, all will admit, but my recommendations have been made in that spirit which tends best to promote good municipal government. The fact that my recommendations have not generally been adopted and that I have been returned for the third time, bears me out when I say that the people of this city approve of the principles for which I have stood and still desire my recommendations carried into effect.

One year ago we inaugurated an important and radical change in our system of city administration, and at that

time had strong hopes of an improvement under it. Contrary to our expectations the results have not been what they should have been. In no measure has this been due to the charter, but rather to the way in which the last board acted under it. This course of conduct has met, not alone with my disapproval, but with that of the citizens of the city generally. It did not seem to me that the last board acted wisely at times; nor did it administer city affairs as was expected of it. I think the charter has not had a fair trial; it has not been tried out as it should have been; it has not received the proper test. Deception to a certain extent has been practiced upon the taxpayers. Politics, I am sorry to say, has entered into the affairs of city administration during the past year. There was a tendency on the part of one member, at least, to sacrifice the city's interest to the end that he might advance his own chance for future political preferment. It is needless for me to say that I strongly deprecate such conduct and hope we shall not encounter it during the present administration.

Many cities have adopted forms of government similar to ours since our charter was granted by the legislature and adopted by the people. From all reports these cities have been meeting with a marked degree of success with their new charters, due undoubtedly to the fact that in those cities all parties have worked together for the interest of the taxpayers, putting aside all political bias and doing business on non-partisan lines. It is a well-known fact that the people of this municipality intended to bring about exactly this condition when they adopted the present charter in 1910.

The two principal objects sought by this new plan of city government were the elimination of partisan politics and the concentration of responsibility upon a comparatively few officials. The first object, I am sorry to say,

was not attained, except in one instance which I shall mention hereafter. As to the second it is a well known fact, and I but wish to recall it to your minds, that whenever the doing of an act promised little credit and threatened to cause some ill-feeling, members have invariably been ready and willing to cast the burden of responsibility upon the mayor.

Having thus called your attention to those things of a general nature concerning which I think we are justified in finding some fault, and which I hope to see remedied in the future, I shall now pass on to a consideration in detail of the various departments of the city, making such recommendations as seem to me especially applicable.

BOARD OF PUBLIC WORKS.

Under our new city charter the highway department was practically abolished as such, and the work placed under the immediate charge of the Board of Public Works. I desire to call your attention to the provisions of the charter which effected this and which plainly show what the intent of the people was when they adopted them. You will see that the Board of Public Works was designed to take over the control of all matters pertaining to highways and give them personal attention, and this in no narrow sense.

First, I draw your attention to the difference in salary between that of the ward aldermen, which is seventy-five dollars per year, and that of the members of the Board of Public Works, which is two hundred dollars per year. This has a meaning of its own. Now look at the express words of the charter. Section 31 reads as follows: "The Board of Public Works hereby established shall have full charge, direction and control of the construction, reconstruction, maintenance, repair and improvement of public

streets, highways, bridges, sidewalks, sewers and drains, of the sprinkling of streets, and of the collection and disposal of garbage." It is further provided by section 32 that the board "shall have charge of all horses, vehicles, machinery, etc.," "shall have the expenditure of all appropriations voted by the Board of Aldermen," and "may, in its discretion, procure the performance of any work under its charge by contract." And by section 33 it is provided that the board "shall, as early as practicable in each year, submit to the Board of Aldermen or its Committee on Finance a detailed estimate in writing of the appropriations required for that year for the purposes referred to" in sections 31 and 32.

Having these provisions of the charter in mind let me point out to you the way in which they have been observed during the past year. In the first place the board has in no sense undertaken personal supervision of the work on our highways. During the entire year but one inspection of road work has been made. A resolution was passed early in the year by the board, delegating all the powers conferred by section 32 to the superintendent of streets. As a result of this act all purchases and sales have been made by said superintendent. Every employee on the streets has been hired by him, including the district foremen. To my knowledge not a single bid has been called for for city supplies by the Board of Public Works.

These things I think call for condemnation from me. By such conduct the new charter has not been given a fair trial, and all I ask is, that a fair trial be given it by this incoming board, that the order of things be changed so that the business of the department will be done on the new lines laid down by the charter, and not in the same old way, as has been the case during the past year.

While discussing these particular sections I wish to

call your attention, especially, to that part of section 32 which says that the Board of Public Works "shall employ a superintendent of streets and such other agents and employees as it may deem necessary." To me this section appears mandatory, leaving no power to delegate the duty of hiring such agents and employees. But the board thought otherwise and permitted the superintendent of streets appointed by it to hire every one who did work on the streets, including the district foremen. A specific case having arisen by the resignation of the foreman of the West Concord district, I called for an opinion from the city solicitor as to the meaning of that part of the above section which I have quoted to you. In a carefully considered opinion, subsequently rendered, he held that the duty of hiring mere day laborers, who were without direct responsibility, could be delegated, but that as to district foremen "It was plainly intended that they should be hired directly by the Board of Public Works." While this was a construction of the charter that I had not given it myself, it was the opinion of one who is paid by the city for just that purpose and would probably have resulted in facilitating the work of the department better than if a strictly literal construction had been given. I was willing to abide by it, but in direct opposition to the solicitor's opinion a majority of the Board of Public Works still persisted in delegating the duty, and the foreman of the West Concord district was employed by the superintendent of streets. I hope the present board will reverse the action of the last board and abide by the charter.

In regard to the subject of highways generally, I am sorry to say that the present condition of our streets is no better than it was at the beginning of the last administration. In a large measure this is due to the fact that so much money has been appropriated for permanent

work and so little for general maintenance. The present tendency elsewhere is away from this course, and it is only by such action that we can save enormous expenditures in the future.

I feel that an added reason for the condition just mentioned was the failure of the last board to adopt a recommendation made by me one year ago, which was this,—the superintendent of streets should be a civil engineer. Again I make the same recommendation and this time I am able to state that the same thing was recommended by every speaker at the good roads convention recently held in this city. Place this work under the direction of the city engineer. By such action you will center responsibility, avoid conflict as to grades, save money and improve the streets.

FIRE DEPARTMENT.

No city the size of Concord has a better fire department. The personnel of the department cannot be easily improved. From the chief down the men are steady, honest, competent and faithful and are very efficient in the discharge of their duties. In this department I consider the city gets the worth of its money. For several years it has been advocated that the Central fire station should be more modern, that the horses should be placed behind the apparatus, an act of which I would heartily approve. I recommend that the necessary steps be taken to remodel this station so that this may be accomplished.

Much has been said about automobile fire apparatus. I strongly believe that such apparatus, after it has left its experimental stage, which it is now in, will be very efficient, but I do not recommend its purchase with our present \$2.43 tax-rate and our apparatus in first-class condition. I am strongly of the opinion that something

should be done to relieve the existing conditions at the Alert hose house on Washington Street. The piece of apparatus there carries eight hundred feet of hose, a burden too great for one horse to enable it to make a quick response to fires. I recommend the purchase of another horse for this station to remedy this condition of affairs.

I do not deem it advisable to contemplate the building of any new fire stations.

POLICE DEPARTMENT.

It is necessary, for the safety of individuals and the protection of property, that the city should have an efficient police department. In this department experienced men are much more efficient than new men can be, and so far as possible the present members of the force who are experienced and efficient should be retained and promoted strictly according to their merit. New officers should be recruited from the ranks of the reserve. If in the administration of city affairs experience shall show that any official, whether in this or any other department, is unfaithful or untrustworthy, so far as I have the power he will be held to a rigid accountability.

During the past year the police department has been directly under the control of the city, the old police commission having been abolished by the new city charter. As a result I think there has been a distinct change in the attitude of the members of the force toward other city officials and the public generally. I always opposed the idea of a police commission appointed by the governor of the state. It tended to make police officers less amenable to authority and inculcated in them a certain degree of indifference that worked against a spirit of respect on the part of the people. This department is now directly

responsible to the city government and is under the control of the mayor, who is its chief.

While there has been considerable improvement in the department during the past year there is still ground for criticism. The outgoing board raised the salaries of all the regular watchmen to approximately one thousand dollars per year. For this amount I think the city is entitled to the services of able-bodied men and to their entire attention to the duties of the work. But we are not getting what we are paying for, in the first instance, in the case of some members of the force. As for the second, I draw your attention to section 46 of the present city charter, which says: "No member of said force, except reserve members, shall engage in any other occupation, or hold any other state, county or municipal office."

This provision of the charter must mean something, and I feel it my duty to call your attention to the fact that it is not being lived up to at the present time by several members of the department, one of whom has but recently received an appointment from the secretary of state which must of necessity take a large share of his time and interfere to a marked degree with his duties to the city. I trust that this condition of affairs may be speedily remedied so that this board will not find it necessary to exercise the powers conferred upon it by sections 46 and 48 of the city charter.

PARKS.

Our parks are in a very good condition and are being well managed by our new superintendent, for which he is deserving of credit. Public playgrounds are much in demand these days, and I wish in this connection to call your attention to the Kimball playground at the north

end of the city. I must confess that this ground is not in the condition it should be in, not having had the care necessary to make it so, and I recommend that a sum of money be appropriated sufficient for the purpose. Seats should be more freely distributed in the parks for the accommodation of the public. I regret that the committee on State House park of the last legislature has not seen fit to install seats in that park, as previously recommended by me, an act which would be appreciated by the many people who visit the state's capitol every year.

LIGHTING STREETS.

Well-lighted streets are a necessity for the safety and convenience of the public, and it is unfortunate that the city is dependent on one company for its electric lights. I welcome any other company which may apply for a license to enter the city, to the end that in competition we may get as good service at lower prices than now prevail.

I also solicit the co-operation of the board in devising means to bring about a reduction in the cost of gas. This may look like a difficult problem, but it really is not. In other cities it has been solved, so why not in Concord? From good authority I understand that it costs but forty cents to manufacture one thousand feet of gas. Why should the consumer be obliged to pay \$1.25 per thousand feet for it? Just consider this proposition for a moment. Second only to a water plant, a gas plant is the greatest necessity in the line of public utilities. Innumerable cities in this country and abroad own their gas plants, and the cost to the consumers has been cut in half. It would not be so difficult a matter for the city of Concord to build a gas plant of its own, or perhaps the present

plant here situated might be taken over at a fair physical valuation, all consideration of the value of the franchise, which, of course, is the property of the city in the first instance, being eliminated.

LABOR.

During the last administration an ordinance was passed giving able-bodied laborers employed by the city a \$2 maximum and a \$1.75 minimum rate per day. It also provided that all work should be done, so far as practicable, by native-born or naturalized citizens. I am sorry at this time to be obliged to call your attention to a violation of this ordinance by one of our departments. American citizens who have worked for this department during the summer months have been allowed to remain idle since cold weather set in, while men who cannot qualify under the above ordinance have been given steady employment.

BAND CONCERTS.

My attention has been called to that provision of the new charter which repeals all laws previously enacted except such as relate to ward boundaries, school districts, sewer, lighting, and other special precincts, water-works, police court, overseers of the poor, borrowing money in aid of school districts, and the appropriation of money for the observance of Memorial Day. This means that the last appropriation for band concerts was illegal, as the right to so expend city money had been given by legislative act. No appropriation can be made for this purpose the coming year, but I shall be pleased to contribute personally for such an object and hope popular subscription will be large enough to secure the concerts.

HEALTH.

We all recognize the importance of this branch of the city government and its efficient management. This board should be especially commended for its efforts to see that the inhabitants of the city are furnished with milk produced and delivered under sanitary conditions.

LEGAL DEPARTMENT.

Early in this address I called attention to an act done by the last board which was on strictly non-partisan lines. This occurred in July when the present city solicitor was elected. That act gave this city the benefit of legal resources such as they have not had for many years. It also gave the city constant and speedy service in the determination of legal questions, which call for such service. Few of you realize how important it is to have a solicitor who responds promptly, for the matters demanding legal attention are continually arising. Those who sat in the last board know something of the service rendered, of the attention given, and especially of the favorable outcome to the sewer controversy.

In this connection, as the city solicitor is one of a committee of three on the revision of the city ordinances, I desire to state that the revision of the ordinances has been delayed on account of the press of business due to the sad event of last summer, with which you are no doubt familiar. The revision, however, is now well under way, and in a reasonable time we shall have the completed revision in our hands to aid us in our work.

HOSPITALS.

It has been customary for years to make an annual appropriation of \$3,000 for the Margaret Pillsbury Gen-

eral Hospital. This sum was a gift until 1909, but commencing with that year a restriction was placed upon it which has proved a great saving to the taxpayers of our municipality. The amount of such saving for the years 1909-1910 and 1911 has been approximately \$2,203.16. On South Street is located the Memorial Hospital for Women and Children, organized some years later than the Margaret Pillsbury Hospital. Both hospitals are doing excellent work among our worthy poor and deserve financial consideration from the taxpayers. The Memorial Hospital received financial aid last year to the amount of \$500. I recommend that both appropriations be continued for the present year.

TAXATION.

No more important office exists in the city than that of the Board of Assessors. The property assessed by them amounts to over \$12,500,000 in value. Equalization of taxation is all the people demand and that is what they are entitled to have. Every citizen should bear his just proportion of the public tax. Whether or not this is effected depends greatly on the courage and efficiency of the Board of Assessors. Our new charter provides that the assessors give more time to the valuation of our properties. Much real estate is not taxed in proportion to its value with other real estate. Money, bank stock, bonds, mortgages and other securities escape from taxation almost wholly, creating an unequal and unjust burden upon other property which is in sight. This is partly brought about by the borrowing of money just before the first day of April for the purpose of avoiding being taxed, partly by false inventories, and greatly assisted by the lack of courage on the part of the Board of Assessors and by favoritism.

I think our Board of Assessors are men with accurate judgment on property values. I recommend that they fearlessly perform their important duties and they will receive that credit which is their due.

PUBLIC SCHOOLS.

The education of the youth of the city is one of the most important functions of city administration. By legislative act, concurred in by the people, this branch of city administration was taken away from the city council, perhaps wisely, as the subject is so large, so complicated, that it calls for careful attention and demands specially trained individuals to care for it successfully. Although more than one hundred thousand dollars is appropriated annually for schools, we have no voice in its expenditure. This fact makes our duties less onerous, and as long as these funds are used in as efficient and honest a manner as at present we can have no possible ground for complaint.

The schools are well managed; the teaching staff is well chosen. Liberal views are taught and various subjects are open to the pupil's choice. This is as it should be in a country as free as ours. Contrary to previous ideas I have had on the subject, I am now convinced that the combination of high school and business course is proving a great benefit to students, and also to those who have occasion to employ office help. Appreciating these facts let us co-operate at all times to further the interests of our young people by lending our support to those who direct their education.

CONCLUSION.

The task before us should cause you all to stop and consider carefully what your attitude will be during the next two years. You are the directors of a large corporation, with assets worth more than twelve millions. The taxpayers are the stockholders who have selected you to represent them. They look for co-operation on the part of all to the end that their affairs may be wisely handled, their money carefully spent. In this way alone shall we do our duty and perform the service expected of us.

ORDINANCES AND JOINT RESOLUTIONS

Passed During the Year Ending January 15, 1912.

CITY OF CONCORD—ORDINANCES.

AN ORDINANCE PRESCRIBING THE TIME FOR CHOOSING AND APPOINTING CITY OFFICERS AND FIXING THEIR COMPENSATION AND TERMS OF OFFICE.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. The board of aldermen shall, on the fourth Tuesday in January, 1911, choose by a viva voce vote a city clerk, a city treasurer, a city engineer, a city messenger, a collector of taxes, a city solicitor, three overseers of the poor (one for Penacook, one for East Concord and one for Wards 3, 4, 5, 6, 7, 8 and 9), a city physician and assistant city physician, a sanitary officer and inspector of plumbing, and a superintendent of city clocks, who shall perform the duties now imposed upon such officers by law, ordinance and custom and who shall receive the compensation and hold office for the terms now provided by law or ordinance; subject, however, to be removed by the board of aldermen at pleasure by majority vote.

SECT. 2. The mayor shall, on the fourth Tuesday in January, 1911, appoint, subject to confirmation by the board of aldermen, nine library trustees, drain-layers, health officers, a board of hydrant commissioners, consisting of three members, two park commissioners, members of cemetery committees (one from Ward 1, one from Ward 2, one from Ward 3, and one from Ward 7), undertakers, an inspector of petroleum, fence viewers, a pound-keeper, sealers of leather, a sealer of weights and measures, a culler of staves, weighers of hay, coal, etc., a city weigher, surveyors of painting, surveyors of masonry, surveyors of stone and surveyors of wood, lumber and bark. The officers thus appointed shall perform the duties now imposed upon such officers by law, ordinance and custom, and shall enjoy all the privileges heretofore enjoyed by such officers. They shall receive no compensation payable from the city treasury, but shall be entitled to such fees as are now provided by law or ordinance

for such officers. They shall hold office for the terms now provided by law or ordinance; subject, however, to be removed at any time by the mayor, by written order.

SECT. 3. This ordinance shall take effect upon its passage.

Passed January 24, 1911.

AN ORDINANCE FIXING THE TIME FOR REGULAR MEETINGS OF THE BOARD OF ALDERMEN.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. That regular meetings of the board of aldermen for the transaction of business shall be held in the council chamber in the city hall on the second Monday of each month at seven o'clock p. m.

SECT. 2. This ordinance shall take effect upon its passage.

Passed January 24, 1911.

AN ORDINANCE RELATING TO COMMITTEES OF THE BOARD OF ALDERMEN.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. At the commencement of each municipal term, there shall be appointed by the mayor, subject to the approval of the board of aldermen, the following standing committees of the board of aldermen: A committee on finance, consisting of the mayor and four members of the board of aldermen, of which the mayor shall be chairman, and a committee on accounts and claims, a committee on fire department, a committee on lands and buildings, a committee on bills, second reading, a committee on elections and returns, a committee on engrossed ordinances, a committee on police and license, and a committee on public instruction, each to consist of three members of the board of aldermen. The first named member of each committee shall be the chairman of such committee. Said committees shall perform the duties heretofore performed by similar committees of the city council and board of mayor and aldermen.

SECT. 2. This ordinance shall take effect upon its passage.

Passed January 24, 1911.

AN ORDINANCE AUTHORIZING THE BOARD OF ASSESSORS TO EMPLOY ASSISTANTS IN MAKING LISTS OF RATABLE POLLS.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

That the board of assessors is hereby authorized to employ assistants not exceeding one in each ward to aid in making the lists of ratable polls, such assistants to be employed not exceeding two weeks, in each year, at a compensation of two and one-half dollars a day, to be charged to the account of incidentals and land damages.

Passed February 13, 1911.

AN ORDINANCE RELATING TO THE SALARIES OF THE OFFICERS AND MEMBERS OF THE POLICE DEPARTMENT.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. The city marshal shall receive in full for his services the sum of fifteen hundred dollars per annum. The assistant city marshal shall receive in full for his services the sum of twelve hundred dollars per annum. The captain of the night watch shall receive in full for his services the sum of ten hundred and fifty dollars per annum. The sergeant shall receive in full for his services the sum of two dollars and seventy-five cents per day. Each regular policeman during the first year of service shall receive the sum of two dollars and fifty cents per day and for service thereafter the sum of two dollars and seventy cents per day, which shall be in full for all services rendered by him as watchman and day police.

SECT. 2. Each officer and member of the regular force shall be entitled to two weeks' vacation in each year without deduction from their salary or pay. The city marshal shall designate the time at which each member of the police force shall take his vacation. Except during such vacation and when temporarily excused by the city marshal on account of sickness or for other good and sufficient reasons, the sergeant and regular policemen shall not receive pay when absent from duty.

SECT. 3. All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed, and this ordinance shall take effect April 1, 1911.

Passed March 13, 1911.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED FOR THE ENSUING FINANCIAL YEAR FOR THE USE OF THE CITY.

SECT. 2. There shall be raised in like manner the sum of forty-nine thousand seven hundred two and fifty-hundredths dollars (\$49,702.50) for the support of schools for the ensuing financial year, which, together with the income of the Abial Walker fund, shall be appropriated and divided among the several school districts according to the valuation thereof.

SECT. 3. In addition to the foregoing there is appropriated for the cemeteries of the city one half of the income from the sale of lots, and the income derived from the care of lots and grading, which sum shall be deposited by the superintendent, or others receiving them, in the city treasury. The care of lots for which the city holds trust funds shall be paid from the money appropriated for the care of cemeteries and so much of the income of these trust funds as may be thus expended shall be deposited in the city treasury at the close of the year and the remainder, in each instance, credited to the individual funds.

SECT. 4. In addition to the foregoing there is appropriated for the use of the public library in the purchase of books the amount collected for fines.

SECT. 5. This ordinance shall take effect upon its passage.

Passed March 27, 1911.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE GARBAGE PRECINCT FOR THE ENSUING FINANCIAL YEAR.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. There shall be raised, and there is hereby ordered to

be raised, on the polls and ratable estates within the garbage precinct of said city, the sum of sixty-five hundred dollars (\$6,500) to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be appropriated as follows:

For the collection of garbage and refuse matter in said
precinct \$6,500.00

SECT. 2. This ordinance shall take effect upon its passage.
Passed March 27, 1911.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE LIGHTING PRECINCT FOR THE ENSUING FINANCIAL YEAR.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the lighting precinct of said city, the sum of nineteen thousand dollars (\$19,000) to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be appropriated as follows:

For lighting streets..... \$19,000.00

Passed March 27, 1911.

AN ORDINANCE RELATING TO THE EMPLOYMENT AND PAYMENT OF LABORERS.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. That the heads of departments of the city of Concord, in employing men for city work, shall, so far as possible, with due regard for the public welfare, give preference to native born or naturalized American citizens.

SECT. 2. That the rate of wages to able-bodied city employees working by the day shall be two dollars per day and that the minimum rate shall be one dollar and seventy-five cents per day of nine hours. City employees working by the day or week shall be paid for overtime on week days at the per diem rate, and for overtime on Sundays at one and one-half times the per diem rate.

SECT. 3. That after April 1, 1911, the wages earned each week by employees of the city who work by the day or week shall be paid within eight days after the expiration of the week in which such wages are earned, or upon demand after that time.

SECT. 4. All ordinances or parts of ordinances inconsistent with this ordinance are hereby repealed and this ordinance shall take effect upon its passage.

Passed March 27, 1911.

AN ORDINANCE PROVIDING FOR THE PAYMENT OF ONE HUNDRED DOLLARS PER YEAR TO THE CITY CLERK FOR HIS SERVICES AS CLERK OF THE BOARD OF PUBLIC WORKS.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. That the city clerk shall receive for his services as

clerk of the board of public works the sum of one hundred dollars per year, payable in equal monthly payments.

SECT. 2. This ordinance shall take effect upon its passage.

Passed March 27, 1911.

AN ORDINANCE FIXING THE COMPENSATION OF THE CITY MESSENGER.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. The city messenger shall receive the sum of nine hundred dollars (\$900) a year, payable in equal monthly payments, in full for all services.

SECT. 2. All ordinances and parts of ordinances, inconsistent with this ordinance, are hereby repealed and this ordinance shall take effect on April 1, 1911.

Passed March 27, 1911.

AN ORDINANCE EXTENDING THE STREET SPRINKLING PRECINCT.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. The street sprinkling precinct shall include, in addition to the territory described in chapter 21 of the Revised Ordinances, as amended, the following territory: Franklin Street from Charles Street to High Street; High Street from Franklin to Chestnut Street. All lands, with the inhabitants thereof, abutting on the above described parts of Franklin and High Streets, are hereby included in the street sprinkling precinct.

SECT. 2. This ordinance shall take effect upon its passage.

Passed April 10, 1911.

AN ORDINANCE RELATING TO THE SALARIES OF THE PERMANENT MEN OF THE FIRE DEPARTMENT.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. The permanent force of the Central fire station, the

drivers at the Good Will and Alert hose houses, shall each receive in full for their services the sum of eight hundred and forty dollars per annum, to be paid in monthly installments; the members of the Chemical Company shall each receive in full for their services the sum of nine hundred and twelve dollars, to be paid in monthly installments.

SECT. 2. All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed and this ordinance shall take effect April 1, 1911.

Passed April 10, 1911.

AN ORDINANCE FIXING AND ESTABLISHING A STREET SPRINKLING PRECINCT IN WARD ONE.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. A street sprinkling precinct is hereby fixed and established in Ward One, bounded as follows: Said street sprinkling precinct shall embrace all the territory, together with its inhabitants, situated within the following described limits, to wit:

Beginning on Main Street at a point opposite the southerly end of Grimes' garage, thence northerly on said Main Street to Union Street, thence westerly and northerly on said Union Street to Washington Street, thence westerly on said Washington Street to Charles Street, thence northerly and easterly on said Charles Street to West Canal Street, thence northerly and easterly on said West Canal Street to Main Street, thence northerly on said Main Street to East Canal Street, thence easterly on said East Canal Street to Center Street, thence southerly on said Center Street to Merrimack Street, thence easterly on said Merrimack Street to Cross Street, thence southerly on said Cross Street to Spring Street, thence westerly on said Spring Street to the junction of Main Street and Pleasant Street, thence southerly on said Pleasant Street to Maple Street; also Maple Street from Pleasant Street to High Street, High Street from Maple Street to Spring Street, Washington Street from Charles Street to the westerly line of land of the Concord Manufacturing Company, Main Street from East Canal Street northerly to the Boscawen town line, Elm Street from Main Street westerly to the westerly line of land of Mr. Ainsworth, Webster Street from Elm Street northerly to the Boscawen town line, East Canal Street

from Center Street to Cross Street, Merrimack Street from Cross Street to Penacook Street, Summer Street from Cross Street to the end of said street.

Said precinct shall include in addition to the territory within the aforesaid limit all lots, with their inhabitants, abutting on the streets hereinbefore named, so far as the lines hereinbefore described extend on said streets.

Passed May 8, 1911.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE STREET SPRINKLING PRECINCT IN WARD ONE.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the street sprinkling precinct in Ward One the sum of five hundred dollars (\$500) to defray the necessary expenses and charges of the precinct for the ensuing financial year, which shall be appropriated as follows:

For sprinkling streets five hundred dollars..... \$500.00

SECT. 2. This ordinance shall take effect upon its passage.

Passed May 8, 1911.

AN ORDINANCE EXTENDING THE LIGHTING PRECINCT.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. The lighting precinct shall include, in addition to the territory described in chapter 20 of the Revised Ordinances, as amended by ordinance of June 13, 1904, the following territory: South Pembroke Road from the Lower River bridge to the top of Black Hill, so called. All lands, with the inhabitants thereof, abutting on said above described part of South Pembroke Road, are hereby included in the lighting precinct.

SECT. 2. This ordinance shall take effect upon its passage.

Passed September 11, 1911.

AN ORDINANCE TO REGULATE MOTOR TRAFFIC.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. On and after the first day of January, 1912, operators and chauffeurs of motor vehicles shall not use the cut-out or otherwise disengage the muffler, except for the purpose of making a short signal, while operating any motor vehicle within the compact part of the city of Concord.

SECT. 2. Any person found guilty of a violation of this ordinance shall be fined not exceeding twenty dollars for each offence.

Passed November 13, 1911.

AN ORDINANCE TO PROHIBIT FALSE FIRE ALARMS AND TAMPERING WITH FIRE ALARM BOX APPURTENANCES.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. Any person who shall pull a false fire alarm, break a fire alarm key-box glass or key chain, or otherwise tamper with any fire alarm appurtenance or disfigure a fire alarm pole, shall be fined not more than twenty nor less than ten dollars for each offence.

SECT. 2. This ordinance shall take effect upon its passage.

Passed November 13, 1911.

AN ORDINANCE APPOINTING A BUILDING INSPECTOR AND AUTHORIZING A BUILDING CODE AND FIRE ORDINANCE.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. The chief of the fire department is hereby appointed building inspector at an annual compensation, in addition to his present salary, of two hundred dollars.

SECT. 2. The duties of said building inspector shall be as hereafter defined by the board of aldermen.

SECT. 3. The mayor, Alderman Brown, the city solicitor and said building inspector are hereby constituted a committee to draft a building code and fire ordinance, subject to the approval of the board of aldermen.

Passed January 15, 1912.

JOINT RESOLUTIONS.

A RESOLUTION PROVIDING FOR THE PRINTING OF ROSTERS OF THE CITY GOVERNMENT.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the city clerk be instructed to prepare a roster of the present city government and cause copies thereof to be printed, and that the expense of printing the same be charged to the account of printing and stationery.

Passed January 24, 1911.

A RESOLUTION IN RELATION TO PAYING SALARIES, PAY-ROLLS AND RENTS.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the mayor be, and hereby is, authorized to draw his warrant on the city treasurer for the payment of all salaries, pay-rolls and rents as the same shall become due during the present municipal term, and all bills so paid shall be laid before the committee on accounts and claims at their next meeting.

Passed January 24, 1911.

A RESOLUTION PROVIDING FOR THE PRINTING OF THE MAYOR'S INAUGURAL ADDRESS.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the city clerk be authorized and instructed to have printed copies of the mayor's inaugural address, the expense of the same to be charged to the account of printing and stationery.

Passed January 24, 1911.

A RESOLUTION AUTHORIZING THE COMMITTEE ON LANDS AND BUILDINGS
TO MAKE CURRENT REPAIRS.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the committee on lands and buildings be authorized to expend such sums as may be necessary for current repairs, not exceeding three hundred dollars in any one month, the same to be charged to the appropriation for repairs to buildings.

Passed January 24, 1911.

A RESOLUTION ASKING FOR SEALED PROPOSALS FOR PRINTING AND
BINDING THE ANNUAL CITY REPORTS.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the city clerk be, and hereby is, instructed to ask for sealed proposals for printing and binding the city reports for the year 1910, and submit the same to the finance committee, who shall have full power to act in the matter.

Passed January 24, 1911.

A RESOLUTION PROVIDING FOR THE REVISION OF THE CITY ORDINANCES.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the mayor be, and hereby is, authorized to appoint a special committee consisting of three members, one of whom shall be the city solicitor, and none of whom shall be a member of the board of aldermen, to revise the ordinances of the city of Concord so that they shall conform with the new charter and said committee is authorized to employ such clerical assistance as may be necessary to properly perform this work and the members of said committee shall receive reasonable compensation for their work.

Passed January 24, 1911.

A RESOLUTION APPROPRIATING THREE HUNDRED DOLLARS FOR SUPPLIES OF THE BOARD OF ASSESSORS.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of three hundred dollars is hereby appropriated for the purchase of furniture, cards and office supplies for the use of the board of assessors, be charged to the account of incidentals and land damages.

Passed February 13, 1911.

A RESOLUTION APPROPRIATING NINE AND SIXTY-FIVE ONE-HUNDREDTHS DOLLARS (\$9.65) TO REIMBURSE CHARLES E. JONES FOR TAXES ERRONEOUSLY ASSESSED.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of nine and sixty-five one hundredths dollars (\$9.65) be, and the same hereby is, appropriated to reimburse Charles E. Jones of Loudon, N. H., for taxes paid by him to the city of Concord for the years 1903 to 1908, inclusive, the same having been erroneously assessed. The amount hereby appropriated shall be charged to the account of incidentals and land damages.

Passed March 13, 1911.

A RESOLUTION RELATING TO A JOINT RESOLUTION PASSED MARCH 28, 1910, EXEMPTING THE PROPERTY OF JOHN SWENSON FROM TAXATION.

Resolved by the Board of Aldermen of the City of Concord, as follows:

Whereas on the twenty-eighth day of March, 1910, a joint resolution was passed exempting certain property of John Swenson from taxation and whereas said John Swenson since said date has taken into partnership one Omar S. Swenson, now therefore be it resolved that the said resolution of March 28, 1910, shall be continued in force and apply to said property exempted from taxation now owned by said partnership, during the remainder of the period of ten years.

Passed March 13, 1911.

A RESOLUTION PROVIDING FOR A SPECIAL COMMITTEE ON THE AUDITORIUM.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That a special committee, to consist of the mayor, Alderman Far-
rar, Alderman Roby and Alderman Keene be, and hereby is, ap-
pointed to take charge of and have full powers in regard to all mat-
ters pertaining to moving picture shows, dances, etc., to be held or
given in said Auditorium, also as to the determining and regulating
of all matters which may arise through any lease of said Auditorium
given or proposed. They shall act in respect to the above matters
during the present municipal term unless sooner removed by this
board.

Passed March 13, 1911.

A RESOLUTION APPROPRIATING ELEVEN HUNDRED TEN AND SEVENTY-
FOUR HUNDREDTHS DOLLARS FOR TEXT-BOOKS USED IN UNION
SCHOOL DISTRICT.

follows:*

SECTION 1. That the sum of eleven hundred ten and seventy-four
hundredths dollars (\$1,110.74) be, and hereby is, appropriated out
of any money in the treasury not otherwise appropriated for the
purchase of text-books used in Union School District.

SECT. 2. This resolution shall take effect upon its passage.

Passed March 13, 1911.

A RESOLUTION AUTHORIZING THE TRANSFER OF FUNDS OF THE WEST
CONCORD SEWERAGE PRECINCT.

*Resolved by the Board of Aldermen of the City of Concord, as
follows:*

That the city treasurer be, and hereby is, authorized to transfer
the sum of four hundred dollars (\$400) from the West Concord
sewerage precinct sinking fund account to the city treasury, said
fund to constitute a part of the amount to be raised for the sinking

fund for 1911, which, together with one thousand dollars (\$1,000) raised by taxation, amounts to one thousand four hundred dollars (\$1,400), the sum required by ordinance.

Passed March 27, 1911.

A RESOLUTION APPROPRIATING THIRTY AND SEVENTY-NINE HUNDREDTHS DOLLARS FOR TEXT-BOOKS USED IN TOWN SCHOOL DISTRICT.

Resolved by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. That the sum of thirty and seventy-nine hundredths dollars (\$30.79) be, and hereby is, appropriated out of any money in the treasury not otherwise appropriated for the purchase of text-books used in Town School District.

SECT. 2. This resolution shall take effect upon its passage.

Passed March 27, 1911.

A RESOLUTION APPROPRIATING MONEY FOR THE USE OF THE MAYOR.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of two hundred dollars (\$200) be, and hereby is, appropriated for the necessary expenses and supplies for the mayor's office. The same to be expended under the direction of the mayor and charged to the account of incidentals and land damages.

Passed March 27, 1911.

A RESOLUTION EXEMPTING FROM TAXATION THE PROPERTY OF THE DUX TOY COMPANY FOR A TERM OF TEN YEARS.

Resolved by the Board of Aldermen of the City of Concord, as follows:

WHEREAS, It is represented that the Dux Toy Company, now located in Warner, N. H., has leased the premises known as Hill building on Durgin Avenue and proposes to move its business from Warner to said premises and establish in the city of Concord an important industry; and

WHEREAS, It is expected that the establishment of this industry

will be of special benefit to this city and the citizens thereof; it is

Resolved, That the manufacturing equipment, including machines, shafting and tools, goods in process of manufacture and the finished product of the Dux Toy Company be, and hereby are, exempted from taxation for the term of ten years from March 27, 1911, according to the provisions of the Public Statutes of New Hampshire.

Passed April 10, 1911.

A RESOLUTION PROVIDING FOR A DISCOUNT OF TAXES.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That a discount of two per cent. shall be allowed on all taxes assessed for the year 1911, paid on or before the fifteenth day of July 1911.

Passed April 10, 1911.

A RESOLUTION IN RELATION TO THE LOCATION OF SALOONS.

Resolved by the Board of Aldermen of the City of Concord, as follows:

WHEREAS, Pleasant Street Extension is the main thoroughfare to the railroad station and as such is used during the day and evening by unattended women and children:

It is the sense of this board that no saloons should be located on said street, and the state board of license commissioners are hereby respectfully requested not to locate any saloons on said street.

The city clerk is hereby directed to send a certified copy of this resolution to the State Board of License Commissioners.

Passed April 10, 1911.

A RESOLUTION APPROPRIATING FOUR HUNDRED EIGHTY AND SIXTY-THREE HUNDREDTHS DOLLARS FOR TEXT-BOOKS USED IN PENACOOK SCHOOL DISTRICT.

Resolved by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. That the sum of four hundred eighty and sixty-three hundredths dollars (\$480.63) be, and hereby is, appropriated out of

any money in the treasury not otherwise appropriated, for the purchase of text-books used in Penacook School District.

SECT. 2. This resolution shall take effect upon its passage.

Passed April 10, 1911.

A RESOLUTION RELATING TO A LEASE OF THE AUDITORIUM.

Resolved by the Board of Aldermen of the City of Concord, as follows:

WHEREAS, A committee of the last city government consisting of the mayor and the committee on lands and buildings, voted to lease the Auditorium for the term of three years from February 1, 1911, to Marens & Cohen; and

WHEREAS, The term of office of said committee expired before the said lease was executed and signed on behalf of the city, it is hereby

Resolved, That the mayor be, and hereby is, authorized to sign said lease on behalf of the city.

Passed April 10, 1911.

A RESOLUTION IN RELATION TO COAL, WOOD AND ICE.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the committee on finance be, and hereby are, directed to ask for bids for supplying the city with coal, wood and ice for the ensuing year, and that said committee have full power to accept or reject any bids offered.

Passed May 8, 1911.

A RESOLUTION IN RELATION TO BAND CONCERTS FOR 1911.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the mayor is hereby authorized to contract with Arthur F. Nevers in the sum of three hundred twenty-five dollars (\$325) for band concerts during the summer of 1911.

Passed May 8, 1911.

A RESOLUTION APPROPRIATING MONEY TOWARDS DEFRAYING THE EXPENSES OF A PLAYGROUND IN WARD TWO.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of twenty-five dollars (\$25) be, and the same is hereby, appropriated for the use of defraying the expenses of a playground in Ward 2.

Said sum to be expended under the direction of Alderman Harry B. Sanborn and to be charged to the account of incidentals and land damages.

Passed May 8, 1911.

A RESOLUTION RELATING TO CITY PAY-ROLLS.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the city treasurer be, and hereby is, authorized and directed to turn over all of the city pay-rolls for the period prior to January 1, 1908, now in his possession, to the city clerk, and to carry all money set apart for the payment of such pay-rolls which is unexpended, to the general account. In the event of demand being made by the proper person of the amount due on said pay-rolls, the mayor and city clerk are hereby authorized to draw orders on the city treasurer for the payment thereof.

Passed May 8, 1911.

A RESOLUTION APPROPRIATING MONEY FOR THE PURCHASING OF HORSES FOR THE FIRE DEPARTMENT.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of six hundred dollars (\$600) be, and is hereby, appropriated out of any money in the treasury not otherwise appropriated for the purchase of a pair of horses for the fire department; this sum shall be charged to the expenses of the fire department.

Passed May 8, 1911.

A RESOLUTION CONSTITUTING A COMMITTEE TO INVESTIGATE THE MATTER OF MOTOR APPARATUS FOR THE CONCORD FIRE DEPARTMENT.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the committee on fire department, with the mayor added, is hereby directed to make an investigation of the adaptability of motor fire apparatus for service in Concord, and for such purpose may visit such places as have installed such apparatus, the expenses incurred to be paid from the appropriation for incidentals and land damages on bills approved by the committee on accounts and claims.

Said committee is directed to report on the following subjects in connection with the investigation above outlined:

The cost to the city of a combination chemical (two tank) and hose wagon and a gasolene pumping engine.

The number of pieces of horse-drawn apparatus now in service in the Concord fire department that would be replaced by the installation of the two pieces of motor apparatus indicated and the saving that would accrue through the retirement of the horses now employed on such apparatus from the service of the city.

The estimated cost of maintenance of the motor apparatus per year, exclusive of pay of firemen, in comparison with the cost of maintaining the present apparatus, the figures to include the cost per year for keep per horse now employed.

The estimated cost to the city of the proposed remodeling of the Central fire station.

The cost to the city of the proposed new stations at the South and West ends should it become necessary to erect those structures and distribute the apparatus in accordance with the report on the subject by a committee of the former city government, and the cost of maintenance of such stations per year.

The amount of money that the installation of such motor apparatus would save the city should it be found that the installation of the new apparatus would do away with the necessity of erecting additional stations for fire department purposes.

And to investigate and report upon all matters in connection with the above subjects as will bear on the questions presented, said report to be made at the earliest possible day consistent with a full and proper consideration of the entire subject-matters contained in this resolution.

Passed May 8, 1911.

A RESOLUTION APPROPRIATING \$23 TO REIMBURSE REV. T. J. E. DEVOY FOR TAXES ERRONEOUSLY ASSESSED.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of \$23 be, and the same is hereby, appropriated to reimburse Rev. T. J. E. Devoy of Concord, N. H., for taxes paid by him for the year 1907, the same having been erroneously assessed. The amount hereby appropriated shall be charged to the account of incidentals and land damages.

Passed May 8, 1911.

A RESOLUTION IN REGARD TO THE LEASE OF A CLOCK FOR CITY HALL BUILDING.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the mayor be, and hereby is, instructed and authorized to make a lease with the Western Union Telegraph Company for the installation of an electric clock in City Hall building at a yearly rental of \$15.

The same to be charged to account of incidentals and land damages.

Passed May 8, 1911.

A RESOLUTION RELATIVE TO THE LOCATIONS OF SALOONS.

Resolved by the Board of Aldermen of the City of Concord, as follows:

At the April meeting of the board of aldermen it was voted that it was the sense of the board of aldermen that licenses to deal in liquor should not be granted on Pleasant Street Extension. Since this vote was passed the state board of license commissioners has included Main Street from Pleasant Street to Center Street in the territory in which licenses to deal in liquor will be granted. If licenses to deal in liquor are to be granted on Main Street no good reason appears why such licenses should not be granted on Pleasant Street Extension; and it is therefore

Resolved, That in view of the fact that Main Street from Pleasant Street to Center Street has been included in the territory in which

licenses to deal in liquor will be granted, it is the sense of this board that licenses to deal in liquor should be granted in proper locations on Pleasant Street Extension and that the vote passed by this board at its April meeting be, and hereby is, rescinded; and it is further

Resolved, That it is the opinion of this board that licenses of the third class can properly be granted to be exercised in the locations where such licenses were exercised when the city of Concord was before under the license law.

The city clerk is directed to transmit a certified copy of this vote to the state board of license commissioners.

Passed May 8, 1911.

A RESOLUTION APPROPRIATING MONEY IN AID OF MILITARY ORGANIZATIONS.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of one hundred dollars be hereby appropriated for the use of Company C, First Regiment, N. H. N. G., the sum of one hundred dollars for the use of Company E, of the same regiment, and the sum of fifty dollars for the use of the Hospital Corps attached to the same regiment, they being the military organizations now having their headquarters in the state armory in the city of Concord, and that these several sums be paid to the commanding officers of the said organizations, respectively, out of any money in the treasury not otherwise appropriated.

Passed May 8, 1911.

A RESOLUTION IN RELATION TO A TEMPORARY LOAN NOT EXCEEDING TWENTY-FIVE THOUSAND DOLLARS (\$25,000).

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the committee on finance are hereby authorized to borrow on the credit of the city a sum not to exceed twenty-five thousand dollars (\$25,000) for current expenses in anticipation of taxes for the year 1911 upon such terms and for such amounts as the committee shall determine.

Passed June 12, 1911.

A RESOLUTION APPROPRIATING THIRTY-SIX HUNDRED FIFTY-THREE AND NINETY-SEVEN HUNDREDTHS DOLLARS (\$3,653.97) TO PAY FOR THE REAL ESTATE SOLD TO THE CITY OF CONCORD FOR UNPAID TAXES FOR THE YEAR 1910.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of thirty-six hundred fifty-three and ninety-seven hundredths dollars (\$3,653.97) be, and the same hereby is, appropriated out of any money in the treasury not otherwise appropriated to pay the amount due the city of Concord for real estate purchased at the tax collector's sale of real estate for the unpaid taxes for the year 1910.

Passed June 12, 1911.

A RESOLUTION APPROPRIATING MONEY FOR A SEWER IN NOYES STREET.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of fourteen hundred dollars (\$1,400) be, and hereby is, appropriated out of any money in the treasury not otherwise appropriated for the purpose of constructing a sewer in Noyes Street between Dartmouth and South Streets.

Passed June 12, 1911.

A RESOLUTION APPROPRIATING MONEY FOR THE JOHN KIMBALL PLAYGROUND.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of three hundred seventy-five dollars (\$375) be, and the same hereby is, appropriated out of any money in the treasury not otherwise appropriated for the John Kimball playground during the season of 1911. Said sum shall be expended under the direction of the following committee: Alderman Fraser, chairman; Alderman Brown and Alderman Anderson.

Passed June 12, 1911.

A RESOLUTION APPROPRIATING MONEY FOR THE PURCHASE OF A HAND ENGINE FOR WEST CONCORD FIRE STATION.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of two hundred dollars (\$200) be, and the same hereby is, appropriated out of any money in the treasury not otherwise appropriated for the purchase of a hand fire engine belonging to the Veteran Firemen's Association, to be placed in the engine house at West Concord.

Passed June 12, 1911.

A RESOLUTION AMENDING A RESOLUTION PASSED MARCH 13, 1911, ENTITLED "RESOLUTION PROVIDING FOR A SPECIAL COMMITTEE ON THE AUDITORIUM."

Resolved by the Board of Aldermen of the City of Concord, as follows:

That a resolution passed March 13, 1911, entitled "Resolution providing for a special committee on the Auditorium," be amended by striking out the whole of said resolution and insert in the place thereof the following: That a special committee to consist of the mayor, Alderman Farrar, Alderman Roby and Alderman Norris be, and hereby is, appointed to take charge of and have full powers in regard to all matters pertaining to moving picture shows, dances, balls, etc., to be held or given in said Auditorium, and to the renting of said Auditorium to any organizations, societies or conventions, as provided in any lease of said Auditorium. They shall act in respect to the above matters during the present municipal term unless sooner removed by this board, and any two members of said committee may call a meeting of the same at any time.

Passed June 12, 1911.

A RESOLUTION AMENDING A RESOLUTION PASSED MAY 8, 1911, ENTITLED "RESOLUTION APPROPRIATING MONEY IN AID OF MILITARY ORGANIZATIONS."

Resolved by the Board of Aldermen of the City of Concord, as follows:

That a resolution, entitled "Resolution appropriating money in

aid of military organizations," passed May 8, 1911, be, and hereby is, amended by striking out the words "attached to the same regiment" so that the resolution as amended will read: That the sum of one hundred dollars be hereby appropriated for the use of Company C, First Regiment, N. H. N. G., the sum of one hundred dollars for the use of Company E of the same regiment, and the sum of fifty dollars for the use of the Hospital Corps, they being the military organizations now having their headquarters in the state armory in the city of Concord, and that these several sums be paid to the commanding officers of the said organizations, respectively, out of any money in the treasury not otherwise appropriated.

Passed July 10, 1911.

A RESOLUTION APPROPRIATING THE SUM OF TWO THOUSAND DOLLARS (\$2,000) FOR INCIDENTALS AND LAND DAMAGES.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of two thousand dollars (\$2,000) be, and the same is hereby, appropriated out of any money in the treasury not otherwise appropriated, for incidentals and land damages.

Passed July 10, 1911.

A RESOLUTION APPROPRIATING THE SUM OF ONE THOUSAND DOLLARS (\$1,000) FOR PRINTING AND STATIONERY.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of one thousand dollars (\$1,000) be, and the same is hereby, appropriated out of any money in the treasury not otherwise appropriated, for printing and stationery.

Passed July 10, 1911.

A RESOLUTION APPROPRIATING THE SUM OF EIGHT HUNDRED DOLLARS (\$800) FOR THE SUPPORT OF CITY POOR.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of eight hundred dollars (\$800) be, and the same

is hereby, appropriated out of any money in the treasury not otherwise appropriated, for the support of city poor.

Passed July 10, 1911.

A RESOLUTION AUTHORIZING THE CITY SOLICITOR TO INSTITUTE PROCEEDINGS NECESSARY TO PROTECT THE CITY SEWERS.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the city solicitor be, and hereby is, instructed to take the steps necessary to prevent the flooding of the sewers of the city by the Manchester Traction, Light & Power Company or by any other corporation or by any individual, and,

Resolved, That the city solicitor is hereby authorized to incur the necessary expense incident thereto, by and with the approval of the mayor.

Passed August 14, 1911.

A RESOLUTION APPROPRIATING MONEY FOR THE PURCHASE OF LAND FOR THE EXTENSION OF SOUCCOOK CEMETERY.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of one hundred dollars (\$100) be, and the same hereby is, appropriated for the purchase of land for the extension of Souccook Cemetery. The amount hereby appropriated shall be charged to the account of incidentals and land damages and expended under the direction of the mayor.

Passed August 14, 1911.

A RESOLUTION APPROPRIATING ELEVEN DOLLARS AND THIRTY CENTS (\$11.30) TO REIMBURSE JEDEDIAH CARTER FOR TAXES ERRONEOUSLY ASSESSED.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of eleven and thirty one-hundredths dollars (\$11.30)

be, and the same hereby is, appropriated to reimburse Jedediah Carter of Concord, for taxes paid by him to the city of Concord, the same having been erroneously assessed for the year 1911. The amount hereby appropriated shall be charged to the account of incidentals and land damages.

Passed September 11, 1911.

A RESOLUTION APPROPRIATING \$509 FOR THE USE OF THE FIRE DEPARTMENT.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of five hundred and nine dollars (\$509) be, and the same is, hereby appropriated out of any money in the treasury not otherwise appropriated for the purpose of relining thirteen hundred (1,300) feet of fire hose, the same to be expended under the direction of the chief engineer.

Passed November 13, 1911.

A RESOLUTION AUTHORIZING THE SETTLEMENT OF THE SEWER CONTROVERSY.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the city solicitor be, and hereby is, authorized to settle the case of the City versus the Manchester Traction, Light & Power Company, instituted for the protection of the sewers of the city, for the sum of seven thousand six hundred dollars; and,

Resolved, That the mayor be, and hereby is, authorized, on payment of said sum to the city, to execute and deliver in the name and under the seal of the city, a joint contract with said Manchester Traction, Light & Power Company, permitting the maintenance by said company upon its dam at Garvin's Falls of flash-boards to the height of three feet above the main crest of the present dam, or to a height of 3.17 feet on city datum, or a deed to said company of the perpetual right to maintain flash-boards on said dam to that height and to hold back the water of the Merrimaek River thereby as against the city, such contract or deed to be in such form as the

city solicitor may approve, and said flash-boards to be maintained at the pleasure of said company, *provided, however*, that the supporting pins of said flash-boards are to be constructed to release said flash-boards when the water flowing over said dam rises to the height of eight inches above the top of three-foot flash-boards, or 3.84 feet on city datum, and

Resolved, That after deducting expenses, the proceeds of this settlement be paid into the city sewer precinct fund.

Passed December 20, 1911.

A RESOLUTION APPROPRIATING FOUR HUNDRED DOLLARS (\$400) TO REIMBURSE THE JOSEPH STICKNEY ESTATE FOR TAXES ERRONEOUSLY ASSESSED.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of four hundred dollars (\$400) be, and the same is, hereby appropriated to reimburse the Joseph Stickney estate for taxes paid by Joseph Stickney to the city of Concord for the years 1900 and 1901, the same having been erroneously assessed. The amount hereby appropriated shall be charged to the account of incidentals and land damages.

Passed December 20, 1911.

A RESOLUTION AUTHORIZING THE SETTLEMENT OF THE LYSTER LAND DAMAGE CLAIM.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the mayor be, and hereby is, authorized to contract in behalf of the city with Lyster Brothers for the permanent settlement of the claim of said Lyster Brothers for damage to their land by reason of the alleged obstruction of a certain culvert under North Main Street between Montgomery and Pitman Streets, and

Resolved, That said contract be drawn subject to the approval of the city solicitor, and shall provide that pipes be laid by the city to relieve the present situation, which pipes, after being laid, shall be maintained forever by said Lyster Brothers and their successors and assigns, and

Resolved, That said contract shall contain a release by said Lyster Brothers of all claim by them or their successors and assigns, against the city on account of the obstruction of said culvert.

Passed January 15, 1912.

A RESOLUTION RELATING TO THE ABATEMENT OF INTEREST ON TAXES ON THE ESTATE OF THE LATE GEORGE H. DOWNING.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That all the interest charges above and over the rate of 6 per cent., which have accrued and will accrue to February 1, 1912, on all the unpaid taxes assessed against the estate of the late George H. Downing, deceased, or his estate thereof, be, and hereby are, abated.

Passed January 15, 1912.

A RESOLUTION APPROPRIATING MONEY FOR DEFICIENCIES IN THE SEVERAL DEPARTMENTS.

Resolved by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. That the sum of six thousand eight hundred seventy-four and ninety-nine one-hundredths dollars (\$6,874.99) be, and hereby is, appropriated out of any money in the treasury not otherwise appropriated, to pay outstanding claims as follows:

Board of Health.....	\$5.58

MAYORS OF CITY OF CONCORD.

The original charter of the city was adopted by the inhabitants March 10, 1853, and until 1880 the Mayor was elected annually. Since 1880 the Mayor has been elected for two years at each biennial election in November. Under the City Charter, adopted May 11, 1909, the Mayor was elected in December, 1910, for one year, and biennially thereafter in November, beginning in the year 1911.

OFFICERS OF THE DISTRICT,

JOHN B. ABBOTT	<i>Moderator.</i>
LOUIS C. MERRILL	<i>Clerk.</i>
HENRY H. METCALF, JOHN P. GEORGE	<i>Auditors.</i>

REPORT OF THE BOARD OF EDUCATION FOR THE YEAR ENDING MARCH 31, 1912.

To the Citizens of Union School District:

The Board of Education of Union School District hereby presents its fifty-second annual report.

We are pleased to again record our conviction based upon a knowledge of conditions, that the schools of this district are worthy of your deepest confidence.

We are more deeply impressed every year with the necessity of keeping in close touch with the increasing demands of the times in educational matters, which requires no small amount of attention and expenditure of money; but in no direction can money be expended to better advantage than in the equipment of our boys and girls for life's responsibilities. We feel that our educational facilities are admirably adapted to that end, not only in material equipment, but in an efficient teaching force.

Interest in manual training has increased far beyond our expectations. The Morrill School under its present management, is attracting the attention of educators from all over New England. The report of Principal French merits your careful perusal.

The new system of grading instituted last year has justified our anticipations in ways emphasized in the report of Superintendent Rundlett.

While mindful of the constant needs of the schools in making them more and more efficient, we are not unmindful of the fact that increased expenditures make a proportionate rise in taxation, and yet it is our constant aim to so utilize ways and means as to conserve the best interests

of the pupils and teachers, and avoid extra burdens to the taxpayers.

To this end we ask for a somewhat larger appropriation to meet the demands occasioned by a general increase of salaries of the elementary grade teachers, as an immediate result of the increased cost of living. A living wage must be paid if we are to receive the best returns in service rendered.

To the detailed report of the superintendent we invite your careful attention.

Respectfully submitted,

JOHN VANNEVAR,

DENNIS E. SULLIVAN,

FANNY E. MINOT,

OMAR S. SWENSON,

WILLIAM H. SAWYER,

CARRIE E. EVANS,

EDWARD C. NILES,

ALICE M. NIMS,

HARRY H. DUDLEY,

Board of Education.

REPORT OF COMMITTEE ON BUILDINGS AND REPAIRS.

CONCORD, N. H., March 4, 1912.

To the Board of Education of Union School District:

In addition to the following detailed report of what has been done with the money appropriated for repairs during the past year, we also submit a statement of what ought to be done during the following year to keep the school plant from deteriorating and to insure an economical handling of the same. The addition to the heating arrangement of the Parker School is saving the district much money for fuel. The new motor is working satisfactorily and will soon pay for itself in saving expense for power. It is expected that the change in the Eastman School, made by equipping the building with metal weather strips, will result in a great saving of fuel.

The appropriation for extraordinary repairs should be large enough to meet the expense of making the following changes next year:

1. A new tubular boiler for the Chandler School.
2. Retubing and resetting the boiler in the Parker School.
3. New heating apparatus for the Merrimack building.
4. New heating apparatus for the Penacook School.
5. Painting the interior walls of the High School building.
6. Varnishing the interior woodwork, painting the walls, kalsomining the ceilings, laying new floors, and repairing the outside of the Walker School.

It will be the policy of the committee hereafter to put one or more buildings in first-class repair each year, as occa-

sion demands, thus keeping the plant in economical working order.

New adjustable furniture should be made to replace the old combination furniture wherever it is in use.

The Union Street schoolhouse and lot were sold at public auction on August 1, 1911, for the sum of \$1,350. We feel that the district was fortunate in this transaction. The sale of the Bow Brook building is to take place March 16, 1912. An account of this will be made in next year's report.

The school buildings of the district are in good repair, as a general thing, and the money expended has been used to good purpose.

DETAILED REPORT OF REPAIRS MADE.

Cogswell School.

Platform and steps repaired. Blackboards slated.

Penacook School.

Two new umbrella racks. All the desks, tables and chairs cleaned and varnished. Door to basement repaired. Closet seats fastened. Set bowl and sanitary fountain for teachers' room. Furnaces repaired. New pit and trap to drain basement. Desks, chairs, teachers' desks, tables, all inside woodwork cleaned, scraped, shellacked and varnished. Window sashes painted and varnished. New door cut into teachers' room.

Rumford School.

Doors to cabinets repaired. New glass in windows. Basement floors covered with concrete dressing.

Parker School.

Brick-work and fire-box to boiler repaired. Blackboards slated. New shades for some windows. Four large radi-

ators for hall. New radiator for sewing room. Radiator in board room exchanged for the one in the superintendent's office. New manhole plate. Basement floors covered with concrete dressing. Walls painted. All wood-work except large hall and board room varnished. All inside window sashes painted. New electric motor.

Chandler School.

Wood-work in basement painted. Outside doors painted. Desks polished.

Kimball School.

New closet for paper. New curtains for some windows. New sanitary drinking fountains for upper and lower halls. Flush tank repaired, also boys' latrine. Two new radiators in lower hall. Roof painted. Furnaces repaired. Floor of teachers' room seraped and varnished.

Merrimack School.

Front steps, platform and furnaces repaired.

Franklin School.

Flag-pole painted and new cable for same. Pole taken down and reset. Poreh floors and bulkhead painted. Chairs varnished.

Tahanto School.

Building shingled. New gutters. Furnaces repaired and cleaned. Water pipes over urinal repaired. Drain pipes dug up and put in order. Outside of building painted.

Harriet P. Dame School.

Puttying and repainting flag-pole. New sanitary foun-

tains for basements. Walls of all rooms cleaned, sized and painted. Ceilings of three rooms kalsomined. Floors of porches and steps painted. All interior wood-work varnished. Glass reset. All pupils' desks, teachers' desks and tables varnished.

Morrill School.

Changing over south entrance into a lumber room. Water pipes to toilet room painted. Windows tightened with oakum and cement.

Garrison School.

Flashing to ventilators repaired. Two teachers' desks and tin roof painted.

High School.

Bicycle room made over into manual training room. New damper for northeast ventilating shaft to prevent freezing. Fire-box repaired. New draining board for biology room. Boilers repaired. Basement floors covered with dressing. New steam valves for new room.

Walker School.

Furnace and pipes repaired. Flush tank repaired.

Dewey School.

Furnaces and ventilating shafts repaired. Rings on kindergarten floor renewed.

REPORT OF SUPERINTENDENT

To the Board of Education of Union School District:

I have the honor to submit for your consideration my twenty-seventh annual report, the fifty-second of its series. As usual this not only accounts for what has been done, but also has suggestions calculated to make school work more efficient.

If we are to profit by experience, that experience will have been in vain if it does not result in our increased ability and desire to adapt methods to prevailing conditions, if it furnishes no power of initiation or construction but is content to feed upon itself until its vital exhaustion is consummated.

So many and such different factors enter into maintaining a proper standard of school work that we cannot afford to disregard any if we are conscientious in the economical expenditure of school revenue.

Methods which have become ineffective should give place to those which are better adapted to the needs of to-day. The teaching corps should be allowed to lose none of its life and vigor either through the ravages of time or through inattention to modern methods.

School equipment should be kept up to date by constant renewals and additions. The promotion of health in the teaching corps and in the student body is of the utmost importance.

In these days when the *commercial* by force of circumstances dominates public attention, let us not forget that the *cultural* in the past has produced proofs of its superiority, and that it is our duty to shape and direct school energies so that, in the future, children shall not be robbed of that

richer training which undue attention to any one line of educational activity can never furnish.

ATTENDANCE.

The enrollment in the schools is a little smaller than that of last year. This difference is manifest in the kindergartens and in the elementary group. The high school attendance shows much larger on account of the addition of the fifth year, which has destroyed the old lines of grade demarcation. The following tabulation is given for comparison and the more complete statement may be found in Appendix II of this report.

ATTENDANCE.

The laws governing child labor, revised by the last legislature, are being carefully enforced in the district. Up to the present time, under the revision, there have been issued from this office one hundred thirty-nine employment certificates, divided as follows:

Regular certificates,	87
Vacation certificates,	43
For age only certificates,	9

Many who secured these, did so at the earliest possible moment allowed by law. Nearly all would much better have attended school for a longer period. Some, desirous of remaining in school, were forced to go to work by their parents, who, seemingly, cared much more for the small wages than for the child's welfare.

Attention is called to the tabulated reports of the truant officer and the school census. The cost of taking the census was materially lessened and will meet with further reduction next year.

Many children are kept from school for lack of proper clothing. All such cases are carefully looked after and the aid of the city invoked. The assistance of the truant officer and the probation officer has been most valuable in the final disposition of troublesome cases of truancy.

HIGH SCHOOL.

The work accomplished in both groups is acceptable and much of it superior. Through legislation by the Board of Education, extraordinary efforts by the teachers, and increased interest by the pupils, a great deal of energy has been diverted from athletic and social channels and directed toward accomplishing the work laid out in the curriculum, the results showing clearly the value of this policy. A report of one year's trial of the reorganization scheme was submitted to the Board of Education in the fall of

1911, giving definitely the results attained. The report printed elsewhere in this volume was afterward sent out by the state superintendent of public instruction as an official document. A similar report of the second year's trial will be submitted next summer. That this scheme is one of importance is shown by the fact that inquiries concerning it are coming in from points near and remote.

Group I.

The feature of this group has been the subordination of the distractions of modern high school life to the requirements of the course. The results show a gain in school work and social conditions. The principal approves the semi-annual promotion plan and asks for improvements to the building. The attendance, which has been larger this year than last, is divided as follows:

	Total Enrollment.	Half Year Enrollment.
Class V,	2	2
“ U,	77	73
“ T,	13	13
“ S,	74	74
“ R,	26	25
“ Q,	138	130
“ P,	18	15
Special,	4	3
Post-graduate,	5	4
	<hr style="width: 10%; margin: 0 auto;"/> 357	<hr style="width: 10%; margin: 0 auto;"/> 338

Pupils now graduate from this school in February and in June. Seventy-six graduated last June and of this number thirteen entered college, several others planning to enter next fall. One pupil graduated January 26, 1912, the first one to do so in mid-year under the present plan.

Miss Burns, for a number of years instructor in the com-

mercial department, resigned in August to accept a similar position in Brockton, Mass. Mr. A. H. Adams was selected to fill the vacancy and served until November, when he resigned to take a like position in Revere, Mass. Mr. A. R. Tarr, of Newburyport, was elected to succeed him. The school library has been enlarged by the addition of many new volumes.

The following changes have been made in military drill: The ownership and accounting for property has been systematized. The attainment of higher ranking for officers now depends upon merit, eighty-five per cent. being the average examination mark to be gained before promotion. The prize drill has been changed to an exhibition drill. The annual field day, shorn of its social features, is devoted almost wholly to work in sham battle. The uniformed battalion has increased in numbers twenty per cent. The instructor asks that the old guns, which are nearly worn out, be replaced by modern Krag-Jorgenson rifles and that new equipment be furnished.

Group II.

The activities of this group have been governed by modern ideas. The planning of the work has been done always with reference to the age and the capacity of the pupil, discipline maintained firmly but judiciously, the health of the student body carefully conserved and the co-operation of the home sought in regulating the social questions that always present themselves. The wholesome school spirit which was apparent in this group last year has continued to the satisfaction of all concerned.

PARKER SCHOOL.

The reading requirements in English for boys in classes O and P have been changed to furnish something better suited to their natural tastes and inclinations. The school

lunch has been repeated and the following menu served each week:

Parker School Luncheon.

1911-1912.

MENU.

Soup with Buttered Rolls,	5c.
Chicken Pie with Mashed Potato,	10c.
Escalloped Oysters with Rolls,	10c.
Boiled Fowl, Cream Sauce, Mashed Potato,	10c.
Beefsteak Pie with Mashed Potato,	10c.
Chowder with Rolls or Crackers,	5c.
Oyster Stew with Crackers,	10c.
Lamb Pie with Mashed Potato,	10c.
Roast Beef with Mashed Potato,	10c.
Roast Lamb with Mashed Potato,	10c.
Cocoa,	5c.
Bottle of Milk,	5c.

The success of the feature is the subject of investigation by other cities.

During the last semester commercial history and commercial geography are being taught as one subject after a syllabus prepared by Miss Ryan and Miss Dickerman, approved by the state superintendent of public instruction and by Mr. Cook. The change allowed more time for English in the commercial classes.

The new system of teaching mathematics in the secondary schools is receiving its trial here for the first time in the city. The development of mathematical power, even in the dullest pupils, is distinctly noticeable. This work must be taught strictly in accordance with the plan outlined in the Teachers' Manual to gain the best results. While the teacher is not required to sink his individuality entirely in

that of the author, nevertheless he cannot safely substitute his own ideas to the detriment of either the general or the specific directions laid out.

This year it was necessary to put class N into this building and class P, composed entirely of retarded pupils, was sent to the high school building. The arrangement of classes for next year is problematical. The work done by the school is of high class and the administration of its affairs is in capable hands.

CHANDLER SCHOOL.

The scheduled work for these grades has been faithfully carried out. For the first semester all the students were in class M. The last semester about thirty were in class M and the remainder in class N. The pupils who are obliged to stay at the building during the noon recess have had warm cocoa served in the cooking room. The work done here shows improvement over last year and the general tone of the school is admirable and a credit to the city.

WALKER, GARRISON, EASTMAN, KIMBALL AND RUMFORD SCHOOLS.

The high school classes enrolled in these schools seem to be doing the required work with success, employing methods used in the succeeding grades. During the last semester the class N pupils of the Garrison School, who elected Latin, were transferred to the Chandler School.

ELEMENTARY SCHOOLS.

Group III.

The chief concern of this group has been the working out of the course of study as far as adjusted. New courses in geography have been formulated for classes E, F, G, H,

I, J, K. The teachers of these grades were helpful in determining not only the amount, but also the character of work to be done, and as a body they have spared no pains to maintain the standard of former years.

In promoting pupils much care has been exercised regarding their ages; and parents, frequently consulted, were glad to accept the judgment of the teacher in many instances. Your attention is called to the results attained last year by these schools as tabulated in the mid-year report. The burden of the superintendent's duties has been in adapting methods of work so as to insure the greatest economy of school time. This I find to be the one thing which occupies the attention of the best educational thinkers.

It has been found that the pre-adolescent pupil is capable of much more advanced work than was formerly supposed to be the case. By appealing to the positive side of child nature much more and much better results can be gained and with less strain than could be realized under the old way of endless criticism. The observance of parents' days, festivals, issuing of school papers, and the usual number of visits to other schools by the teachers have occurred. Extended athletic exercises in the form of games and folk-dancing are practiced, particularly in the Dewey, Kimball and Rumford buildings. The John Stark Club of the Rumford School is strong in maintaining a fine school spirit and in promoting wholesome discipline.

The attention of the board is called to the decided improvement shown in all the branches of elementary school work, much of which can be demonstrated by tabulated results and specimens of work at the office of the superintendent. Also permit me to direct your attention to the practice of approved modern pedagogical methods that are being tried out with success in these classes and those of group two. The standing of these schools is satisfactory and in no way is any great amount of weakness displayed,

other than that which must always result from the first experience of new teachers and a few other apparently unavoidable conditions.

KINDERGARTENS.

The attendance in the kindergartens for the year 1910-1911 was larger by forty-four than in the year preceding. At present the enrollment is considerably less. One reason for this is that parents are not sufficiently informed of their value as a part of the public school system. Some means should be taken to bring this about at the beginning of next fall term.

The first training of children ought to be as largely individual as conditions will allow. This naturally belongs to the kindergarten age, can be accomplished better than at any other time in the school life of the child, and is in full accord with the whole trend of modern education. The question of kindergarten training does not reduce to the mental development of the child so much as it does to his social standing and that of his home. School teachers, truant officers, school nurses and superintendents know that if school children need anything they need good homes. Kindergarten training is broader than it seems to be. It gradually overcomes the child's natural fear and superstition, substituting in place thereof a free, frank expression—one of the distinguishing qualities between brutes and rational beings. Indirectly it transforms home conditions, so that both child and parent value the school for what is done in their behalf. Kindergartens should be encouraged and be made to show a healthy growth, but never beyond the limits of reason as to the expense of maintaining them. The question everybody should ask is, "Are children of kindergarten training better children than they would have been if they had not received it?" My observation for twenty years tells me that they are.

In the summer the board passed a rule that a kindergarten in the future should show an average of at least thirty pupils to warrant the employment of an assistant. This was found to be necessary in the interests of financial economy. At present it affects only the kindergartens at the Garrison and the Tahanto buildings. Instead of regular assistants two young women have been hired for nominal sums to play the piano during the games, Miss Eastman at the Garrison and Miss Bishop at the Tahanto.

The usual Christmas festivals were held, were very largely attended, and the work throughout the district has been carried out quietly but effectively.

DRAWING.

The display of the pupils' handiwork in drawing at the annual exhibition last June and at the State Teachers' Convention in October spoke more strongly of its worth than I can write. The drawings were shown under the following heads: Illustrative drawing, original design, water-color washes, pose drawings, still life and design.

Last spring the Board of Trade offered the high school pupils a prize of five dollars for the best design for an envelope corner. The successful competitor was Miss Harriet Crapo.

In the contest for the 1911 report cover designs those of Miss Lila Nelson and Miss Marion Winch were accepted.

Through the increase in the number of pupils taking the mechanic arts course, the time of the supervisor is completely occupied and is in excess of that required of other regular teachers.

Considering the amount of time allotted this branch the results accomplished by the instructor are entirely satisfactory.

MUSIC.

The features of the work of the past year in music have been more attention to note-singing in classes A and B and additional practice in sight-singing melodies.

An examination of the individual sight-singing records revealed to the instructor a lack of rhythmic sense in a large number of pupils. This he is trying to develop and thus strengthen the work of the higher grades. He speaks of the creditable singing in the Chandler, the Parker and the High schools. In the latter the chorus numbers one hundred sixty voices and is the best working chorus ever in the school. The annual concert given by the high school chorus last April was successful musically, but not financially. The prize for excellence in sight-singing, a picture of Beethoven, was won by the pupils of classes J and K of the Merrimack School, Miss Brock teacher. Mr. Conant's work in the schools is invaluable.

SCHOOL HYGIENE.

The protection of the pupils' health under the direction of the committee on hygiene, is well cared for. The rules pertaining to contagious diseases, those governing room conditions and general sanitation have been faithfully enforced.

Miss Murphy is devoted to the duties of her office, and the co-operation of the teachers is worthy of special mention. Health Day was observed in all the grades of schools. Through the efforts of the chairman of the Committee on Hygiene we were enabled to secure the services of several experts on that day, and we wish to record here our appreciation of their kindly help.

Dr. Charles Duncan lectured to the High School pupils; Dr. Robert B. Kerr lectured to the Parker School pupils; Mr. Wallace F. Purrington lectured to the Chandler

School pupils; and Miss Murphy gave talks at the Penacook, Walker and Merrimack buildings.

The report of the school nurse may be found in Appendix I.

MANUAL TRAINING—THE MORRILL SCHOOL.

Wood and Iron Work.

The report of Mr. French to me is so full in detail, replete with information and so valuable to the general public, that I am incorporating it in full, in Appendix I, as a part of this report. The classes are steadily growing, the teaching corps efficient, and the results attained are a credit to all concerned.

SEWING.

The duties which this department requires have been faithfully performed. There have been no breaches of discipline and increased interest is being shown by the pupils. The number enrolled in the different classes is now five hundred fifty-four. They receive one lesson each two weeks. Some classes have the privilege of coming more frequently, so that the number of individual lessons given is six hundred eighty. This increase of work called for an extra teacher and Miss Marion L. Stevens, a resident of the city and a student of Lasell Seminary, was chosen for the place. The exhibition last June showed that the standard of former years is being maintained. The outline of work was changed to suit the requirements of the mechanic arts course and now a complete logical arrangement is followed throughout the five years.

COOKING AND DOMESTIC SCIENCE.

There are now enrolled in this department two hundred fifty-five girls, an increase of twenty-five over last year.

The classes, in many cases, are too large and not easily workable. One numbers thirty, the smallest ten, six less than fifteen and five over twenty-five in each.

Last May each of the two high school classes gave a luncheon to which were invited the members of the Board of Education, Mr. Cook and Miss Dickerman of the high school corps of teachers and the superintendent.

During the fall term over forty quarts of preserves, pickles and jelly were put up by the advanced classes for different people who furnished their own material. This was such a success that already a number of orders have been placed for next year.

During the winter term the cooking room has been used for preparing cocoa for twenty-five pupils of the Chandler School who are obliged to bring lunches. Every noon two girls, under supervision, make sufficient cocoa to supply each pupil at the nominal price of two cents a cup. Three cans of cocoa, five cups of sugar and fifteen quarts of milk are used every week.

Six dining-room chairs and a gas range have been added to the equipment this year.

DEWEY TRAINING SCHOOL.

The efficiency of this school is ever on the increase. The model schools are expositions of common sense and approved methods in teaching.

The training classes are large enough but do not vary much from year to year. Last June eight graduated, five of whom secured positions in the schools of this district, one in Massachusetts, one in Hill, N. H., and one in the Concord Town District. Six are now enrolled in the junior class and five in the senior class. During the present semester we are able to have the services of the seniors in aiding the regular schools of the Walker and the Merrimack buildings. This is done for the purpose of fitting the

trainers better for the regular schools by accustoming them to varying conditions, to make them more familiar with the different personalities of children and to observe how different teachers manage to accomplish desired results. The variety of work which they are supposed to do is as follows: Render individual help, to take classes while the regular teacher visits other rooms and schools, to supervise seat work, planning and assignment of seat work, correction of written work under the direction of the teacher, and general help on special lines. The good results which are possible from this may be limitless.

SUPERVISION.

The schools have been supervised as closely as conditions would permit. Frequent teachers' meetings have been held to secure uniformity in carrying out the requirements and to increase general efficiency. The superintendent has made 637 official visits to the various schools, a majority of which were recorded in writing with suggestions for the teachers.

The usual number of meetings have been held in the several buildings by the teachers, nearly all of which were devoted to the study of problems of the teaching art. The following tabulation has been compiled from the yearly records:

	Number of teachers' meetings.	Number of these meetings devoted to pedagogy.
High School—Group I, Parker and Chandler Schools—	15	0
Group II,	50	34
Walker School,	20	14
Garrison School,	19	19
Eastman School,	18	18
Rumford School,	20	20
Kimball School,	47	30
Merrimack School,	10	10

	Number of teachers' meetings.	Number of these meetings devoted to pedagogy.
Penacook School,	18	15
Franklin School,	15	12
Dewey School,	15	15
Harriet P. Dame School,	12	12
Tahanto School,	11	11
Cogswell School,	10	10
	<hr/>	<hr/>
	280	220

Number of educational works used by the teachers privately:

	Read.	Studied
High School—Group I,	3	3
Parker School—Group II,	4	4
Walker School,	10	2
Garrison School,	10	4
Eastman School,	10	4
Rumford School,	11	7
Kimball School,	19	11
Merrimack School,	6	2
Penacook School,	5	4
Franklin School,	9	3
Dewey School,	9	8
Harriet P. Dame School,	6	3
Tahanto School,	4	0
Cogswell School,	2	1
	<hr/>	<hr/>
	106	56

Different authors whose works were studied:

Bloomfield, Cutting, Eliot, McMurry, Swift, Thorndike, Spalding, James, Hill, Hyde, Bagley, O'Shea, Henderson, Klemm, Baldwin, Froebel, Seeley, Rowe, Dewey, Compaye, Ruyer, Jones, Betts, Cabot, Palmer, Seudder, Har-

rison, Howe, Almer, Schaefer, Hamilton, Wilson, Tyler, Taylor, Wiggin, Howland, Dexter.

Publications taken by teachers:

History Teacher's Magazine, Popular Educator, Educational Review, School Review, Journal of Education, Normal Instructor, Primary Educator, School Arts Book, American Primary Teacher, Kindergarten Review, Educational Foundations, Primary Plans, The Elementary Teacher.

The experiment of employing the kindergartners' afternoon time for assisting in the lower grades of the elementary schools has proved to be most helpful. These teachers entered upon their tasks with a fine spirit and early manifested a desire to make themselves proficient in the details. Such a spirit is worth more to the schools than can well be expressed on the printed page. They have accomplished more during the first semester than I had reason to expect. A fair estimate of the work done during this time by these assistants may be gained from this table:

	Garrison.	Franklin.	Kimball.	Rumford.	Penacook.	Total.
Number of different pupils under instruction,	72	76	56	42	35	281
Number of different backward pupils under instruction,	58	30	26	21	35	170
Number of different backward pupils showing decided improvement,	58	24	16	21	35	154

The matter of helping backward children is not the only strong feature of this scheme. It enables the kindergartners to have an ever-growing conception of the elementary school requirements so that they can shape their preparatory kindergarten work accordingly. In assigning the teachers to the various buildings heed was given to their places of residence so that long walks were not imposed.

In the Rumford and Kimball buildings the policy of having an extra teacher has been carried out, but at a reduced expense.

	Rumford.	Kimball.	Total.
Number of different pupils instructed by these teachers,	105	140	245
Number of different backward pupils instructed by these teachers,	59	76	135
Number of different backward pupils showing decided improvement,	42	44	86
Number of different substitutes in regular rooms,	85	78	163

The movement to discover causes for pupils leaving school and to remove the causes of pupil retardation has not been neglected. While it has not been possible to find a standard by which retardation may be uniformly and rationally judged, nevertheless, the moral effects of such research are asserting themselves and doing a great deal of good. Tabulations of the movement of pupils through the grades appear in this pamphlet and ought to be valuable not only now, but as a means for making comparisons hereafter.

During the first semester forty-three pupils left school for good, as follows:

High School, Group I.—Class V, 0; class U, 5; class T, 1; class S, 0; class R, 3; class Q, 8; class P, 3; special, 2; post-graduate, 1.

Parker School, Group II.—Class O, 6; class N, 4.

Chandler School, Group II.—Class M, 1.

Garrison School, Group II.—Class M, 1; class N, 1.

ELEMENTARY SCHOOLS.

Harriet P. Dame School.—Class K, 2.

Garrison School.—Class J, 1; class I, 1.

Dewey School.—Class J, 1.

Franklin School.—Class J, 1.

Not able to study with- out interruption,	1
Moved out of town,	1
Home complications,	...	3	1	...
Could not keep up,	1
	23	10	1	2	4	1	2

In a majority of these cases no extraordinary means had been taken by the teachers to hold them in school. This would seem to be good ground for improvement in the future, as in many places it is considered one of the paramount duties of the teacher to make every possible effort to retain such pupils.

NIGHT SCHOOL.

The three months' session of the night school shows a slightly reduced enrollment and the usual low rate of attendance. At the beginning two rooms were in use, both for instruction in the elementary branches. One of them was discontinued at the end of the eighth week. A room for advanced classes was opened at the beginning of the third week after much effort had been made to secure a sufficiently large membership. The result was that fourteen were enrolled with an average attendance of eight. Those who could attend regularly made unusual progress and appreciated the privileges afforded them.

Whole number of different pupils attending,	Males. 94	Females. 15	Total. 109

SUGGESTIONS.

I respectfully call the attention of the board to the following suggestions: That systematic physical exercise be instituted for the girls in Group I. That the modern language course be made logically continuous through the five years of high school work, and that the course in English be revised, both as to content and methods of teaching.

That the entering age for pupils of the elementary grades be fixed at six years.

The industrial class for girls was not started because no available room could be found for it. We hope this may be brought about eventually.

The value of any system of education is determined not alone by what has been done, but as much by what it promises for the future. We have no good reason for not believing that just as vital changes are to come as have been brought forward during the last twenty-five years. The law school, the medical school and other provisions for special activities have their real origin in public demand.

The department store had its inception in public desire for economy in time and expense. These were unmistakable manifestations of life's forces. Old methods have proved themselves inadequate for prevailing conditions. We have had concrete illustrations of this right here in Concord's business life. Therefore, we may expect to be confronted in our educational problem of the future with schools for backward children, special schools for the gifted child, open-air schools for the tuberculous and anemic pupils, the parental school, the vocational school, provision for the wider public use of the school plant, medical inspection, supervised playgrounds, more flexible gradation and promotion, and many others. A rather formidable array, but they must be met and answered somewhere at some time. These specific forms are discussed at educational meetings, tried out in school by those best fitted to do so, and the resulting system will be the one which realizes most fully

the hopes and aspirations of the community. Thus the school of to-day, as the school of the past has been, and as the school of the future will be, is the embodiment of the community idea from which is derived its energy and, as civilization increases the complexities of life, the dynamic force of education will depend upon methods adapted for and adjusted to those complexities. The teacher or the superintendent who gives no heed to the solution of such problems as these faces swift and certain failure.

Within the last few years only, has there been any work published on the problem of how to study. Mental equipment alone seems to have been the one standard by which the ability of the teacher was judged.

To date few colleges have regular departments of pedagogy as they have for law and medicine, although there are signs pointing to an adoption of such a policy. The outcome of this neglect is that mere children have been taught by the same methods as the teachers themselves were taught in college. Even the assignment of the studies and the prescribed amount to be done show the lack of judgment that could be supplied by professional training or even by professional study alone. To this defect and the inheritance of college customs can be traced much of the educational mortality commonly known as pupil elimination from school. Just such problems as these are the ones with which the educator must concern himself if energy and power in the public school are to increase. Many of our schools have shown remarkable progress in these things, and I hope this policy will prevail until all are convinced that method is equally as important as mental equipment and that each is necessary to the other.

It is my privilege again to record my cordial appreciation of the help I have received from the Board of Education, teachers, pupils, and citizens in general.

Respectfully submitted,

L. J. RUNDLETT,
Superintendent.

APPENDIX I.

CONCORD, N. H., September 25, 1911.

To the Board of Education of Union School District:

I had planned to submit a brief statement of the first year's trial of the regrading scheme before this, but collecting details was a much slower process than I had thought. However, I believe the results have been positive and gratifying enough to warrant presenting it even at this late date.

The plan, thus far, has been successful. This is in evidence by the keen interest and activity of both teachers and pupils, by a show of but little friction, and by a high standard of scholarship.

The methods of teaching in the elementary grades and through the first two years of the high school have been on modern pedagogical lines and the results shown in the tables that follow may be ascribed to this, in connection with the banishment of athletic and social distractions.

In about two years more the plan will have been reasonably tested and I am confident that with the hearty support of all concerned it will prove its value both educationally and financially.

ELEMENTARY SCHOOLS.

The chief work in these grades was the adjustment of the course of study to the new conditions. It is being done slowly and effectively and will be completed in about two years.

The number of pupils registered at the end of the year in classes E, F, G, H, I, J, K, L was 1,026.

The number of these who attained an average of B— or better in their studies was 408.

The per cent. of these who attained an average of B— or better in their studies was 39.81.

HIGH SCHOOL.

(Classes M, N, O, P, Q, R, S, T, U, V.)

The success of the plan in this group has been marked.

The whole number of pupils in all departments at the end of the year was 760.

The whole number of pupils in all departments who attained an average of A— or better, 81.

The per cent. of pupils in all departments who attained an average of A— or better, 10.65.

The whole number of pupils in all departments who attained an average of B— or better, 323.

The per cent. of pupils in all departments who attained an average of B— or better, 42.5.

By Groups.

	(A—) pupils.	No. pupils.	Per cent.	(B—) pupils.	Per cent.
High School (group 1) classes Q, R, S, T, U, V.	299	6	2.0	80	26.75
Parker School (group 2) classes O, P.....	163	31	19.0	99	60.70
Chandler, Walker, Eastman, Garrison, Merrimack, Rumford, Kimball schools (group 2) classes M, N.....	298	44	14.7	144	48.13

HIGH SCHOOL.

Group 1.

As far as my observation goes this school has shown improvement in discipline and in attention to work. The following tabulation was taken from the annual reports sent me in June by the principal.

From this it seems that, as far as marks go, the school does not show up as well as it did last year. The great reduction in the reported number of failures and in the number leaving school during the year would indicate a better average scholarship. This is encouraging.

1910.						1911.					
Classes.	No. pupils.	(A-)	(B-)	Failed.	Left school.	Classes.	(A-)	(B-)	Failed.	Left school.	No. pupils.

	305	14	78	18	28		299	6	80	1	4

	1910.	1911.
Per cent. gaining A-or better.....	5.0+	2.000+
Per cent. gaining B-or better.....	33.2+	29.100+
Per cent. failing.....	6.4+	.003+
Per cent. leaving school.....	9.1+	1.300+

HIGH SCHOOL.

Group 2.

PARKER SCHOOL.

The segregation of the freshman class in the Parker School was attended by remarkable results. Comparing the work of this year's class with that of last year, we find the following:

Algebra.

The per cent. of failure was 9 per cent. less than last year. Not only was the same amount of work covered but, in addition, one division finished the entire book and another division of girls not naturally fitted for mathematical studies finished Slaughter & Lenne's algebra.

History.

The number of failures was three-fifths of one per cent. larger than last year, about the same amount of work being covered.

English.

The number of failures was three-fifths of one per cent. less than last year, about the same amount of work being covered.

Latin.

The accomplishment of the class in Latin has surpassed anything of the kind I have ever known before. In fifty-seven weeks they have covered the work comprised in: Ritchie's First and Second Latin Books; Inglis & Prettyman's Second Book; form work in the first 117 pages of Allen & Greenough's Latin Grammar; Mellick's Prose Composition.

They have read at sight: *Fabulæ Faciles*; *Cæsar's Gallic War*, Books I, II, III, IV; *Eutropius*, Books I, II, III, IV; much additional outside reading.

Last year's class after a study of Latin for the same period of time were able to accomplish only the following: Collar & Daniell's "First Year in Latin"; Mellick's Latin Prose Composition; *Fabulæ Faciles*, one division; *Viri Romæ*, one division.

Of this year's class fifty-two passed and none failed.

Of last year's class sixty-two passed and five failed.

This year's class passed the two-year Latin entrance (1910) examinations to both Dartmouth and Amherst Colleges, averaging eighty-seven per cent. as a class. These papers were marked severely, even misspelled English words being counted mistakes. The work was conducted according to the plan suggested by the state superintendent, and

the instructors were not college graduates, but very efficient teachers nevertheless. It is really unfortunate that this method is not to be continued in the high school proper.

Commercial History.

The number of failures was two and one-eighth per cent. larger than last year. The amount of work covered was about the same.

Commercial Geography.

The number of failures this year was five and one-tenth per cent. less than last year.

The amount of work covered was about the same.

From the following table intelligent comparisons may be made between the work of the 1910 freshman class under the old plan, and the work of the 1911 class under the new scheme:

1910.						1911.					
Classes.	No. pupils.	(A—)	(B—)	Failed.	Left school.	Classes.	No. pupils.	(A—)	(B—)	Failed.	Left school.
O, P.....	143		39	17	28	O, P.....	185	31	68	13	22
										1910.	1911.
										2.60	19.01
										36.52	60.72
										14.78	7.97
										19.58	11.89

The foregoing tabulations show conclusively that, from the viewpoint of attainment, as far as school work goes, this year's class was far and away superior to last year's class, which worked under the old plan, even if we allow for the possible variation in the natural ability of classes. This year's class was the best one of its grade I have ever known. Its strength will continue to be shown if held by strong discipline, if shown the same amount of individual attention, and if similar methods of teaching are employed.

Group 2.

EASTMAN, GARRISON, WALKER, MERRIMACK, KIMBALL,
CHANDLER AND RUMFORD SCHOOLS.

The accomplishment of school work in these grades is hardly less marked than that of those immediately preceding. This being the first year of these grades, no comparison can be made with previous classes. Pupils who finished the work of class M were given certificates of graduation. No cases of discipline were reported and the work has gone smoothly and effectively.

What the pupils have accomplished in Latin, instructed by Misses Flavin, Standish, Talpey and Fletcher, may be better understood when I say that they accomplished under the new method in nineteen weeks more than previous freshman classes were able to accomplish in twenty-eight. The studies were prosecuted under the "working school" plan, which allowed merging of the study and recitation periods, thus permitting the teachers to give much more individual help. The standing of these schools may be found in the accompanying school table.

ATHLETICS AND SOCIAL FEATURES.

The athletics of the classes below class Q have been confined to each of the various schools. Games which could be played in the yard have taken the place of those which have the tendency to interfere with legitimate school work. This has not been accomplished without great effort on the part of the teachers.

No social features have been allowed which tend to have a bad effect upon the regular work and upon student health. The result is that school discipline and school work have been maintained at a high standard and it is for public benefit that it remain so in the future.

By consulting the school table one can readily trace the effect of functions and of general athletics upon school work. Classes M, N, O, P have been relieved of it, and classes Q, R, S, T, U, V have not.

Respectfully submitted,
L. J. RUNDLETT.

No. High school pupils attaining B—or better = 323 = 42.5%.

" " " " A—or better = 81 = 10.65%.

REPORT OF THE SCHOOL NURSE.

Supt. L. J. Rundlett:

DEAR SIR,—I beg leave to submit for your approval my second annual report. While I feel that some progress has been made during the year in the work for good health in our schools, there is still much to be desired. With only one nurse it has been impossible to cover in a satisfactory manner the entire Union School District, for while much has been done there still remains more that is undone. It is earnestly hoped that before the end of another year the city will see the need of a medical inspector.

Parents frequently wonder why their children do not make better progress in school work. Many times it is because of neglect to send their children to an oculist, a dentist or to call in the family physician for his advice. Many cases of retardation are due to defects of eye, ear, throat and nose. These are conditions we hope in time to remedy by school inspection.

Children whose parents or guardians were unable to attend to examinations or treatments, have been taken to private physicians and hospitals and their after treatment supervised.

It is most gratifying to note the increased interest on the part of parents, and their willingness to co-operate for the good of their children.

Attention is called to the statistical account which follows. It may not seem large in number, but it represents a considerable expenditure of time and thought. There is a limit to every person's ability and endurance and I have learned from personal experience that quantity does not mean quality, so mere figures do not and never can tell the story of this kind of service.

It is with a deep sense of gratitude that acknowledgment is made to all who have materially aided or in any way helped in this work.

ELIZABETH M. MURPHY, R. N.,
School Nurse.

REPORT OF MORRILL MANUAL TRAINING SCHOOL.

Mr. L. J. Rundlett, Supt.:

DEAR SIR,—In reply to your request I submit the following report:

The past year has been one of remarkable growth in the Manual Training School as the following table will show.

	Freshmen.	Soph.	Junior.	Senior.	Total.	Gross.	Gross all.
1908-1909,	4	4	1	1	10	60	380
1909-1910,	13	6	7	1	27	162	550
1910-1911,	36	10	5	5	56	336	850
Sept., 1911,	33	22	11	5	71	426	1,100
Feb., 1912,	58	23	10	5	96	576	1,200

Gross represents the number of periods of one and one-half hours each week of the high school only, while the *gross all* represents the gross number of periods in all schools taking manual training, including the grammar school classes and the industrial class.

Last spring a printing plant was added to the equipment and since then nearly all the work that came within the capacity of the press has been done here for the district at a great saving of expense. Over 45,000 impressions have been made on the press.

During the spring term two new lathes were added to the machine shop and the building was equipped with fire extinguishers. In the summer the back stairs, formerly used for the girls' entrance, were taken out and the space floored over making a fine storeroom on the second floor, a tool-room on the first floor with a dry-room for lumber underneath and on a level with the driveway. With this im-

provement every foot of the building was put to use. A tool-room was built in the machine shop, the work all being done by the boys of the industrial class. Here all the small tools are cared for and the room is kept in order by a boy from the industrial class. A brass-check system has been introduced by which all tools are charged up to the boys, thus saving much time and annoyance from misplaced and lost tools.

In September an additional teacher was employed and again in January it became necessary to add to the staff, making seven teachers in all. The Morrill building, being taxed to its limit, a new room had to be opened in the north basement of the high school. This room was equipped with sixteen benches and the necessary tools.

In the grammar schools the work is now begun in the K class, which corresponds to the sixth grade in other cities, and the classes are doing the same grade of work as is done elsewhere in the eighth and ninth grades.

The growth in the mechanic arts course has been steady until at the present time there are nearly one hundred boys taking the full course of nine hours a week. In order to carry out the course of study in full another year it will be necessary to add to the equipment of forges, wood-turning lathes and iron-working machinery. This year the sophomore class has had only thirty-six hours of forging, which is less than one third of the intended course. In the machine shop the equipment is being taxed to its limit. It now accommodates ten boys, but next year the classes will range from fifteen to twenty each, and in order to carry the work on in an efficient manner more machines will be needed. The work in this department ranks high, considering the limited equipment. At present there are five two-cylinder, twelve horse-power gasoline engines in process of construction, the patterns for which were all made in the school. This work is done at no cost to the district for stock, as the boys pay for all their supplies. As no boy is

allowed to build an engine until after completing the elementary course of exercises and proving his ability as a mechanic, some fine work is being done.

Last year one half the sophomore class did their junior year work by coming back four afternoons a week extra, and this year several sophomores are doing the same. This certainly shows great interest when a boy keeps up in all his studies, for no boy is allowed to come extra time who is behind in his academic work, and gives up all his afternoons to do the work of the next year.

The work in the machine shop has been somewhat handicapped during the cold weather by the room being too cold to work in. In the month of January there were ten mornings that the room did not reach a temperature of over 50 degrees when it was time for the classes to come in. On all such days the boys were sent back to the high school to study. There were a good many days when the temperature averaged between 50 and 55, and the boys were given the liberty of returning to the high school if they felt it too cold to work. There is very little exercise to machine work and, as the pupils have to handle cast-iron, it is with difficulty that they can keep comfortable in a room that is much below 60. I am having the boys in the industrial class caulk the joints around the windows with oakum and cement. This will help some but I would also advise having another coil of steam pipes added to the room, as there is need of more radiating surface.

The questions have been asked several times, "Of what value is the education received in the mechanic arts course?" and "What becomes of the boys after leaving school?" In answer to the first question, it must be remembered that it is not the function of the public school to teach a trade, therefore these boys are not journeymen when they graduate. The object of the mechanic arts course is to give the pupils a definite and working knowledge of several (as many as possible) mechanical trades,

showing the relation of each to the others, and giving as much of the details of each as the time will allow. The trades touched upon are joinery, cabinet-making, wood-turning, pattern-making, moulding, blacksmithing and forging, elementary machine shop practice and machine construction. With this is given a progressive course in freehand and mechanical drawing which is closely correlated with the shop practice. During the four years a general dexterity is developed that is useful in all vocations and the knowledge gained offers vocational guidance, so that the pupils have no difficulty in choosing their future employment. If they desire further education the work done will admit them to New Hampshire State College.

In answer to the second question of what becomes of the graduates, in 1910 the one graduate went to work in a local shop as a pattern-maker. In 1911 five graduated. One of these went to work to finish learning the machinist trade, another the pattern-maker's trade, the third received a position as draftsman in a Cambridge shop, the fourth is working for his father, who owns and runs a saw and grist-mill, and the fifth one would have entered State College if his health had not given out. It is also a very noticeable fact that almost all the boys who left school during the course went to work at some mechanical trade.

In September the industrial class was increased to twenty boys, the average age being over 16. These boys were chosen from the grades because of their advanced age or because they had no intention of going to high school and because of their aptitude for mechanical work, as shown in the manual training classes.

As there seems to be a general demand for information about the work of this department, and as there has been much misunderstanding as to its character, it may not be out of place to give a brief description of the work at this time.

Every year there appear in the manual training classes

boys who are older than the remainder of the class. Many of these boys can continue their education but a few years and cannot go to high school. They show exceptional talents for mechanical work, but if allowed to leave school with only the elementary education enter the ranks of the unskilled labor and take up some "blind alley" occupation having no chance for advancement. The world is crowded with just this class and a great deal of the poverty and suffering is caused by heads of families not being able to earn a wage large enough to supply even the necessities of life. The conditions in this class are steadily growing worse as the cost of living increases, and it was with a desire to steer boys into the ranks of skilled labor that the industrial class was started.

The boys in this department go to the Morrill School six hours a day for five days a week. One half of the time is spent on academic work and the other half on shop practice. The academic work consists of English; the writing of compositions on things learned in the shops, on lectures and shop talks, business letters and reports. Mathematics is taught by first reviewing arithmetic and then taking up shop problems such as figuring cost of stock for certain jobs, speeds and sizes of pulleys to run the machines in the shops. In commercial geography the industries, transportation, social and labor conditions are studied in order that the boys may gain a practical knowledge of the conditions in the world at large. In civics the city, state and national governments are studied and once a week a class meeting is conducted by the boys at which debates and discussions are held. Current events are studied from newspapers and magazines. In all these subjects an effort is made to correlate the work very closely to the shop practice and the future life of the pupils. The academic work is all taught by the same men who teach the mechanical branches. This work could not be taught in the other schools for several reasons, the principal one being that

these boys need male teachers, who are familiar with shop conditions and discipline and know just what problems the boys will meet on going to work.

In the shop work the pupils are first placed in what is called the pre-vocational division and given instruction in several kinds of work in order to find out for what each is best fitted. Just as soon as a boy shows a talent for one kind of work more than another he is given as much of it as possible, not with the idea of teaching him a trade but of preparing him for it so that when he leaves school he will at once apply for an apprenticeship in the work. This differs from the work in the mechanic arts course in that it has a commercial value and has to be up to a commercial standard. For example, the drawing-room of the school is very poorly equipped for its work; common school desks and a few old laboratory tables being used. Instead of buying regulation tables at a cost of about \$300 the boys are making them, and the total costs will be much less than \$100. Each department is doing something for the other departments and for other schools of the district. Great encouragement has been given by all business men and parents to whom the work has been explained. Several manufacturers have taken the opportunity of calling on the school to supply boys to fill positions. Thus the school has become like a sieve, through which the boys are sifted and sorted in such a way that each may find his place in the world's work, and employers may here find just the right boy for the right job without going through the costly process of trying Tom, Dick and Harry and discharging them and trying again until the right boy comes along. The manual training department has become one of the strongest links in the educational chain, which would be far from complete without it.

Respectfully submitted,

ARTHUR W. FRENCH.

*Work Done by the Industrial Class of the Morrill School
Since the Last Report.*

February 15, 1912.

One note-book case to hold one hundred books for high school.

One note-book case to hold seventy-five books for high school.

Four two-drawer card filing cabinets for superintendent's office.

Two blackboard shelves for Dewey school.

Coat and hat racks for the Dewey school.

Four old laboratory cupboards repaired.

Twelve galleys for the printing department.

Ten strips for maps for high school.

One chair repaired for Chandler school.

Three doors repaired for the cooking school.

Twenty window boards for the Penacock school.

Two cleats for galley rack.

One handle for net, high school.

Eight window boards for Chandler school.

Seven blocking boards for Morrill school.

Awnings taken off the Dewey school.

Awnings taken off the Franklin school.

Storm doors put on the Dewey school.

Two coat and hat racks for the drawing room.

Two plant shelves for the Chandler school.

- One desk repaired for the high school.
- Four lights of glass set in H. P. Dame school.
- Thirteen double windows put on Tahanto school.
- Shelves for Morrill school.
- Six blackboard rulers for high school.
- Double windows put on H. P. Dame school.
- Two wire screens for Tahanto school.
- Three lights glass set Tahanto school.
- Twenty-four drawers refinished for drawing room.
- Eight door wedges for H. P. Dame school.
- Five chairs repaired for high school.
- One office chair repaired for high school.
- Back-boards for machine shop.
- Pencil sharpener repaired for superintendent's office.

ANNUAL SCHOOL MEETING WARRANT.

STATE OF NEW HAMPSHIRE.

To the Inhabitants of Union School District in Concord, N. H., qualified to vote in district affairs:

You are hereby notified to meet at the Auditorium, on Prince Street, in said district, on the thirtieth day of March, 1911, at 7.30 o'clock in the evening, to act upon the following subjects:

1. To choose a moderator for the ensuing year.
2. To choose a clerk for the ensuing year.
3. To hear and act upon the report of the Board of Education for the past year.
4. To choose three members of the Board of Education to hold office for three years, to fill vacancies arising from the expiration of the term of office of Dennis E. Sullivan, Fanny E. Minot, and Omar S. Swenson, and to fill any other vacancies that may occur in said board.
5. To choose one or more auditors and all other necessary officers for the ensuing year.
6. To see what sum of money the district will raise and appropriate for the payment of the debts of the district.
7. To see what sum of money the district will raise and appropriate for the support of schools for the ensuing year, including industrial education, military drill, night school and medical inspection.
8. To see what sum of money the district will raise and appropriate for occasional and extraordinary repairs of the school buildings during the ensuing year.
9. To see if the district will authorize the Board of Education to sell the Union Street schoolhouse and lot on Union

Street, and the Bow Brook schoolhouse and lot on Warren Street, either by public action or by private sale.

10. To transact any other business that may legally come before said meeting.

Given under our hands this eleventh day of March, 1911.

JOHN VANNEVAR,
DENNIS E. SULLIVAN,
FANNY E. MINOT,
OMAR S. SWENSON,
WILLIAM H. SAWYER,
CARRIE E. EVANS,
EDWARD C. NILES,
HARRY H. DUDLEY,

Board of Education of Union School District.

I certify that on the fifteenth day of March, 1911, I posted a copy of the written warrant, attested by the Board of Education of said district, at the place of meeting within named, and a like attested copy at the police station in the city of Concord, N. H., being a public place in said district.

LOUIS J. RUNDLETT.

Personally appeared before me, on this date, the said Louis J. Rundlett, and made oath that the above certificate by him signed is true.

GEORGE N. FELLOWS,
Justice of the Peace.

A true copy of the warrant, return of service, and certificate of the oath.

Attest: LOUIS C. MERRILL,
Clerk.

ANNUAL SCHOOL MEETING.

CONCORD, N. H., March 30, 1911.

Agreeable to the foregoing warrant, a meeting of the legal voters of Union School District was held at the Auditorium, in the city of Concord, N. H., on March 30, 1911, at 7.30 o'clock in the evening.

The meeting was called to order by the moderator, John B. Abbott, who read the foregoing warrant.

ARTICLE 1. The moderator called for votes for moderator and H. H. Dudley moved the clerk cast one vote for John B. Abbott for moderator for the ensuing year, and it was so voted. The clerk cast the vote as directed and John B. Abbott having the only vote cast, was declared elected moderator, and was duly sworn by Louis C. Merrill, justice of the peace.

ART. 2. H. H. Metcalf moved the moderator cast one vote for Louis C. Merrill for clerk, and it was so voted.

The moderator cast the vote and declared Louis C. Merrill elected clerk for the ensuing year, and was duly sworn by William H. Sawyer, justice of the peace.

ART. 3. Henry C. Morrison moved to dispense with the reading of the report of the Board of Education, and the report, as printed, be accepted. Motion carried.

ART. 4. William H. Sawyer moved to proceed to ballot for three members of the Board of Education for three years, all the names to be on one ticket and that the polls be kept open until 7.50 o'clock, and it was so voted. Moderator declaring the polls open.

Edward C. Niles moved to take up the other articles of the warrant. Motion carried.

ART. 5. Harry H. Dudley moved the clerk cast one vote for John P. George and Henry H. Metcalf as auditors for the ensuing year; motion carried; the clerk cast the vote

as directed and John P. George and Henry H. Metcalf were declared elected as auditors.

ART. 6. W. D. Thompson offered the following resolution and moved its adoption:

Resolved, That there be raised by tax on the polls and ratable estates within Union School District the sum of twelve thousand nine hundred fifty dollars (\$12,950), of which sum seven thousand dollars (\$7,000) shall be appropriated for the payment of bonds maturing October 1, 1911, and five thousand nine hundred fifty dollars (\$5,950) for the payment of the interest on its funded debt accruing during the year.

ART. 7. Thomas G. Norris submitted the following resolution and moved its adoption:

Resolved, That there shall be raised by tax on the polls and ratable estates within Union School District, for the support of schools for the ensuing year, such a sum as in addition to the sum assigned to the district by the city of Concord out of the appropriation for schools will amount to the sum of eighty-five thousand eight hundred twenty-six and seventy-two hundredths dollars (\$85,826.72).

Mr. Norris' motion was seconded, a vote taken and resolution declared adopted.

ART. 8. H. H. Metcalf moved to pass over this article, and it was so voted.

ART. 9. H. H. Metcalf moved that the Board of Education be authorized to sell the Union Street schoolhouse and lot on Union Street and the Bow Brook schoolhouse and lot on Warren Street either by public auction or by private sale.

A vote was taken and the motion prevailed.

The moderator declared the polls closed at 7.50 o'clock and appointed Henry H. Chase to assist in sorting and counting the votes.

Moderator declared the ballot as follows:

Whole number of votes cast,	59
Necessary for choice,	30
Dennis E. Sullivan had	55
Omar S. Swenson had	57
Fanny E. Minot had	59

and Dennis E. Sullivan, Omar S. Swenson and Fanny E. Minot were declared elected members of the Board of Education for three years.

ART. 10. No business being presented, the article was passed.

Mr. Dennis E. Sullivan appeared and was duly sworn as a member of the Board of Education before Louis C. Merrill, justice of the peace.

On motion of Mayor Charles J. French it was voted to adjourn.

A true record. Attest:

LOUIS C. MERRILL,
Clerk.

Town School District Treasurer's Report.

The treasurer of the Town School District of the city of Concord respectfully submits the following report of the receipts and expenditures for the year ending March, 1912:

RECEIPTS.

Balance on hand March 7, 1911,	\$244.99
Amount required by law,	2,804.70
Additional voted by the district,	2,000.00
Books and scholars' supplies,	197.50
Books and scholars' supplies, overdraft from city,	30.79
Literary fund,	122.46
Amount received for support of schools from dog licenses,	90.16
Amount received from Walker fund,	2.26
Rebate on tuition from Union District,	10.08
Error in order from school board,	5.00
Amount from state treasury towards superin- tendent's salary,	266.66
	<hr/>
Total receipts,	\$5,774.60

EXPENDITURES.

Teachers' salaries,	\$2,932.00
Text-books and supplies,	192.91
Fuel,	165.91
Tuition, Union District, high school,	760.17
Tuition, Penacook, high school,	10.70
Tuition, Union District, Dewey school,	12.00

Tuition, School District of Bow,	\$31.00
Repairs,	94.56
Conveying scholars,	103.00
Enumerating children,	9.00
Incidentals,	81.49
Janitors,	69.25
Water,	12.00
District superintendent,	670.00
Salary of School Board (two years),	400.00
Flag-pole and rope,	3.55
Auditor,	2.00
Treasurer,	25.00
Balance on hand March 19, 1912,	200.06
	<hr/>
	\$5,774.60

FRANK E. DIMOND,
Treasurer.

Having examined the treasurer's accounts I find them correctly cast and properly vouched.

JOSEPH N. ABBOTT,
Auditor, Concord School District.

CONCORD, N. H., March 19, 1912.

PUBLIC LIBRARY.

REPORT OF THE TRUSTEES.

*To the Board of Mayor and Aldermen of the City of
Concord:*

The comprehensive report of the librarian of the Public Library, which is herewith submitted, renders it unnecessary for the trustees to attempt to supplement it by extended remarks. All friends of the library will find it an interesting document.

R. E. WALKER,
President Board of Trustees.

REPORT OF THE LIBRARIAN FOR 1911.

To the Board of Trustees of the Concord Public Library:

GENTLEMEN,—At the dedication of the New Hampshire Historical Society's beautiful building, which now queens it over our civic square, there was a good deal said concerning the desirability of *wceding* libraries: that which President Eliot remarked years ago about dead books and which was repeated in emphasized form recently by Lord Rosebery at Glasgow, was reiterated by the speakers here in Concord on November 23.

All these eminent authorities would feel that this Public Library could not be excelled as a *wceder*, for our crowded quarters oblige us to discard old books with one hand while we accession new ones with the other. Statistics for 1911 verify this statement, we having made a net gain of less than 400 volumes although we bought 724.

At this rate the library will make progress slowly toward an imposing total figure, but it will contain an exceptionally small amount of out-grown material, and I shall be envied by those librarians whose trustees have not your enlightened views and who therefore are required to keep in their stackrooms everything which was ever there, even if it be a twenty-year-old work on electricity, a treatise on agriculture as practiced in the '50's, or a theological pamphlet combatting tenets no longer held.

It seems to me false modesty never to presume to discard a book; some dusty tomes may be made to circulate if they are placed in front of the delivery desk where they will catch the borrower's eye, but surely there are scores of novels and out-of-date technical books which are not worth this attempt to galvanize them into life.

I feel strongly that residents of a city or state should not be taxed to pay for the housing and care of much of the stuff that is now in libraries; before these edifices beg for enlargement let them gain space by discarding; and also let inter-library loans prevent the present duplication of material. I must say that when a great Chicago library sent for our 1910 report which I purposely had not unloaded upon it, I did not feel gratified, but rather exasperated in behalf of those Chicagoans who, if their library does not alter its policy, may be called upon to add a wing, and who would prefer to send here for our report, if it were wanted—which it never would be.

Yet in spite of our culling, from both necessity and conviction, it became necessary the past year to create new accommodations for our monthly purchases, and in July the gallery voted at your last annual meeting was constructed around our catalogue room; many think the interior of the library has gained in looks as well as in convenience by its introduction. This gallery enabled us to fill with shelving what had hitherto been unavailable wall space, and thither we have moved our sets of bound magazines; their transference has left the balcony free to catch the overflow of reference work, or rather to add stimulus to it, for Miss Brown, in charge thereof, says that old and young showed instant appreciation of the pleasant new study place and increased their research to such a degree that she waited on 1,746 inquirers from the third week in September to December 31. During the month just passed, 570 have had recourse to the reference room.

This enjoyment of our one slightly enlarged facility indicates that a twentieth century library, with modern improvements—like a juvenile department, special library alcoves, access to shelves, and cases for models, collections, curios and gifts—would meet with approval and

use. It is no unusual thing now for a resident to bring to our desk an illustrated account of the opening of a fine library in some other town and say, "This is what we ought to have here."

Will not somebody do for Concord what Mr. Frank P. Carpenter is doing for Manchester? Picture to yourselves how a suitable city library, situated on Green Street at the head of Park, would complete our handsome square and make the capital more noteworthy for its group of public buildings. Ought it not to strike a rich man as a good investment—this putting his money into what will add to his own and his town's reputation and serve as a "continuation school" for everybody?

But to consider, not what is Cresus's duty, but the library's, I think its present resources should be more widely known, and that it would be well to spend a small sum in bringing this about. Hereafter we shall advertise. We may even boast! We want to reduce the number of those who say, "Why, I did not suppose you had anything on this subject."

In an institution of our unpretentious and popular character it is not undignified but sensible to call attention to the helpful material it contains. If we purchase the Loose-leaf Encyclopædia we shall want the fact known to every man who is alive enough to desire latest information. If we put in the International Library of Technology, the volumes should be made to reach not only the Manual Training School boys but all artisans and mechanics. If we buy the books listed in Grange reading courses, all our farmers must be made aware of it. We ought to ask the daily papers to publish more news about the library, and when their space is exhausted, to have lists printed in other ways and to mail them broadcast.

My answer to agents frequently is, "Buy? Yes, if your books would get read."

And the agents reply that they hear of a wide-spread decrease in the patronage of reading-rooms. The fact that our evening customers have fallen off more than our day ones seems significant; the youth of the city who used to flock to the library after supper now prefer other forms of recreation, and choose a nickel show instead of a free book.

In our agencies and deposit stations also, there is noticeable this crowding out of the literary habit. I believe in organizing branches to a library because they are always keenly enjoyed and their advantages thoroughly realized by a few, and because they afford possibilities for the personal touch; but our latest essay in this direction, namely, the vacation branch maintained last summer in East Concord, was a disappointment. On one afternoon, seeing a half-dozen lads idling over part of a newspaper on the store steps with no intention of crossing the street to where our Branch was located, I selected six of the most alluring books for boys and took them to the group. They turned the pages but in fifteen minutes brought them back to our case, not enough interested to ask if they might take the stories home. And this incident might have happened in any ward besides No. 2.

A writer on our national psychology says:—

"The American people wants literature reduced to snappy paragraphs—culture in the form of capsules. There is a feeling that somehow we ought to have these things and we want to get through with them in as short order as possible. The American's pleasure is not in reading but in *having* read."

Certain it is that when one of our valued customers dies who has regularly taken out the Nineteenth Century, The Forum, the Popular Science Monthly, etc., etc., no

other borrower steps into his place to call for the weightier periodicals.

Even the Shakespeare Room is no longer used by eight clubs, and the girls of the present will hardly meet there as women to read the author whom one young person of to-day dismissed with, "Yes, I've glanced through Shakespeare but I don't like the way it ends."

There seems a pictorial presentation of modern tendencies in a recent *Woman's Home Companion*. The full-page illustration is entitled, "If Bobby got everything he wanted for Christmas," and depicts a youngster opening his eyes on December 25th to find his dreams come true, and himself surrounded by everything he has longed for. All toys and engines, all pets and sporting goods, everything that can divert him on earth below or in the heavens above—for there is an airship in the collection,—is banked up beside his cot. But there is no book; and that its omission was probably unconscious on the artist's part makes it more striking. The little fellow has no hunger for a fairy story, a hero legend, or a tale of adventure. He wants to be doing something himself!

Perhaps it is such boys,—the Bobbys growing up without benefit of books,—who form the ungrateful and disorderly groups that weekly come to our reading room not to read but wilfully to strain the attendant's patience till it breaks and a policeman is sent for. This matter of bad conduct, Sunday afternoons, is our most annoying and immediate problem.

On the other hand, none are more welcome within the Library than another set of boys who have gained an admirable facility in consulting indexes and works of reference. What a bright class can do when directed by an excellent teacher who himself knows how to use a library, has been shown by the High School boys and girls now studying political economy. Doubtless many pupils in

Concord have already learned the truth of George Macdonald's saying, "As you grow ready for it, somewhere or other you will find what is needful for you in a book."

With the increasing interest felt by adults in social service, in questions of labor and capital, in practical subjects and vocational education, it would seem to be a city library's obligation to put within the public's reach the sanest works giving both sides of these issues of the day. If people are growing deaf to the Swan of Avon and are listening either in faith or curiosity to Steiner, Steffens, Dr. Grenfell, "Scientific" Taylor or Jane Addams, then this Library better not waste its energies in trying to create a literary renaissance by buying handsome editions of the classics, but rather provide that mental food which the civic body is in condition to assimilate.

It must not be inferred that the growth of indifference to library privileges is not offset by features which encourage us in our work: take the matter of circulation, for instance; we gave out only 326 fewer volumes than in 1910; probably 326 persons went last year, for best-sellers, to Gibson's subscription library. Further, instead of regretting the cessation of our Saturday night rushes, we might be glad that our work is more evenly distributed throughout the week. It is a fine record that with 91,338 books taken out in 1911, only two have been lost and not settled for. The long-time charge for books to be carried away during the summer vacation is a privilege in greater demand each year. Our worn-out stories have been wanted by local W. C. T. U. workers for the boxes being packed for lumbermen.

By means of continued membership in the Library Art Club our School Street hall is seldom without a display of photographs, and the cultivating influence of pictures is thus secured. I lately directed the attention of an in-

telligent patron to an array of especially fine views, and his answer was a reproachful, "I never missed one exhibit."

It may be permissible to bring out the fact that in a Library doing our amount of business it is exceptional for the librarian to be the cataloguing department; for seventeen years I have prepared every card for our drawers, latterly aided by buying for new non-fiction works the cards printed by the Library of Congress which require only slight preparation to make them ready for insertion in our catalogue.

The construction of our gallery was followed by the painting of all the inside walls in harmonious shades of brown, and by the purchase of a vacuum cleaner; when this has been thoroughly used, we shall take an inventory, a task long contemplated but rendered formidable by the accumulation of dirt on books and shelves.

Through the year there come many kind proofs that townspeople appreciate the faithful labors of the library assistants, but the extent of their duties I claim I alone can understand.

In conclusion, grateful acknowledgment is made to Concord's religious, municipal and philanthropic institutions which furnish their reports and publications, and to the citizens who have during 1911 given books or magazines; the list should be headed by the one who has for a quarter of a century turned over to the Library periodicals which she thinks ought to do the world good. To this name of Mrs. Armenia S. White are subjoined those of E. J. Aiken, D. E. Miller, P. R. Holden, Mrs. Barton P. Jenks, Mrs. Sophia Sanborn, Dr. Hoyt-Stevens, Mrs. H. H. Wright, Mrs. F. M. Reed of Penacook.

Respectfully submitted,

GRACE BLANCHARD,
Librarian.

HEALTH DEPARTMENT.

BOARD OF HEALTH REPORT.

To the Board of Aldermen:

We respectfully submit the following report for the year ending December 31, 1911.

At the first regular meeting in January the board, consisting of Mayor Charles J. French, *ex-officio*, chairman, City Physician Charles H. Cook and Dr. Fred A. Sprague, organized, and Dr. Cook was re-elected secretary.

Our city was remarkably free from contagious diseases during the year. Antitoxin was used in diphtheria cases, and we feel that it was a valuable help in checking the spread of this disease. We purchased our supply of diphtheria antitoxin from Schieffelin & Co., New York, and it was furnished free to those unable to pay for it.

The rules and regulations concerning contagious diseases were changed to meet requirements and were approved by you on May 8. The school authorities were notified at the opening of schools in September that no child is entitled to attend school in Concord without a certificate of vaccination bearing the seal of this board, and we feel that this ordinance was generally complied with.

The petition of citizens living in the vicinity of the dump on Dunklee Street was referred to this board by the Board of Public Works, and we voted to notify the owner to have the rubbish covered over with clean dirt or sand. Our notice was not complied with, and the case was referred to

the city solicitor for prosecution, which resulted in the abatement of the nuisance.

We approved a list of medical and surgical supplies for an emergency case to be used in shops and other places where power machinery is used, and in compliance with the state law the proprietors of all such places were notified to provide eases at once.

Owing to illness, Dr. Cook was necessarily absent from the meetings during the fall months, and his presence was greatly missed.

For a detailed account of the work of this department your attention is called to the report of the sanitary officer.

Respectfully submitted,

CHARLES J. FRENCH, *Mayor*,

F. A. SPRAGUE,

Board of Health.

REPORT OF MILK INSPECTOR.

To the Board of Health:

GENTLEMEN,—The examinations made by the milk inspector appear in another part of the health department report: these examinations show that there has been little cause for complaint. Since the adoption of the cotton filtration method for dirt by the inspector, the examinations show progressive improvement in cleanliness, but as stated last year this test offers no assurance that dirt does not get in the milk, but rather that it is well strained before it comes to the consumer.

From time to time the supplies have been investigated for tuberculosis by the guinea-pig test and one was found to be tubercular. It is my intention to continue this test, though the test is hardly ideal but is important when positive.

The so-called "tuberculin test" for tuberculosis in cattle is of the greatest diagnostic value. The city should encourage the producers to use it, and such farms as do should receive the hearty support of the consumer. Many of the farms do now use the test, and no milk should be fed to children in a Concord home unless it comes from one of these farms with the tuberculin tested herd.

I consider the above statement important because all recent investigations of the various types of tubercle bacilli in man and animals seem to tend nearer the proof that they have a common origin.

During the year, as reports in the office show, many men without sufficient capital have started in to sell milk in our city, consequently their places have not come up to the standard of our regulations and a quick failure to remain

in business has been the result. If the department should in the future investigate all places of persons desiring to sell milk before a license is granted, these men could be headed off from entering a business for which they are not sufficiently prepared, with a saving of money for them and bother to the department.

Respectfully submitted,

CHARLES DUNCAN,
Milk Inspector.

REPORT OF THE SANITARY OFFICER.

To the Board of Health:

GENTLEMEN,—Herewith is submitted the annual report of the sanitary officer for the year ending December 31, 1911. Your attention is respectfully called to the tables attached, which show in detail the work of the department.

Our city maintained its usual sanitary condition throughout the year, and we were remarkably free from contagious diseases. Complaints were investigated and necessary action was taken to abate all nuisances. Other inspections were made as time would allow, and on numerous occasions the alleyways in the rear of the business blocks were visited. As a rule it required only a word of suggestion to the proprietors of our stores and markets and to the janitors of the different blocks to have the rubbish and objectionable matter removed at once.

Inspections were made of all the barber shops and conditions were found to be good. The barbers of the city are generally complying with all the provisions of the state law, and the shops are kept in a cleanly condition.

The conditions of Long Pond and the reservoir were noted from time to time, and samples of water were analyzed at the state laboratory with satisfactory results. In the fall, complaints were received that the water had a fishy taste and odor, but the analyses at that time showed nothing injurious.

An act to provide for the keeping of medical and surgical appliances in factories, to be enforced by the local board of health, was passed at the last session of the legislature. This law is one of importance; accidents are liable to occur at any time, and with such appliances in our

workshops aid can be given immediately to relieve the injured. Copies of the law and a list of the articles required by the board were placed in the hands of the proprietors and managers of all places where power machinery was used in which three or more persons were employed, and they were notified to procure the supplies at once. Seventy-six factories, shops, foundries and stone sheds were notified and in several instances it was found that medical and surgical supplies were already on hand for use in emergencies. I feel that this law was generally complied with.

There were 459 deaths reported to this department for the year 1911, 24 less than in 1910. The death-rate was 13.34, compared with 15.45 in 1910. The deaths of non-residents and still births are not included in reckoning our death-rate. Concord has always had an exceedingly large number of deaths of non-residents, owing to the fact that a great many of the patients and inmates of our public institutions are brought here from other places in the state. The total number of deaths in the hospitals and institutions was 219, divided as follows: New Hampshire State Hospital, 136; Margaret Pillsbury General Hospital, 58; New Hampshire Memorial Hospital, 16; New Hampshire Odd Fellows' Home, 7; New Hampshire Centennial Home for the Aged, 2.

We received reports of 95 cases of contagious diseases, 6 of which proved fatal. There were 51 cases of diphtheria, with 2 deaths; 8 cases of scarlet fever, with 1 death; 10 cases of typhoid fever, with 3 deaths, and 26 cases of measles with no fatalities. This record shows a decrease in the number of cases, but the death-rate was higher than for a number of years. In each case of scarlet fever, diphtheria and measles the house was placarded or the patient moved to the contagious disease hospital, and at the termination of all cases of diphtheria and scar-

let fever the rooms occupied by the patient were thoroughly disinfected. Rooms were also fumigated after deaths and removals of tubercular patients. The total number of deaths from tuberculosis was 29, and of this number over one-third were out-of-town inmates of our public institutions.

The formaldehyde-potassium permanganate method of fumigation was used as in former years. All the school books in Union School District and the entire Lower School building at St. Paul's School were fumigated at the end of the school year. The material for this work was furnished by the schools. In several other instances rooms were fumigated upon request for various sicknesses not of a contagious nature, and the material used in these cases was paid for by the owner.

Plumbing inspections were made as usual, water tests being applied to the new work, and peppermint tests made of old work on request.

The appropriation for our department for the year was \$2,625, and the expenses were \$2,630.58, making a deficit of \$5.58. Diphtheria antitoxin was furnished at cost to a number of families who were unable to pay the retail price, and we received \$43.70 from this source, and \$6.23 was received from the sale of fumigation supplies. These sums were deposited with the city treasurer and in considering this fact the deficit was not unreasonable.

I wish to express my thanks to His Honor the Mayor, the members of the Board of Health, the members of the city government and the city solicitor for their assistance during the year, which has been appreciated.

Respectfully submitted,

CHARLES E. PALMER,
Sanitary Officer.

EXPENDITURES OF THE BOARD OF HEALTH OF THE CITY OF
CONCORD FOR THE YEAR ENDING DECEMBER 31, 1911.

SALARIES.

Charles E. Palmer, sanitary officer, salary,	\$1,400.00

NUISANCES, COMPLAINTS AND INSPECTIONS.

A statement of the number and character of the nuisances for the year 1911 appears below:

Accumulation of ashes and other rubbish,	8
Broken sewers,	2
Catch basin traps broken,	8
Collecting garbage without license,	2
Complaints made without cause,	10
Conditions in grocery stores and markets,	3
Dead animals,	21
Drains out of repair,	1
Dumping rubbish and odor from dumps,	15
Filthy barns,	2
Filthy premises,	2
Garbage cans uncovered on teams,	1
Keeping hens,	7
Keeping hogs,	14
Odor from garbage cans,	4
Odor from horse sheds,	1
Odor from manure,	5
Odor from premises,	2
Odor from privy vaults,	9
Odor from sink drains,	2
Odor from stables,	3
Odor in blocks,	4
Odor in houses,	8
Open sewers,	1
Other complaints and inspections,	38
Pediculosis,	1
Plumbing done in violation of ordinance,	1
Scabies,	1
Sewers obstructed,	1
Sinks out of repair,	4
Sinks without traps,	1

COURT HOUSE PARK.

Paid for labor,	40.00	
	<hr/>	\$3,580.30

Mr. Richardson, who had served as superintendent for nearly eighteen years, was compelled to give up his work on account of ill health, and in May the board accepted his resignation. Under his hands the park system of the city had developed in a large measure, and it was with regret that the services of so faithful a man were relinquished.

Mr. Frank Atkinson, who came to us highly recommended and who has had many years of experience in Park work, has taken up the work in a commendable way, so that there has been no break in the progress.

The same conditions obtain as in former years. The very dry weather was disastrous to many of the shrubs and trees, and the extra expense of caring for the trees has been large. It is planned to extend the iron fence along Center Street at White Park and install a drinking fountain. The springs, having been condemned by the Board of Health, were closed so that no place was available to the public for cold drinking water. Plans have been suggested and the lack will be remedied as soon as possible. The necessary work of renewal of lawns, the care of paths and shrubbery is constantly being attended to, which care and maintenance preclude any great amount of new work with the funds appropriated. The superintendent has been carefully trimming the trees along the lines of up-to-date forestration, and it is the desire of the commissioners to keep the number of trees intact by planting from year to year.

The grounds at White Park which are devoted to sports have been used as last year with games of baseball, which have attracted large crowds.

At Rollins Park some renewal of lawns and trimming of trees will be considered the coming year. The live stock seems to be in a prosperous condition. The care of

the parks has been maintained and the commissioners hope in the near future that more constructive work can be prosecuted.

CHARLES J. FRENCH, *Mayor, ex officio,*
WILLIS D. THOMPSON,
GARDNER B. EMMONS,
WILLIAM P. FISKE,
WILLIS G. C. KIMBALL,
BENJAMIN C. WHITE,
Commissioners.

FIRE DEPARTMENT.

REPORT OF CHIEF ENGINEER.

To the Honorable Mayor and Board of Aldermen:

In accordance with the requirements of the city ordinance, I herewith submit for your consideration the report of the Fire Department for the year 1911. The department responded to 95 bell alarms and 219 still alarms. In addition one fire occurred in West Concord for which no alarm was given.

	Bell.	Still.	No alarm.	Total.
Precinct,	62	183		245
Penacook,	13	11		24
East Concord,	7	14		21
West Concord,	13	11	1	25
	<hr/>	<hr/>	<hr/>	<hr/>
	95	219	1	315

This report will be found to contain statements in detail embracing the amount of expenditures, a complete roll of the department with residence and occupation of each member, a record of all fires and alarms which have occurred during the year and the causes thereof as nearly as could be ascertained, with the names of the owners or occupants and the value, loss, insurance, and insurance recovered in each case.

The department responded to more alarms than ever before in a single year. There was but one particularly dangerous fire, that of December 7, and as conditions

were favorable, the outcome was fortunate. The forest fires of the year taxed the resources of the department to the limit, besides costing more than one thousand dollars in efforts to extinguish.

The apparatus is in good condition and no extensive repairs were required during the year.

The fire-alarm telegraph systems of the city proper and Penacook are in good condition.

It was found necessary to renew the battery elements of the latter in December. The department purchased 800 feet of 2½-inch hose and relined 1,300 feet.

Two horses were purchased for use at the Central Station and one hand engine was purchased for use at West Concord. Two horses were sold to the highway department. I can but repeat the recommendations of last year relative to motor-driven apparatus. The opinion expressed by the fire department officials of the country warrants the belief that the automobile is to take the place of the horse as surely as the steam fire engine displaced the hand engine.

I respectfully recommend the purchase of 1,000 feet of 2½-inch hose and the installation of two fire-alarm boxes in the northwest section of the city.

These boxes were recommended in the report of last year, but the abnormal expense attending the subduing of forest fires prevented their installation.

There are but two one-horse hose wagons in the city proper at present, and I respectfully recommend the conversion of both into two-horse wagons.

To accomplish this at the Central Station the purchase of one horse would answer all requirements.

At the Alert Station some not very expensive changes would have to be made in the stall arrangement in addition to the purchase of one horse. But in the latter case the investment would be a paying one, as in bad weather

the hiring of extra man and horse, compulsory at present, would be obviated.

The complement of hose in these wagons would then be 1,000 feet instead of 800 feet, as at present, and the runs would be made faster.

During the month of September I had the pleasure of attending the convention of the International Association of Fire Engineers held at Milwaukee, Wis., a report of which I rendered at that time.

It was a rare opportunity to learn something relative to motor-driven apparatus, which was availed of to the letter, and I was sincerely grateful for the privilege afforded.

Respectfully submitted,

W. C. GREEN,
Chief Engineer.

STILL. April 16, 9.45 a. m. Chimney fire in Curtis Memorial Church, corner South and Fayette Streets. Extinguished by Chemical Company. No loss.

4-4-4. April 18, 5.35 p. m. Brush fire on the Plains near residence of John Prentiss. Detail from the department sent under command of Engineer J. J. McNulty. Labored one hour. No loss.

STILL. April 18, 7.10 p. m. Chimney fire in residence of Mrs. H. M. Newell, 30½ South State Street. Extinguished by members of Good Will Hose Company. No loss.

STILL. April 19, 6.14 p. m. Slight fire on floor of lower bridge. Caused probably by cigar or cigarette stub.

Chemical Company responded, but no assistance required. No loss.

STILL. April 21, 4.54 p. m. Grass fire on Bradley Street, between Franklin and Church. Extinguished by Chemical Company. No loss.

STILL. April 22, 10.34 a. m. Grass fire in yard of residence of G. Scott Locke, 26 South Spring Street. Extinguished by Chemical Company. No loss.

STILL. April 24, 8.21 a. m. Chimney fire in residence of Lyman Downs, 6 Mills Street. Extinguished by Chemical Company. No loss.

STILL. April 24, 3.07 p. m. Grass fire in rear of 107 Rumford Street. Extinguished by Chemical Company. No loss.

STILL. April 25, 2.28 p. m. Grass fire on Mooreland Farm, Iron Works Road. Chemical Company responded.

4-4-4. April 25, 2.30 p. m. Alarm given for preceding fire. Detail from the department sent under command of Engineer John J. McNulty. Fire was practically extinguished upon arrival. No loss.

STILL. April 25, 3.43 p. m. Brush fire in rear of Calvary Cemetery. Detail happening home from preceding fire just in time sent. Labored seven hours.

STILL. April 25, 4.55 p. m. At this time the fire had reached to rear of prison buildings. Alarm ordered given at West Concord. Seven hundred and fifty feet of hose wet. Loss, trifling.

STILL. April 25, 5.14 p. m. As a precautionary measure, and on account of information received regarding fire, reserve reel sent. No hose used.

STILL. April 26, 9.30 a. m. Chimney fire in residence of Edward Libby, 13 Thompson Street. Extinguished by members of Good Will Hose Company. No loss.

4-4-4. April 26, 10.52 a. m. Brush fire on the Abbott farm, Albin Road. Detail from the department sent un-

der command of Engineer J. J. McNulty. Labored one hour. No loss.

4-4-4. April 26, 1.17 p. m. Continuation of the brush fire of the twenty-fifth instant. At this time the fire had covered an immense area and was working south and west toward Penacook and Auburn Streets. Detail from the department sent under command of Engineer J. J. McNulty. Main detail labored six hours. Detail of four men left to watch through the night. Labored eighteen hours.

STILL. April 26, 1.40 p. m. Fire in shed connected with residence of Mrs. Flemming Mozee, on the Plains. Chemical Company responded, but no assistance was required. Extinguished by occupants. No loss.

4-4-4. April 27, 7.02 a. m. Continuation of brush fire of the twenty-fifth. Detail from the department sent to Auburn and Penacook Streets, under command of Engineer W. J. Coffin. Labored twelve hours.

STILL. April 27, 10.16 a. m. A call for the Chemical Company from the detail at Penacook Street.

4-4-4. April 27, 12.19 p. m. Brush fire on the Plains, near South Pembroke Street. Detail from the department sent under command of Engineer J. J. McNulty. Labored six hours. Loss, trifling.

STILL. April 27, 12.22 p. m. Continuation of the brush fire of the twenty-fifth instant. Residence on Auburn Street threatened. A call for hose wagon. Eagle wagon sent. One thousand feet of hose laid. Wagon immediately returned to quarters. At this time the fire had reached the hydrant zone, still the situation was a serious one. During the afternoon buildings on Auburn, Franklin, Gladstone, Rumford, Penacook, High Street Extension and Ridge Road were in danger and frequent calls were received at the Central Station for assistance. During the afternoon the detail had two thousand feet of hose at its disposal. This was moved from one hydrant to another as needed un-

til the aggregate number of feet used reached fifty-six hundred.

STILL. April 27, 1.24 p. m. A call for hose wagon from Ridge Road. Eagle wagon again sent. One thousand feet of hose laid, when wagon was again returned to quarters.

STILL. April 27, 2.18 p. m. A call for Chemical Company from Franklin and Gladstone Streets.

STILL. April 27, 2.21 p. m. A call for hose wagon from Franklin and Gladstone Streets. No hose was used from this wagon, as upon arrival the detail had a line already laid.

STILL. April 27, 3.56 p. m. A call for steamer from Rumford Street. Kearsarge engine sent. Engine worked one and one-half hours.

STILL. April 27, 8.00 p. m. A call for Chemical Company from Penacook Street, west of the Perkins buildings. This was the end of this fire. Loss unknown. No buildings burned, although the engine-houses of the New England Granite Company on Rattlesnake Hill were at one time in danger, besides the residences before mentioned.

STILL. April 28, 1.37 p. m. A call to investigate chimney condition in residence of Mrs. G. L. Green, 32 Maple Street. Detail sent with Chief's buggy. Had evidently recently burned out. One pony used.

STILL. April 29, 10.17 a. m. Chimney fire in residence of Frank Donahue, 10 Jefferson Street. Extinguished by Chemical Company. No loss.

STILL. May 1, 6.30 a. m. Set of buildings consisting of house, barn, etc., on the Pittsfield road destroyed. Buildings owned by Stickney Hanson and occupied by owner, Moses Edmunds, and a family consisting of Mr. and Mrs. Merl Bills and two children aged five and two years, visitors. The youngest child, Elmer Bills, who was up stairs,

perished in the flames. Fire probably caused by tipping over of lamp which had been left burning up stairs. Chemical Company responded, but could do little but prevent the fire from spreading in the woods. Detail sent over later in automobiles to recover the body, which was accomplished.

Building,	\$700.00	\$16.00	\$500.00	\$16.00

STILL. May 6, 8.58 p. m. Chimney fire in residence of R. H. Kimball, 122 School Street. Extinguished by Chemical Company. No loss.

4-4-4. May 7, 10.23 a. m. Brush fire on Garvin's Falls road. Detail from the department sent in barge under command of Engineer W. J. Coffin. Labored three hours. Loss unknown.

4-4-4. May 7, 12.57 p. m. Alarm rung in answer to an appeal for help from Bow. Dangerous brush fire. Detail from the department sent in barge under command of Engineer J. J. McNulty. Labored nine hours.

4-4-4. May 7, 2.55 p. m. Alarm occasioned by another call for help. Detail from department sent with four-seater, with orders to report to Engineer J. J. McNulty. Labored five hours.

4-4-4. May 7, 7.00 p. m. Brush fire on Plains, north of Gully Hill. Detail sent with barge under command of Engineer W. J. Coffin, while another small detail was sent in advance with automobile offered by owner. Labored one hour. No loss.

4-4-4. May 8, 2.52 p. m. Brush fire on Garvin's Falls road. Barge and detail from the department sent under command of Engineer W. J. Coffin. Labored three hours.

4-4-4. May 8, 7.57 p. m. Brush fire on Garvin's Falls road. Barge and detail from the department sent under command of Engineer J. J. McNulty. Unnecessary call. Three hours' labor.

STILL. May 9, 6.20 p. m. Alarm occasioned by fuming of room at 65 North Main Street. Chemical Company responded but no assistance was required.

STILL. May 10, 1.40 p. m. Brush fire on Garvin's Falls road, near Pembroke line. Forest fire-warden and detail from the department sent in automobile. Upon arrival it was found that the railroad employees had been summoned and had the fire well in hand. Three hours' labor.

4-4-4. May 11, 2.28 p. m. Brush fire on shore of Penacook Lake, near summer cottages of George B. Lauder, J. C. Derby and others. Automobile and detail sent under command of Forest Fire-warden D. J. Adams, which was followed as soon as possible by barge and another detail under command of Engineer W. J. Coffin. Cottage and ice-house owned by George B. Lauder burned to the ground. Hard and persistent labor alone saved other buildings. St. Paul's School students, who were boating upon the lake rendered invaluable service. Fire caused by careless burning of brush near buildings. Detail labored three hours. Small detail left to watch through the night.

Building,	\$500.00	\$150.00	\$300.00	\$150.00

4-4-4. July 11, 12.00 noon. Alarm sounded in response to an appeal for help from Bow in extinguishing brush fire. Barge and detail from the department sent under command of Capt. J. C. Mills. Labored four hours.

STILL. July 12, 12.13 p. m. Fire in dump on Bridge Street, east of river bridge. Chemical Company responded and extinguished the fire which was rapidly running across the field to the woods, but could do nothing with the main fire, it having burrowed far underneath.

STILL. July 12, 1.13 p. m. A call for assistance from scene of preceding fire. Reserve reel, reserve hose wagon and Kearsarge wagon sent with detail. Nineteen hundred feet of hose wet. No loss.

4-4-4. July 12, 3.41 p. m. Alarm given in response to a call for help from West Concord in extinguishing brush fire. Detail from the department sent by railroad train under command of Engineer J. J. McNulty. Labored four hours. This was the beginning of a fire which was not officially declared out until the twenty-fourth instant, when rain came as a relief. It sorely taxed the resources of the railroad and fire department officials and caused no end of worry among property owners in the village.

STILL. July 13, 11.25 a. m. Another call for help from West Concord. Kearsarge engine, reserve reel and detail sent. Engine worked four hours protecting buildings. Seventeen hundred feet of hose wet.

STILL. July 13, 3.30 p. m. A call for help in fighting brush fire from West Parish. Details sent in automobile with pony extinguishers. Labored fifteen hours.

STILL. July 13, 4.27 p. m. Another call for help from West Parish. Six-horse barge and man sent with orders to pick up all men who could be spared at West Concord and convey them to the scene. Labored fifteen hours.

11-11. July 13, 4.46 p. m. Alarm given in response to call for help in fighting brush fire from Hopkinton. Barge and detail from the department sent under command of Engineer W. J. Coffin. Labored six hours.

STILL. July 21, 5.28 p. m. Slight fire on roof of wholesale grocery store, 12 Hill Avenue, owned and occupied by Woodworth & Co. Caused probably by spark from foundry stack. Extinguished by Chemical Company. Loss, trifling.

STILL. July 22, 10.15 a. m. Fire in residence 7 North State Street, owned and occupied by Dr. D. E. Sullivan. Caused by painter stepping on snap match while using adelite. Extinguished by Chemical Company.

STILL. December 4, 10.00 a. m. Chimney fire in residence of F. W. Deering, 47 Green Street. Extinguished by Chemical Company. No loss.

Box 25. December 7, 4.59 p. m. Fire in brick buildings on south side of School Street between Durgin Street and Durgin Lane. The northerly building was owned by the William B. Durgin Company and occupied by the Globe Theatre, Williamson & Patch, proprietors. The southerly building was owned by Charles C. Schoolcraft and occupied by the Dux Toy Company as a manufactory and C. C. Martin as a blacksmith shop. These buildings comprised virtually one block, as the wall between them contained fourteen apertures, formerly windows, thinly boarded, thus affording no protection from fire for either building, should one originate in the other. The weight of evidence would indicate that the fire originated in the theatre building, but this will never be definitely known, as when the alarm was given the flames had secured a firm hold on both buildings. The first work in hand, of course, was the removal of employees from the buildings, which was successfully accomplished. The Insurance Block, brick, on the north side of School Street, owned by the Capital Fire Insurance Company and occupied by various parties for mercantile and residential purposes, was damaged by the heat to considerable extent, numerous panes of both plate and common glass being broken and paint scorched from roof to sidewalk. State Block, brick, mercantile, located on the east side of Durgin Lane and extending to Main Street, owned by the Hill Asso-

ciates, was slightly damaged. Frame residence on the west side of Durgin Street, owned by Mrs. Mary E. Boinay, also scorched. Stock of F. W. Woolworth & Co., in the James R. Hill building, slightly damaged by flooding of basement. Four firemen injured. Fifty-five hundred and fifty feet of hose wet. Recall, 9.26 p. m. Detail on duty through the night.

	Value.	Loss.	Insurance.	Ins. paid.

FIRE-ALARM TELEGRAPH.

NUMBER, LOCATION, ETC.

For the purpose of uniformity in numbering the fire-alarm boxes, the city is divided into six districts, viz.:

DISTRICT 1. Embraces that section of the city north and west of Washington Street, Box 17 of this division being located on the south side of the street.

DISTRICT 2. Embraces all between School and Washington Streets.

DISTRICT 3. Embraces all between Pleasant and School Streets.

DISTRICTS 4, 5 AND 6. Embrace all south of Pleasant Street.

The first figure of the box number will indicate the district.

DISTRICT No. 1.

- 9. New Hampshire State Prison.
- 12. Curtice Avenue.
- 13. Franklin and Rumford.
- 14. Bradley and Walker.
- 15. Main and Church.
- 16. Franklin and Jackson.
- 17. Alert Hose House.
- 18. C. S. Gale's Store.
- 19. Centre and Liberty.

DISTRICT No. 2.

- 21. State, opposite Court.
- 23. Main and Chapel.
- 24. Main and Centre.
- 25. Main and School.

26. Centre and Union.
27. School and Merrimack.
28. School and Spring.
29. Centre and Essex.

DISTRICT No. 3.

32. Warren and Pine.
34. Central Fire Station.
35. Martin's Drug Store.
36. Pleasant and Spring.
37. Pleasant and North Fruit.
38. Orchard and Merrimack.

DISTRICT No. 4.

41. South and Thompson.
42. Good Will Hose House.
43. Main and Fayette.
45. Nelson & Durrell's Store.
46. Perley and Grove.
47. South, opposite Downing.
48. Thorndike and South.
49. West and Mills.
412. Wall and Elm.
413. Main, opposite Thorndike.
414. State and West.
471. Clinton and South Fruit.

DISTRICT No. 5.

51. Boston & Maine Railroad, new shops.
52. South Main and Allison.
53. Hall and Hammond.
54. Broadway and Pillsbury.
56. St. Paul's School.

- 57. Pleasant View.
- 521. Broadway and Rockingham.
- 522. South Main and Holly.

DISTRICT NO. 6.

- 62. South Main, opposite Holt Bros.

PRIVATE BOXES.

- 5. Boston & Maine Railroad, north end passenger depot.
- 6. The Abbot-Downing Company.
- 7. New Hampshire State Hospital.
- 8. Page Belting Company.
- 9. Three boxes inside New Hampshire State Prison.
- 33. State House.
- 39. Odd Fellows' Home.
- 55. Boston & Maine Railroad, old repair shops.

 FIRE-ALARM SIGNALS.

Alarms rung in from Boxes 41, 42, 43, 45, 46, 47, 48, 49, 412, 413, 414, 471, 51, 52, 53, 54, 55, 56, 57, 62, 521 and 522, will not be responded to by the Alert Hose Company until signaled. The signal to proceed to the fire will be four blows or second alarm, excepting alarms rung in from Box 56.

Alarms rung in from Boxes 8, 9, 12, 13, 14, 15, 16, 17, 18, 19, 21, 23, 26, 27, 29, 32, 37, 39 and 56 will not be responded to by the Good Will Hose Company until signaled. It will be governed by the same signals governing Alert Hose Company. The Alert Hose and Good Will Hose Companies will hitch up and remain in readiness 20 minutes after the first alarm, to all boxes not responded

to on first alarm. Then, receiving no signal, the officers in charge shall dismiss their companies.

Alarms rung in from Boxes 12, 37, 53, 54, 57, 471 and 521 will not be responded to by the Kearsarge Company on first alarm.

The signal to proceed to the fire will be two blows, four blows, or second alarm, as circumstances may warrant.

Kearsarge Steamer to all calls except 51.

Eagle Hose Company to all calls.

Eagle Steamer to Box 6, on first alarm; to Boxes 23, 24, 25, 33, 34, 35, 42, 43, 45 and 413, on second; to all others on third, except 9 and 56.

Governor Hill Steamer will respond to Boxes 7, 8, 9 and 39 on first alarm; to Boxes 5, 6, 12, 13, 14, 15, 16, 17, 18, 19, 21, 26, 27, 28, 29, 32, 36, 37, 38, 41, 46, 47, 48, 49, 412, 414, 471, 52, 54, 55, 57, 62, 521 and 522, on second; to all others on third.

Chemical Engine will respond to all box alarms except 8, 9, 51, 56, 57 and 521.

Veterans' Auxiliary Company will respond to all third alarms occurring before the recall, whether emanating from same box or not.

Two rounds of 11 strokes each will signalize the requirement of assistance out of town, and will be responded to by a detail of three men from each company, appointed for the purpose, and by those alone.

Two additional blows will indicate that the call for assistance emanates from East Concord. Such apparatus will be detailed as circumstances warrant. In case further aid is necessary, Box 34 (Central Station) will follow.

All-out signal, three strokes of the bell.

BRUSH FIRE SIGNAL.

Three rounds of four strokes each will be sounded on the bells and will be responded to by a detail of four men

from each company, appointed for the purpose, and by those alone.

MILITARY SIGNAL.

Two rounds of 3-1-2.

SIGNALS FOR CLOSING SCHOOLS.

Two strokes of the bell given three times, with a pause of 15 seconds between the rounds.

The signal to close for the forenoon session will be given at 8 o'clock a. m.

The signal to close for the afternoon session will be given at 1 o'clock p. m.

The signal to close all schools for one session will be given at 11.30 a. m.

TESTING SIGNALS.

For the purpose of testing the condition and accuracy of the fire-alarm telegraph, a box alarm will be rung in every Monday afternoon at 4.30 o'clock precisely. It will be one single round only, indicating by the strokes on the bells the number of the box. The boxes used for this purpose will vary each week, alternating in the circuits.

Upon each other week-day a single blow upon the bells will be rung in from a box, alternating as before mentioned.

THE FIRE-ALARM TELEGRAPH

is the "Gamewell" patent. It embraces 41 miles of wire.

On the lines are 44 fire-alarm boxes belonging to the city, and 10 private boxes—in all, 54. There are three alarm bells, one of 3,724 pounds (bell metal), one of 3,740 pounds (bell metal), and one of 2,000 pounds (American steel). There are also 16 mechanical tappers, 40 direct action tappers, one four-circuit repeater, and six indicators.

The battery consists of 252 storage battery cells.

The alarm system was installed in 1880 by the Gamewell Fire-alarm Telegraph Company.

DIRECTIONS FOR GIVING AN ALARM.

Above all things, keep cool.

To obtain the key to the box, break the glass in the key box located beneath the alarm box.

In each box there is a small bell called a "tell-tale," designed expressly for the purpose of informing you whether an alarm is being transmitted the instant you open the door.

Open the box, and if this bell is not heard, pull down the hook once only and let go.

But if this bell should be heard, it would indicate that another box had been pulled, and it would be useless to attempt to pull another until the one already pulled had performed its mission.

Wait until 20 seconds have elapsed after the "tell-tale" has stopped ringing, close the door, which will restore the armature to the position it left when the door was opened.

Open the door, pull down the hook once only and let go.

Should there be no response, pull it again.

Then should there be no response, go to the next box.

Unless your presence is most urgently required at the scene of the fire, remain at the box to direct the department.

Never open the box or touch anything pertaining to it except in case of fire.

Never give an alarm for a fire seen at a distance.

Be reasonably sure that there is a fire before giving an alarm.

Never give an alarm for a chimney fire unless there is imminent danger of the building catching.

PENACOOK FIRE-ALARM TELEGRAPH.

NUMBER, LOCATION, ETC.

W. C. Green, Chief Engineer:

I herewith submit for your consideration the following report of the Penacook fire-alarm telegraph system. The system is the Gamewell patent, and consists of four and one half miles of No. 9 iron wire. On the lines are ten boxes owned by the city, two private boxes, one 1,500-pound bell, one indicator, three mechanical gongs and three direction tappers. The battery consists of thirty-six storage battery cells. The battery plates have been renewed this year. No new boxes were added the past year. I would respectfully recommend the addition to the system of two new boxes the coming year.

Respectfully submitted,

FRED M. DODGE,

Superintendent of Fire Alarm.

LOCATION OF BOXES.

31. Elm Street, near S. N. Brown's house.
35. Washington Square.
37. Washington Street, near outlet.
38. Junction of West Main and South Main Streets.
39. South Main Street, near cemetery.
41. Corner of Center and East Canal Streets.
42. High Street, opposite Maple Street.
45. Summer Street, opposite Church Street.
47. Merrimack Street, opposite Hose House.
48. Corner Penacook and Rolfe Streets.

PRIVATE BOXES.

- 25. Hoyt Electrical Instrument Works.
- 62. Concord Axle Works.

ALL-OUT SIGNAL.

Three strokes of the bell.

BRUSH FIRE SIGNAL.

Three rounds of four strokes each.

OUT OF TOWN SIGNAL.

Two rounds of eleven strokes each.

FOR FIRE ON BOSCAWEN SIDE.

Box 35, with two additional strokes.

SIGNALS FOR CLOSING SCHOOLS.

Two strokes of the bell given three times, with a pause of 15 seconds between the rounds.

The signal to close all schools for the forenoon session will be given at 7.30 a. m.

The signal to close for the forenoon session at the Charles Street building will be given at 8.00 a. m.

The signal to close all schools for the afternoon session will be given at 12.15 p. m.

The signal to close for the afternoon session at the Charles Street building will be given at 12.45 p. m.

TESTING SIGNALS.

For the purpose of testing the condition and accuracy of the fire-alarm telegraph, a box alarm will be rung in every Saturday afternoon at 12.50 o'clock precisely. It will be

one single round only, indicating by the strokes on the bells the number of the box. The boxes used for this purpose will vary each week, alternating in the circuits.

Upon each other week-day a single blow upon the bells will be rung in from a box, alternating as before mentioned.

DIRECTIONS FOR GIVING AN ALARM.

To open the box, break the glass and turn the key.

In each box there is a small bell called a "tell-tale," designed expressly for the purpose of informing you whether an alarm is being transmitted the instant you open the door.

Open the box, and if this bell is not heard, pull down the hook the whole length of the slot, once only, and let go.

But if this bell should be heard, it would indicate that another box had been pulled, and it would be useless to attempt to pull another until the one already pulled had performed its mission.

Unless your presence is most urgently required at the scene of the fire, remain at the box to direct the department.

Never open the box or touch anything pertaining to it except in case of fire.

Never give an alarm for a fire seen at a distance.

Be reasonably sure that there is a fire before giving an alarm.

Never give an alarm for a chimney fire unless there is imminent danger of the building catching.

The Penacook fire-alarm system was installed in June, 1908, under direction of the chief engineer.

REGULATIONS OF CONCORD FIRE DEPARTMENT.

SECTION 1. The fire department shall consist of a chief engineer, two assistants within the precinct, one engineer each from Ward 1, Ward 2 and Ward 3; two steamer and hose companies, one company to consist of thirteen men, including driver, and one company to consist of fourteen men, including drivers; one relief steamer (company) to consist of two men; two hose companies to consist of eleven men, including driver; a chemical engine company to consist of two men; a hook and ladder company to consist of twenty-one men, including driver; a house man at Central Fire Station; steamer Pioneer, not less than twenty or more than forty men; hand engine companies No. 2 and No. 3, not less than twenty or more than thirty men each. The engineers shall exercise the powers of fire-wards, and those within the precinct shall constitute the board of engineers.

SECT. 2. The chief engineer and assistant engineers and all other members of the fire department shall hold their respective offices and places until they are removed, or their offices or places are otherwise vacated. The board of mayor and aldermen, for cause, and after a due hearing, may at any time remove from office or place the chief engineer, or any assistant engineer, or any officer or member of the department. In case of vacancies from any cause in the department, of officers or men connected in any manner with the fire service, such vacancies shall be filled by the board of mayor and aldermen.

SECT. 3. The chief engineer shall give his entire time to the duties of his office, and shall not engage in or be connected with any other business or occupation, and shall reside in a house to be furnished by the city free from rent.

He shall receive in full for his services, in addition to the use of said house, rent free, the sum of twelve hundred and fifty dollars per annum.

SECT. 4. The chief engineer shall have the sole command at fires over all persons, whether members of the fire department or not. He shall direct all proper measures for extinguishing fires, protecting property, preserving order and enforcing the laws, ordinances, and regulations respecting fires; and shall examine into the condition of the fire engines and all other fire apparatus, and of the fire engine houses and other houses belonging to the city and used by the department, and by the companies thereto attached, as often as once a week, and whenever directed to do so by the mayor, or the committee on fire department through its chairman. He shall certify all bills and submit the same for inspection monthly to the joint standing committee on fire department. He shall report to the city council annually a statement of the receipts and expenditures of the fire department, the condition of the fire engines and all other fire apparatus, a detailed schedule of the property in his charge, the names of the officers and members, and all other facts in relation to the department. Whenever the fire engines or other fire apparatus require repairs he shall, under the direction of the committee on fire department, cause the same to be made, and as far as practicable he shall examine into the location and condition of fire apparatus belonging to corporations or private individuals within the limits of the city. He shall require permanent men, when not otherwise engaged, to perform such other duties and do such other work as in his judgment may be deemed proper. He shall be responsible for the proper care of all property connected with the fire department. He shall keep fair and exact rolls of the respective companies, specifying the time of admission and discharge, and the age of each member, and shall report annually, or

oftener if directed, all accidents by fire which may happen within the city, with the causes thereof, the number and description of the buildings destroyed or injured, and the amount of loss and insurance on the same, together with the names of owners or the occupants, and shall make returns as required by the Laws of 1889, chapter 84, and entitled: "An act in relation to returns and statistics of fires." He shall visit each department house as often as practicable, and inspect the men, the books of the house, and see that the quarters are properly conducted and in good order. He shall have the power to suspend any officer or member of the department for insubordination, disorderly conduct or neglect of duty, said suspension to continue pending the action of the mayor and aldermen. The chief engineer shall examine all places where shavings and other combustible materials may be collected or deposited, and cause the same to be removed by the tenants or occupants of such places, or at their expense, whenever in his opinion such removal is necessary for the security of the city against fires.

SECT. 5. In the absence of the chief engineer, the next assistant engineer in rank, who may be present, shall have the powers and perform the duties of the chief engineer and the seniority in rank of the engineers shall be determined by the board of engineers at their first meeting.

SECT. 6. The foreman of each engine, hose, and hook and ladder company, immediately after every fire at which said company may have attended, shall examine into the condition of the fire apparatus belonging to his respective company, and report any deficiency which may exist to the chief engineer. He shall keep, or cause to be kept by the clerk of his company, exact rolls, specifying the time of admission, discharge, and age of each member, and accounts of all city property entrusted to the care of the several members, and of all cases of absence and tardiness, in a book provided for that purpose by the city, which rolls and

record books are always to be subject to the order of the chief engineer and mayor. They shall also make, or cause to be made, to the chief engineer, true and accurate returns of all members, with their ages, and of the apparatus entrusted to their care, whenever called upon so to do.

SECT. 7. The foreman of each company shall, under the direction of the chief engineer, have charge and management of his company at fires; the assistant foreman shall assist the foreman in the discharge of his duties, and act as clerk of the company, and in the absence of the foreman assume his authority. The foreman and assistant foreman shall be appointed by the chief engineer.

SECT. 8. The stewards of the Alert and Good Will Hose Companies shall act as drivers of hose carriages, take charge of and properly care for and exercise the horses used by each company. They shall be permanently engaged and devote their whole time to the department, and sleep in their respective hose houses at night; and for the proper execution of all duties required of them shall be subject to the direction of the chief engineer.

SECT. 9. It shall be the duty of every engine, hose, and hook and ladder company, to have its engine, hose and other apparatus cleaned, washed, oiled, reeled and housed immediately after its return from any fire or service, and at all times to maintain the same in good condition, and the members of the several companies shall perform any necessary duties which the chief engineer or their respective foreman may direct.

SECT. 10. All members of the department when on duty shall wear some suitable badge, to be designated by the board of engineers. The chief and permanent members shall wear at all times when on duty the regulation parade uniform worn by the fire department.

SECT. 11. The pay-rolls for the board of engineers and the several fire companies shall be made up by the chief

and clerk of the board of engineers semi-annually, on the first day of January and July. Foremen and clerks of companies will forward their pay-rolls to the board of engineers for approval and after the action of said engineers and the approval of the city auditor and the committee on accounts and claims, said pay-rolls shall be passed over to the city tax collector, under whose sole direction all sums for services of call firemen shall be disbursed.

SECT. 12. No charge for extra services will be allowed any member of the department unless upon an order of a member of the board of engineers.

SECT. 13. No engine, hose, or hook and ladder carriage shall be taken to a fire out of the city without permission from the chief engineer, except steamer Pioneer, which may be taken to any fire in the village of Penacook, nor shall any apparatus of the fire department be taken from the city except in case of fire, without permission from the board of mayor and aldermen; and in sending any apparatus to aid in extinguishing fires in neighboring localities, the chief in all cases will authorize his assistant next in rank available to take charge of the direction of such apparatus, and not allow any fireman, at such an emergency, to leave the city, except such a number as is actually required to man the apparatus, and no member to leave without permission or direction from the chief engineer.

SECT. 14. It shall be the duty of engineers and firemen, whenever there is an alarm of fire in the city, to repair immediately to the place of such fire, wearing a suitable badge, and the engineers shall take proper measures that the several engines and other apparatus be arranged and duly worked for the speedy and effectual extinguishment of the fire. The engineers shall inspect and make themselves familiar with all shops, hotels, tenement blocks, and all public buildings, halls, churches, schoolhouses and asylums once in each six months and study the location of all hydrants

and reservoirs in the city, and generally inform themselves in all matters pertaining to their duties as engineers. No engineer shall interfere with or attempt to give orders relative to the location or use of a line of hose, when he has ascertained that another has command of it, unless by consent of the engineer in command of it, or by orders of the officer in command of the fire; and it shall be his duty to inquire if there is an officer in charge.

SECT. 15. For each absence from fire, or neglect of duty, the chief engineer, the assistant engineers, and engineers of steamers shall be fined three dollars, and each other member of the department one dollar; provided, however, that any fireman liable as above may in case of sickness have power of substitution by giving notice, each assistant engineer to the chief, each foreman to an engineer, and each other member to the foreman of his company. All fines shall be paid to the clerks of respective companies at the first regular meeting after they are incurred. The clerks of companies shall disburse the fines to substitutes answering for absent members in cases where there were substitutes. In cases where there were no substitutes the fines shall be paid to the city.

SECT. 16. Any volunteer company using the apparatus of the city at any fire shall be under the control and command of the chief engineer and his assistants, agreeably to the foregoing provisions of this chapter.

SECT. 17. The department shall appear for public parade, drill and inspection at such times as the chief engineer and committee on fire department shall order, for which purpose three hundred dollars can be expended annually. The companies in Wards 1, 2 and 3 will attend by invitation and voluntarily. Each company in the department under the direction of the chief engineer or assistants shall take out their respective engines and apparatus for exercise and drill as often as he shall direct, such exercise and drill

to take place in public, not oftener than once a month, and at least once in two months, between the first of April and November.

SECT. 18. The engineers shall have control of all persons appointed to serve in any company of the fire department and power to direct and control the labor of all persons present at any fire. An engineer may and shall cause any fire deemed by him to be dangerous in any place to be extinguished or removed.

SECT. 19. The engineers may establish such regulations respecting the kindling, guarding and safe-keeping of fires and for the removal of shavings and other combustibles from any building or place, as they shall think expedient. Such regulations shall be signed by a majority of the engineers. Such regulations shall be approved by the mayor and aldermen, recorded by the city clerk, and copies attested by him posted up in two or more places in the city thirty days, when they shall take effect. Penalties not exceeding twenty dollars for each offense may be prescribed by the engineers for the breach of such regulations, and such regulations shall remain in force until altered or annulled.

SECT. 20. The board of engineers may from time to time make and enforce such regulations for the government of the department as may be deemed proper, subject to the approval of the board of mayor and aldermen.

SECT. 21. If any member of any of the several companies shall wilfully neglect or refuse to discharge his duty, or shall be guilty of disorderly conduct or disobedience to any officer or to any engineer, he shall for any such offense be forthwith dismissed from the department by direction of the chief engineer. No person shall be a member of, or serve in, the fire department, who is under the age of twenty years, and no person whose occupation is carried on

outside the city shall be appointed a member of the fire department.

SECT. 22. All applicants for membership shall be nominated by the chief engineer, and shall receive pay and be considered members of the department from the date of their confirmation by the board of mayor and aldermen.

No person shall hereafter be appointed to any position in the fire department unless and until the committee on fire department shall have certified in writing to the board of mayor and aldermen that such person has been examined by them, or under their supervision, and is in their opinion qualified to perform the duties of the position to which he is nominated.

No officer or member of the permanent, or officer of the call, force shall attend any political convention as a delegate, distribute tickets at any election, or take any part whatever in political matters other than to exercise the right of suffrage, and no political or religious discussion shall be permitted in any of the department houses.

SECT. 23. The chief engineer shall have the care and management of the rooms, apparatus, machinery, wires, poles and signal boxes connected with the fire-alarm telegraph. He shall prepare rules and directions for giving alarms of fire through the telegraph. He shall have the superintendence, and under the direction of the joint standing committee on fire department have control of the several stations, the apparatus, the furniture therein, and all other property appertaining to the department. He shall, with the assistance of the permanent men at the Central Station, make the necessary repairs and take care of the fire-alarm system, including the batteries, all alarm boxes, and everything pertaining to the fire-alarm system. He shall personally be able to master the fire-alarm in every particular, and every permanent man at the Central Station shall be obliged to understand the fire-alarm system, in order that

the chief engineer may call upon any of them to attend to and repair any part of the same. This provision shall not be construed to prevent the chief engineer from employing extra linemen when necessary, or from acting promptly in any emergency.

SECT. 24. Permanent officers and men of the department shall be entitled to a vacation without loss of pay of fourteen days in each year. In addition they shall be entitled to be off duty without loss of pay two days in each month, such two days not to be taken in the same week. On the weeks that they are not off duty for a day, under the above provision, they shall be entitled to be off duty for one night without loss of pay. All vacations and absences from duty under the above to be under the direction of the chief engineer.

SECT. 25. The joint standing committee on fire department, subject to the board of mayor and aldermen, shall by themselves or agent purchase all supplies in connection with the fire department, and direct all repairs of houses and apparatus; and all bills contracted for the department must receive their approval before being passed on by the committee on accounts and claims. They shall hold stated meetings at least once each month at the Central Fire Station, and all communications to the city government from the fire department must come through said committee, and annually at the call of the finance committee, in connection with the chief engineer, they shall make recommendations as to the amount of appropriations the wants of the department will require for the coming year.

SECT. 26. The city marshal and regular police officers shall have in charge all matters relating to the removal and protection of personal property endangered by fire, and any person entering a building or removing property contrary to the orders of the city marshal or such police officers, shall be fined five dollars; and in the absence of firemen at fires,

from their respective department houses, the policemen in that vicinity will take charge of said houses.

SECT. 27. It shall be the duty of the chief engineer to cause all snow and ice or other obstructions to be removed from and around all fire hydrants owned by the city, so that at all times the fire department can make immediate connection of the hose to the hydrants.

SECT. 28. The annual pay of the members of the fire department shall be as follows, and in full for all services: Chief, twelve hundred and fifty dollars per annum and house rent; permanent force at Central Fire Station, seven hundred and twenty-eight dollars each; drivers at Good Will and Alert Hose houses, seven hundred and twenty-eight dollars each per annum, paid monthly; assistant engineers, within the precinct, one hundred and twenty-five dollars each; engineers of steamers, within the precinct, one hundred and fifteen dollars each; foremen of companies, within the precinct, each ninety dollars per annum; assistant foremen of companies, within the precinct, eighty-five dollars per annum; members of steamer, hose and hook and ladder companies, within the precinct, and house man at Central Fire Station, eighty dollars per annum; outside the Precinct, engine companies Nos. 2 and 3, two hundred and forty dollars each, and Pioneer Steamer Company, No. 3, five hundred dollars, said sums to be divided among the members as each company shall direct; engineer of steamer at Penacook, seventy-five dollars per annum; assistant engineer at Penacook, twenty-five dollars; assistant engineer at East Concord, fifteen dollars; and assistant engineer at West Concord, twenty dollars.

Section 28 amended. Pay of members of Chemical Company advanced to eight hundred dollars. August 15, 1907.

Section 28 amended. Pay of outside the precinct companies advanced as follows: Pioneer Steamer Company, to six hundred dollars per annum; Engine Company, No. 3, to three hundred and forty dollars per annum. June 13, 1910.

Pay of the East Concord branch of the service advanced by ordinance as follows: Assistant engineer, to twenty dollars per annum; Old Fort Engine Company, No. 2, to three hundred and forty dollars per annum; steward of Old Fort Engine Company, to thirty dollars per annum. September 14, 1910.

Pay of Chemical Company advanced by ordinance to nine hundred and twelve dollars. Pay of other permanent men advanced to eight hundred and forty dollars. April 10, 1911.

SECT. 29. The several engineers residing in Wards 1, 2 and 3 shall have the entire care and control, under the direction of the chief engineer, of the buildings and appurtenances occupied in part by the fire department situated in said wards, respectively, to whom all applications for the use of the halls, or any other part of such building, shall be made. Said engineers may severally appoint janitors, who shall serve under the exclusive direction of the engineer having the care and control of the buildings where said janitor shall be appointed. Each of said engineers shall annually, in the month of December, render a detailed statement, in writing, to the mayor and aldermen, of all receipts and expenditures for the preceding year on account of such buildings.

SECT. 30. Stewards for the Pioneer Steamer Company and Engine Companies Nos. 2 and 3 shall be appointed by the mayor and aldermen, and shall receive for all services performed by them in that capacity the following sums: For Pioneer Steamer Company, thirty dollars per annum, and when performing the duties of janitor of the building an additional sum of forty-five dollars per annum; and for steward of Engine Company No. 2, thirty dollars per annum; and for steward of Engine Company No. 3, thirty dollars per annum. No steward shall be allowed to purchase supplies for such building, or for the department, unless by the authority and direction of the committee on fire department; and in no case shall he have any care or control of the building or its appurtenances occupied by the company of which he is a mem-

ber, except in the immediate service of the company, unless he shall be appointed janitor thereof, when he shall be under the direction of the engineer, as provided in the foregoing section.

SECT. 31. The permanent men and horses at all of the fire stations in Concord shall at all times be on duty at their respective stations to attend to fire-alarm calls; and neither the permanent men nor the permanent horses connected with the fire department shall engage in any work for any other department of the city.

The men at the different fire stations shall do such work in connection with the station and apparatus as the chief engineer or his assistants may direct. All permanent men shall lodge in their respective stations (except chief), and in all cases of absence a substitute must be furnished; and in all cases when any extra service is required, the chief, with the sanction of the committee on fire department, shall have power to hire the same; the chief may also increase as far as possible the number of call men that wish to lodge at any fire station, subject to the regulations of the fire department. The chief engineer shall be furnished with a horse and wagon, to be maintained by the city, for his use at all times.

SECT. 32. All alarms for brush or forest fires shall be responded to by members of the fire department under such rules and regulations as shall be prescribed by the chief engineer.

SECT. 33. All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed; but such repeal shall in no wise revive or put in force any ordinance heretofore repealed, and this ordinance shall take effect upon its passage.

ADDITIONAL REGULATIONS.

ARTICLE 1. Any engine or hose company running out a line of hose from a hydrant or steamer shall be entitled to the pipe, although the hose of other companies may be attached, in order to reach the fire. And any company coming to a fire, and finding an incompleated line of hose laid out from a hydrant or steamer, shall attach to and lengthen out such line, in lieu of laying a line of its own.

ART. 2. When two or more engine companies are playing in a continuous line, the pipe shall belong to the company attaching to hydrant or steamer as provided in the foregoing article; but any company furnishing the entire line, and receiving water from a steamer, the pipe shall belong to such company so receiving.

ART. 3. Hose companies shall attach first lines to high pressure hydrants where accessible; steamers attaching to those of low pressure, or reservoir.

ART. 4. No company shall take possession of a hydrant or reservoir unless their hose and apparatus for attaching to the same are at hand and ready for use.

ART. 5. In proceeding to, working at, or returning from fires, noisy demonstrations are strictly prohibited, and it is required of officers of companies to maintain perfect order and decorum in their respective commands during all such service.

ART. 6. In case of fire the foreman first arriving shall be in command until the arrival of an engineer.

ART. 7. Drivers are strictly enjoined, in proceeding to a fire, to use the utmost care and caution consistent with promptness. Racing between companies is forbidden under any circumstances. Any collision or casualty occurring to horses or apparatus will be considered a sufficient cause for the suspension of the driver in charge at the time.

ART. 8. Fire hats are furnished by the city for the pro-

tection and identification of the firemen, and they must be worn at all fires except in the severest weather, when caps may be worn.

ART. 9. While attending fires it shall be the duty of members of the department, when not performing active service, to concentrate about their respective pieces of apparatus.

ART. 10. All engine and hose companies responding to second or general alarms will connect, but will not lay their lines until they have reported to the officer in command for orders.

ART. 11. The wearing of badges shall not be regarded by members of the department as conveying to them the privilege of free access to premises after fire has been extinguished.

ART. 12. All members of the department shall address all officers by their respective titles while on duty at fires.

ART. 13. The roll of each company shall be called as soon as the apparatus is housed, and no member will be excused except in case of sickness. Rolls must be called after every alarm. No officer or member will be marked present on the company roll unless present at fires and returns to house with apparatus, unless excused by an engineer.

ART. 14. Each company shall be allowed three substitutes, except Hook and Ladder Company No. 1, which shall have five, to be approved by the chief engineer.

ART. 15. All orders issued by the chief or an assistant engineer shall be promptly obeyed. At all fires occurring in the night, the chief engineer shall be identified by a red light, assistant engineers by blue lights.

ART. 16. Members of the department are expected to cheerfully comply with all rules and regulations which are adopted or which may be adopted. Captains will be held responsible for all lack of promptness and efficiency in their commands.

ROLL OF THE FIRE DEPARTMENT, 1910.

Permanent Chief Engineer.

WILLIAM C. GREEN,

Office, Central Fire Station.

Assistant Engineers.

- Box 10. North State, opposite Cemetery.
- Box 11. West Concord.
- Box 12. Penacook.
- Box 13. Washington and Union Streets.
- Box 14. South, near Thompson Street.
- Box 15. South and Downing Streets.
- Box 16. White Park.

RECOMMENDATIONS.

Since the license law went into effect the business of this department has more than doubled, and during the summer months, owing to the vacations, we need more help; therefore, I hope that you will see the necessity of having at least two more officers appointed.

I consider a padded cell an absolute necessity for the safe confinement of the violently insane, and I earnestly recommend that one be constructed in our station.

CONCLUSION.

During the year this department has met with three serious losses in the deaths of Capt. Daniel S. Flanders and Officer Hoyt Robinson, both having served the city faithfully for many years. In the death of Edmund S. Cook,

our late city solicitor, we lost a good adviser and a staunch friend. Every member of this department sincerely mourns the loss of these men.

I thank the Honorable Mayor and Board of Aldermen for their kindness and support, also the judge of the police court and the city solicitor for their kind and courteous treatment. To the officers of the department I extend my gratitude for their hearty co-operation and the faithful performance of their duties.

Respectfully submitted,

GEORGE A. S. KIMBALL,

City Marshal.

REPORT OF CITY ENGINEER.

CITY ENGINEER'S OFFICE, CITY HALL,
CONCORD, N. H., December 31, 1911.

To the Board of Mayor and Aldermen:

In compliance with the ordinance creating this department, the nineteenth annual report showing the expenditures and operations of the engineering department for the year ending December 31, 1911, is herewith submitted:

Paid for engineer and assistants,	\$2,913.01
supplies,	114.13
car-fares and livery,	167.87
postage,	2.13
repairs,	24.55
express,	5.70
telephone, rental and tolls,	27.30
	<hr/>
	\$3,254.69
Paid for labor and supplies, assessors' maps,	995.05
	<hr/>
Total,	\$4,249.74
Appropriation,	\$4,175.00
Resolution,	74.74
	<hr/>
	\$4,249.74
Expended,	\$4,249.74

SEWERS.

The amount of money expended on construction and repairs will be found in the report made to the board of public works covering this field.

WATER-WORKS.

Together with the superintendent, I made a preliminary examination of the conditions about Penacook Lake, with reference to increased storage capacity, and secured data to show infringement of the city's rights by the steamboat company doing business on the lake.

STREETS.

Granite Street lay-out was changed to more nearly comply with the original petition.

South Pembroke Street was laid out and the lines definitely marked.

The above changes added no extra mileage to our highways, which remains the same as last year, viz.: 44.75 miles in the compact portion of the city, and 126.26 miles in the outlying districts, making a total of 170.01 miles of highways in the town.

Lines and grades were given for the macadam roadways in North Main Street, the Hopkinton Road and Pleasant Street, also for the gravel roadways on the Loudon Road and South Street, the new sidewalks and monthly measurements for new coal-tar sidewalks, with repairs to existing walks, were made, statements of quantities laid prepared and delivered to the superintendent of streets.

FIRE DEPARTMENT.

Plans showing the location of hydrants and fire-alarm boxes, both in the city proper and in Penacook, were brought up to date, blue prints made and delivered to the chief engineer of this department.

BUILDING PERMITS.

Together with the chief engineer of the fire department I have attended twenty-four hearings, on petitions for new buildings and for alterations to existing structures.

Twenty-six petitions were presented to us, two were withdrawn by the applicants and twenty-four granted.

CEMETERIES.

A survey was made and plan prepared showing the proposed addition to the cemetery on the Loudon Road.

In Blossom Hill Cemetery grading on the new block was completed, the lots laid out, plans made for the same, blue prints of which were given to the superintendent and filed in the deed books of the commissioners.

The deed books were brought up to December 31, 1911.

ASSESSORS' MAPS.

Much time has been spent on this work, with the result that the territory lying between the Merrimack River on the east, Hopkinton line on the west, Bow line on the south, the Contoocook River, the Borough Road and the Sewall's Falls Road on the North, has been covered and plans of the same will be ready for the assessors in April, 1912.

Few people realize the amount of detail in this work in looking up the titles, locating tracts lying off the highways, many of which are indefinitely bounded in loosely made deeds, and some of which have been handed down for generations without any settlement of estates.

To place the present owners requires much searching of the public records, but, when finally found is of material aid to the assessors as well as the general public.

The rapid accumulation of plans for this business seri-

ously cramps our small vault and some safe place for their storage should be provided.

We have now over thirty-nine hundred owners listed and their property shown on the plans. Many of these owners have several tracts of land and the above number does not indicate the total number of tracts shown.

We have copied the plans at the register of deeds office, showing the division of properties into house lots, so far as they pertain to Concord real estate.

We are continually adding to our list of owners who have neglected to return inventories, or have forgotten lands of value when the assessor came around. It would be impossible for any board of assessors to find all the lands without some plans and deeds to guide them. We believe that the money expended for this work will soon be returned to the city treasury in the shape of new taxable property brought to light.

The special appropriation for this work was \$1,000, of which amount \$995.05 was expended. The balance was carried to the engineering department.

The employees of the engineering department during the past season were: Fred W. Lang, principal assistant; Daniel H. B. Starr, assistant; John W. Raymond, I. F. Morrison, transitmen; Charles F. Pierce, Waldo H. Quimby, Robert N. Kennedy, Harold H. Betton, Earland B. Cook, George W. Burke and Arthur McCauley, rodmen.

MISCELLANEOUS.

Street lines and grades, for grading done by private parties, have been given on application.

Meetings of the Board of Aldermen, its committees and the Board of Public Works have been attended when requested and such information as this department had in its possession, or could acquire, was given. Plans and

estimates were furnished the different departments as needed.

The labors of the Board of Examiners of Plumbers and the Hydrant Commissioners will be found under their respective headings.

To the Mayor and the Board of Aldermen I wish to express my appreciation for many courtesies extended.

Respectfully submitted,

WILL B. HOWE,
City Engineer.

HENRY E. CONANT.

Born at Barre, Mass., May 24, 1832.

Died at Concord, N. H., July 27, 1911.

Member of the Board of Water Commissioners
from
1892 to 1895
and
1899 to 1911.

REPORT OF WATER COMMISSIONERS.

OFFICE OF THE BOARD OF WATER COMMISSIONERS,
CONCORD, N. H., February 15, 1912.

To His Honor the Mayor and the Board of Aldermen:

The Board of Water Commissioners transmits herewith the report of Percy R. Sanders, superintendent, exhibiting in detail the operations of the department for 1911, together with the report of Henry A. Rowell, engineer at the pumping station, which documents are made a part of this report.

The plant is in excellent condition and has met all reasonable demands upon it during the past year.

The season of 1911 has been the seventh successive season when the rainfall has been below the normal with the result that the mean height of water in Penacook Lake has been less than in any year since 1895.

The board thought it wise to caution water takers against waste and to restrict the use of garden hose during the heated term, but believes that no one was seriously inconvenienced in consequence.

It is confidently expected that the coming season will show a change for the better and that for a series of years the mean height of water will be nearly or quite normal.

With fewer demands for extensions and renewals of distributing mains, the expenditures have been less and the board has been able to anticipate the redemption of water bonds to the amount of \$17,000, and will undoubtedly be able to anticipate the payment of \$15,000 of the water debt the coming year, thus effecting a material saving in interest charges.

The board takes this opportunity to express its appreciation of the intelligent and faithful performance of their duties, by its employees in all departments.

Respectfully submitted,

EDSON J. HILL,
GEORGE D. B. PRESCOTT,
HARRY H. DUDLEY,
NATHANIEL E. MARTIN,
SOLON A. CARTER,
BURNS P. HODGMAN,
HENRY C. HOLBROOK,
FRANK P. QUIMBY,
CHARLES J. FRENCH, *ex officio*,
Board of Water Commissioners.

REPORT OF THE SUPERINTENDENT.

To the Board of Water Commissioners:

I herewith present to you the fortieth annual report of the operations of this department, showing the receipts, expenditures and abatements, together with a statement of the extensions and improvements made during the year ending December 31, 1911:

RECEIPTS.

For water, from consumers by fixed rates,	\$16,150.38	
For water, from consumers by meter rates,	54,995.17	
From delinquents,	100.68	
For water for building purposes,	65.76	
hay and apples sold,	25.00	
pipe and stock sold and labor,	277.37	
old brass and iron sold,	31.09	
wood sold,	37.00	
building sold,	230.00	
telephone tolls,	.65	
	\$71,913.10	
Deduct abatements,		31.76
		\$71,881.34
Net receipts for 1911,		

EXPENDITURES.

oil and packing,	92.96	
repairs,	154.88	
supplies,	54.10	
lighting and telephone,	48.54	
insurance,	28.00	
freight,	3.50	
	—————	\$3,340.53

EXTENSIONS AND IMPROVEMENTS.

Cast-iron main and distribution pipes have been laid and hydrants set during the year as follows:

In High Street,

extended south from Franklin Street, 27 feet 10-inch pipe.

In Lake Street, West Concord,

extended from North State Street to H. C. Holden's, 1,216 feet 8-inch pipe; also from H. C. Holden's to Quaker Street, 465 feet 6-inch pipe.

In Elm Street,

south from Fayette Street to Thompson, 270 feet 6-inch pipe.

In Grove Street,

south from Monroe Street to Downing, 1,093 feet 6-inch pipe.

In Dartmouth Street,

extended south, 59 feet 6-inch pipe.

In Myrtle Street,

south from Thompson Street, 99 feet 4-inch pipe.

In Jefferson Street,

south from Thompson Street, 138 feet 4-inch pipe.

On hydrant branches,

152 feet 6-inch pipe.

Also 194 feet 1¼-inch pipe; 614 feet 1-inch discontinued.

Thirteen new hydrants have been set, as follows:

On Monroe Street, at Rumford School.

On Thorndike Street, at South State.

On McKinley Street, at Dunklee Street extension.

On Pleasant Street, at South Church.

On Dartmouth Street, at Clinton.

On Hanover Street, near No. 10.

On Penacook Street, opposite T. Hannigan's.

On High Street, at Valley.

On Beacon Street, at White.

On North State Street, at Tahanto School.

On Lake Street, West Concord, at Quaker.

On Lake Street, West Concord, near H. C. Holden's.

On Lake Street, West Concord, near Mrs. Besse's.

There have been set 22 gates.

SUMMARY OF THE FOREGOING.

NEW PIPES, HYDRANTS AND STOP-GATES.

<i>Pipes.</i>	<i>Hydrants.</i>	<i>Stop-Gates.</i>
1¼-in., 194 feet.	In city, 13	4-in., 1
4-in., 237 "		6-in., 19
6-in., 2,039 "		8-in., 1
8-in., 1,216 "		20-in., 1
10-in., 27 "		
<hr/>	<hr/>	<hr/>
3,713 feet.	13	22
equal to .703 mile.		

Total length of main and distribution pipes now in use, 362,003 feet, equal to 68.56 miles.

Total number of gates now in use, 982.

Total number of hydrants now in use, 417.

SERVICE PIPES.

There have been laid during the year and connected with the main pipes, 37 service pipes consisting of

28 ¾-inch,	724 feet.
5 1-inch,	174 feet.
4 2-inch,	23 feet.
1 4-inch,	20 feet.
<hr/>	<hr/>
38	941 feet.

Whole number of services at the present time, 3,738; total length of service pipes, 87,099 feet, or 16.49 miles.

We have set 145 meters during the year; 3 have been removed, making the total number now in use, 2,153.

The following table shows the height of water in Penacook Lake on the first day of each month:

January,	177.90	July,	178.15
February,	177.90	August,	177.40
March,	178.20	September,	177.00
April,	178.65	October,	176.10
May,	179.30	November,	175.70
June,	179.75	December,	175.95

The lowest point reached during the year was on October 18, being 175.45; the highest was on May 15, and was 179.80; mean height for the year was 177.60, which was 2.62 feet lower than the mean height for the year 1910.

There have been few calls for extension of the distribution system this season; two petitions have been considered but were not deemed advisable to grant. This has given the department an opportunity to improve the service in several short streets that were supplied one way only, by extending and making an additional connection, so eliminating the dead ends. In West Concord conditions have been much improved on Lake Street by giving this section the benefit of the high service both for domestic and fire protection, the continual low water at the lake having made it difficult to supply this street satisfactorily.

The service pipes have been relaid in Main Street from Pearl to Centre Street and in other sections as conditions demanded.

Thirteen new hydrants have been placed in service this year. All hydrants have been thoroughly tested and put in the best possible working order. With extension of the high service planned for next season of 10-inch lines in School Street from Main to Rumford, Warren Street from Main to State, and Pleasant Street from Main to State,

the system will be in a position to give the utmost protection to the business center of the city.

The cement-lined mains in use continue to give good service, there having been but few leaks of any account.

The meter system continues to meet the approval of consumers, 145 being set this year. That the use of meters certainly checks a great waste of water can be seen by examining the records of notices sent from this office for leaky fixtures. Without the number of meters that we have, it would be difficult to tell what would be the stage of the water at the lake after this dry spell.

The height of the water in the lake has been watched very carefully and the shore also has received a great deal of attention. Many stumps have been removed and disposed of.

On account of the low water this summer it was considered advisable to issue notices to consumers to adhere strictly to rules regarding the use of hose and it was very gratifying to note their willingness to co-operate with the board to conserve the water.

The small pine seedlings planted four years ago have made marked growth and next year a large number will be ready to transplant in suitable locations around the lake. All the buildings of the Water Department are in good condition, the cottage at the lake has been thoroughly overhauled and repaired and put in good condition.

The pumping station machinery and grounds show the results of the excellent care placed upon them by the engineer, Mr. Rowell.

We have lost by death this year one of the members of the board, Mr. H. E. Conant, who served as a member for fifteen years. He was always ready and willing to give the department at all times the benefit of his knowledge and experience, and his loss will be a personal one to all

who were associated with him in the management of the water-works.

I wish to take this opportunity to thank each member of the board for his advice and assistance during the year and also to express to the different departments and to all the employees of this department my appreciation of their co-operation with us to carry on the work of the year.

Respectfully submitted,

P. R. SANDERS,
Superintendent.

**REPORT OF THE ENGINEER OF THE PUMPING
STATION.**

PUMPING STATION, CONCORD WATER-WORKS.

P. R. SANDERS, *Superintendent*:

SIR,—I would report that the pumping machinery at the pumping station is in good working order.

Pump No. 1, with nineteen years' service, is in fairly good order.

Pump No. 2 is in first-class working order and is giving good results.

The boilers are in good order, as reported by the insurance inspector.

In September a Ford & Kimball shaking grate was installed under Boiler No. 2, which is a great improvement over the old grate.

Following will be found a statement of coal and other supplies used at the pumping station during the year, with a table showing the work for each month.

STATEMENT.

114 tons 245 pounds Pocahontas coal.
121 tons 1,946 pounds New River coal.
92 gallons of oil.
38 pounds of waste.
11 pounds of grease.
14 cords of slabs.

AUDITOR'S STATEMENT.

I hereby certify that I have examined the books showing the receipts of the Concord Water-Works from January 1, 1911, to December 31, 1911, and find the same correct; and that the total amounts given therein correspond with the amount of receipts given by Percy R. Sanders, superintendent, in his report for the year and also with the receipts reported by William F. Thayer, city treasurer.

HENRY E. CHAMBERLIN.

CONCORD, N. H., March 6, 1912.

APPENDIX.

A.

RECEIPTS FOR EACH YEAR SINCE THE CONSTRUCTION OF THE
WORKS.

For the year ending January 31, 1874,	\$4,431.10
For fifteen months ending April 1, 1875,	17,535.00
For the year ending April 1, 1876,	16,921.24
“ “ “ 1877,	19,001.07
“ “ “ 1878,	20,763.03
“ “ “ 1879,	21,869.86
“ “ “ 1880,	22,451.53
“ “ “ 1881,	26,744.58
For nine months ending December 31, 1881,	25,534.01
For the year ending December 31, 1882,	27,243.06
“ “ “ 1883,	28,255.48
“ “ “ 1884,	28,915.65
“ “ “ 1885,	30,222.54
“ “ “ 1886,	30,862.64
“ “ “ 1887,	34,047.52
“ “ “ 1888,	38,441.32
“ “ “ 1889,	40,237.53
“ “ “ 1890,	42,133.41
“ “ “ 1891,	46,075.16
“ “ “ 1892,	48,351.52
“ “ “ 1893,	52,299.66
“ “ “ 1894,	53,230.10
“ “ “ 1895,	55,343.19
“ “ “ 1896,	56,557.81
“ “ “ 1897,	55,156.42
“ “ “ 1898,	59,147.54
“ “ “ 1899,	*53,953.13
“ “ “ 1900,	*57,003.71
“ “ “ 1901,	62,253.61
“ “ “ 1902,	63,430.85
“ “ “ 1903,	65,088.45
“ “ “ 1904,	68,570.48

For the year ending December 31, 1905,	\$71,076.44
“ “ “ 1906,	73,063.45
“ “ “ 1907,	73,782.64
“ “ “ 1908,	71,362.67
“ “ “ 1909,	†67,307.84
“ “ “ 1910,	68,673.71
“ “ “ 1911,	71,881.34

Total receipts for 39 years, \$1,769,220.29

* No hydrant rental this year.

† No hydrant rental after 1908.

B.

MEAN HEIGHT OF WATER EACH YEAR.

1873,	175.86	1893,	173.38
1874,	179.50	1894,	172.81
1875,	180.00	1895,	171.15
1876,	180.28	1896,	178.96
1877,	176.46	1897,	183.33
1878,	179.50	1898,	184.31

E.

SUMMARY OF STATISTICS.

FOR THE YEAR ENDING DECEMBER 31, 1911.

In form recommended by the New England Water-Works Association.

CONCORD WATER-WORKS.

CITY OF CONCORD, COUNTY OF MERRIMACK, STATE OF NEW HAMPSHIRE.

GENERAL STATISTICS.

Population by census of 1910—21,497.

Date of construction—1872.

By whom owned—City of Concord.

Source of supply—Penacook Lake.

Mode of supply—Gravity, also pumping to reservoir for high service and fire protection.

PUMPING STATISTICS.

1. Builders of pumping machinery—Henry R. Worthington, Harrison, N. J.
2. Description of fuel used—*a.* Kind—bituminous.
b. Brand of coal—New River.
c. Average price of coal per gross ton delivered, \$4.531.
d. Percentage ash, 10%.
3. Coal consumed for the year—236 tons.

4. (Pounds of wood consumed)÷3=equivalent amount of coal—8,079.

5. Total equivalent coal consumed for the year for pumping purposes—239,58.

6. Total pumpage for the year without allowance for slip—286,584,145 gallons.

7. Average static head against which pump works—199.30 feet.

8. Average dynamic head against which pump works—200.46 feet.

9. Number of gallons pumped per pound of equivalent coal—534.

10. Duty=
$$\frac{86,584,145 \text{ gallons pumped, } \times 8.34 \text{ (lbs.) } \times 100 \times \text{dynamic head, } 200.46}{\text{Total fuel consumed, } 536,670 \text{ pounds.}}=89,278,550$$

Cost of pumping figured on pumping station expenses, \$3,340.53.

11. Per million gallons pumped—\$11.65.

12. Per million gallons raised one foot (dynamic)—\$0.058.

STATISTICS RELATING TO DISTRIBUTION SYSTEM.

MAINS.

1. Kind of pipe—cast iron and cement-lined.
2. Sizes—from two-inch to twenty-four-inch.
3. Extended—3,633 feet during year.
4. Renewed—3,963 feet during year.
5. Discontinued—614 feet during year.
6. Total now in use—68.54 miles.
7. Number of leaks per mile for year—
8. Length of pipes two inches and less diameter—3.23 miles.

9. Number of hydrants added during year—public, 13; private, none.

10. Number of hydrants now in use—public, 417; private, 63.

11. Number of stop gates added during year—22.

12. Number of stop gates now in use—982.

13. Number of stop gates smaller than four inch—none.

14. Number of blow-off gates—82.

15. Range of pressure on mains at center of city—88 pounds high service and 48 pounds low service.

SERVICES.

16. Kind of pipe—cement-lined.

17. Sizes—three-fourths-inch to ten-inch.

18. Extended—941 feet.

19. Discontinued—119 feet.

20. Total now in use—87,099 feet.

21. Number of service taps added during year—38.

22. Number now in use—3,738.

23. Average length of service—23.3 feet.

24. Average cost of service for the year—

25. Number of meters added during year—145.

26. Number now in use—2,153.

27. Percentage of services metered—57.59.

28. Percentage of receipts from metered water—77.2.

29. Number of elevators added—none.

30. Number now in use—10.

31. Number of standpipes for street watering—42.

REPORT OF THE BOARD OF PUBLIC WORKS.

To the Board of Aldermen:

In compliance with the city charter, the Board of Public Works herewith submits its first annual report for the year ending December 31, 1911.

The board has held forty-eight meetings, nine of which were hearings held in various parts of the city on the petitions covered by the petition considered.

One hundred and ten petitions have been presented to the board and disposed of as follows: eighty-five were granted; in nine cases the petitioners were given leave to withdraw; two were referred to the mayor with full power and authority and are still on the table for further consideration.

Nine petitions for street lights have been considered. Five were granted, one given leave to withdraw and three are still on the table for consideration. The petitions granted were for lights in the following locations: one arc light on Bridge Street at the alley between Stickney Block and Orr & Riffe Block; five incandescent lights on South Dearbroke Road, from "Lower Bridge" to top of Black Hill; one incandescent light at junction of Fruit and Woodman Streets; two Wellsbach gas-lights on Downing Street, one opposite No. 74, on south side of street, and one opposite No. 62, on north side of street. In the East Concord lighting precinct one incandescent light was located on Eastman Street near Boston & Maine Railroad station.

Mr. Alfred Clark, commissioner of highways under the old charter, was retained as superintendent of streets under the new charter.

For a detailed account of work on streets and highways, garbage and sprinkling precincts, including receipts and expenditures, see report of superintendent of streets, herewith appended.

For report of the work in the several sewer precincts, see report of the city engineer, herewith appended.

Respectfully submitted,

CHARLES J. FRENCH, *Mayor*,

OLA ANDERSON,

ELMER H. FARRAR,

R. A. BROWN,

Board of Public Works.

REPORT OF THE HIGHWAY DEPARTMENT.

OFFICE OF SUPERINTENDENT OF STREETS.

To the Board of Public Works:

GENTLEMEN,—The superintendent of streets herewith submits the annual report relating to the operations and expenditures of the highway department for the year ending December 31, 1911.

PERMANENT IMPROVEMENTS.

The first work taken up at the beginning of the season was the macadamizing of North Main Street from Church to Pearl. The macadam with Tarvia binder, which was put in the season before on the section of North Main from Church Street north, proved very satisfactory and the same kind of macadam was built this year except for a slight difference in the surface treatment. It was expected that clay might be found in the excavating and that considerable filling would be necessary, but such did not prove to be the case and therefore a balance was left on the appropriation. The gutters were paved, sidewalk bankings graded and the street much improved in general appearance. A section of this street should be macadamized each year until Center Street is reached as it is in bad shape.

A section of the Hopkinton road was macadamized next. This was a continuation of the water-bound macadam put in two years ago. Both pieces will need surface treatment of tar or asphalt next season or they will not stand the traffic. Such treatment would be in the way of economy.

South Street was graveled for 2,100 feet in length, which

completes a good gravel road from Bow line to Carter Street. South Street from Carter to Pleasant is in very bad condition, and if a section of macadam could be built each year, as has been done on others, we should soon have a fine road all the way to Bow line.

Another section of the London road was graveled this year and the same amount of work done another year would complete work on that road. The Pittsfield road from the London road to the Soucook River bridge should be graveled, for at the present time that is the worst piece of road which we have in Concord.

South Main Street from Thorndike to Perley has been in very bad condition for several years, but work on it has been put off from year to year on account of the sewer work which might have to be done there. If nothing is to be done on the sewer soon this street should be reconstructed.

Capitol Street from State to Green has been laid twenty-two years, and from State to Main twenty years, and no great amount has been expended on it for repairs. It now needs resurfacing badly.

RECONSTRUCTION AND RESURFACING.

This year it was necessary to resurface that portion of Pleasant Street called the "Eddy Road." The two and a half inch trap rock surface was completely worn away and the road was reconstructed with Tarvia X as a binder. The remainder of the road as far as St. Paul's School has been laid over eight years and should be resurfaced the coming season. The daily automobile traffic over this road is heavy and the road has withstood it exceedingly well but it needs some surface treatment immediately. The same applies to the Penacook road. Several sections of that have been in a long time and one piece about two thou-

sand feet in length was built fifteen years ago and is completely worn out and will have to be reconstructed. Tarvin B was used on a portion of the Penacook road this year and more should be used next. The same surface treatment was used on the South Pembroke road and I should advise further use of it there another year. The use of tar or asphalt on macadam roads, while aiding in the laying of dust, is used more to bind the macadam together that it may withstand the traffic. The same material could not be used on an unimproved street but there are several streets where some dust layer should be used which would help to preserve the road as well as lay the dust. The road through West Concord from the railroad crossing to the macadam on the Penacook road is very dusty, owing to the constant automobile traffic, and I would recommend the use of some dust layer there. There are other streets through which the street cars run where the sprinkling with water is hardly a sufficient dust layer under all weather conditions and I think some oil could be used to good advantage.

BRIDGES.

The Federal, Horse Hill, and a number of smaller bridges have been repaired and replanked this year. The Pembroke and the Main Street bridge, Penacook, should be replanked next season.

CATCH BASINS.

Hardly the usual number of catch basins were built this year, but there are a number of new ones which should be put in and several old ones to be reconstructed next summer.

CONCRETE WALKS.

Less than an average number of petitions for concrete walks and edgestone were granted this year, but all were put in excepting two small pieces in Penacook and the edgestone around the Historical Building on Park, Green and Centre. It was so late when the contractors completed their work there that it was thought best to wait until spring before putting in the edgestone. The usual amount of concrete walks were repaired.

TREES.

To properly care for the trees in Concord is becoming a problem. We have a great many, some of them quite old, which require trimming and a number should be removed. A few years ago the brown-tail moth arrived in Concord and brought unlimited work to the department in the effort to exterminate them. We may feel that the effort has been fairly successful for only a few trees have been lost on account of them and this year there seem to be fewer nests than last. But a new pest, the elm-tree beetle, threatens to do more harm as they are harder to exterminate. Last summer the elms in different parts of the city began to show the ravages of the pest. The amount of time in which any work is effective in destroying the beetle is short, as the spraying should be done as soon as the leaves appear. It is impossible to spray the number of elms which we have in Concord at the proper time with only one sprayer and if we are to preserve them, it is a matter to which the board should give their immediate attention. I also find that the gypsy moth is becoming numerous in the city and the extermination of them will require considerable expenditure of time and money. Possibly the state moth agent may aid us in the work against this pest. Beside the work

of extermination of the various moth pests, the trimming and removing of old trees, something should be done in setting out new trees to take the place of the old ones. But I would call your attention to the planting of poplar trees in Concord. A few years ago these rapid growing trees were set out quite extensively. They are now trees of considerable size and we are beginning to have trouble with the sewers which have become filled with the roots. In many western cities they have an ordinance prohibiting the planting of poplar trees. While such measures may not be necessary in Concord, I think it would be well to discourage the planting of poplars. When everything is taken into consideration I think you can easily see that the business of caring for the trees in Concord requires a great deal of time and attention and the work necessary is increasing each year.

SPRINKLING.

The street sprinkling has been done the past season in the usual manner. Several petitions to have the precinct enlarged are now in the hands of the board and if these are granted, unless some other dust layer should be used on some of the streets, it will be necessary to purchase more sprinklers. A new sprinkling precinct was established in Penaeook instead of doing the work by subscription as formerly. I think it would be advisable for that precinct to own the sprinkling cart the same as is done in the city proper.

GARBAGE.

The amount of garbage collected was some three hundred loads more than last year. The method of collecting the garbage and paper has proved satisfactory, but it is becoming a problem to dispose of it. It becomes necessary each

year to haul it farther, which increases the expense. Fire destroyed the crematory on the river bank early in the season, which made it necessary to build a new one.

GENERAL MAINTENANCE.

From the appropriation for general maintenance come the general repairing and grading of all streets and sidewalks, the care of bridges, drinking fountains and watering-troughs, care of ice and snow, maintenance of the city stable where we have thirteen horses, and all the miscellaneous expenses of the department. Many years December is an expensive month on account of heavy storms, and never feeling sure what it may be, it is necessary to exercise considerable economy in the expenditure of this appropriation throughout the year. There are always a number of repairs which should be made, but the appropriation will not allow the expenditure. This year there was a small balance which could have been used to good advantage in repairs, as the expense for caring for ice and snow in December was not heavy. There should be a new shed and store-room built at the city stable lot, as we have not sufficient suitable room to store all the equipment of the department.

ROAD CONVENTIONS.

Being a member of the Massachusetts Highway Association, it has been my fortune to attend several interesting meetings of that society and also to attend the American Road Builders' Convention, at Rochester, N. Y. Both of these societies help to keep one up to date in all matters pertaining to road-building. The road convention held in Concord, December 13 and 14, was interesting and instructive and I hope this first successful meeting may be followed by one annually. Such conventions are helpful and

deal with a subject which is becoming of the greatest importance to the people.

For the interest which the Board of Public Works has taken in the work of the highway department and for the manner in which they have dealt with various problems brought before them, I wish to express my appreciation.

Respectfully submitted,

ALFRED CLARK,
Superintendent of Streets.

REPORT OF SEWER DEPARTMENT.

CITY ENGINEER'S OFFICE, CITY HALL,
CONCORD, N. H., December 31, 1911.

To the Board of Public Works:

The nineteenth report from this office and the first report to this board, giving the funds available and the expenditures for construction and maintenance in the city sewer precinct, the West Concord precinct, the East Concord precinct and the Saint Paul's School sewerage precinct, is herewith submitted, together with a statement of the condition of our sewers in the city precinct.

CITY PRECINCT.

The condition of the main sewers in this precinct calls for your serious consideration, owing to the overloaded sections and the necessity for enlarged mains at as early a date as they can be constructed.

The damages to flooded premises during wet seasons increase from year to year, owing to the additional territory in the drainage areas.

Some work should be done toward relieving the situation which has existed for some years. The worst conditions are in the districts most remote from the outlets and nothing can be done to relieve them until mains having sufficient capacity are built and extended to include the districts now inadequately provided with drainage facilities. Most of the laterals of the system are adequate to perform the work they were built to do, and are in good condition.

The work of construction in this precinct, during the

past season, was under ordinary conditions, excepting the McKinley Street sewer extension; here the work was made particularly difficult, owing to the treacherous foundation of running sand and an unlimited flow of water. This combination made the work on this short section expensive, but we believe that the sewer as completed will stand the test of time and do the work expected of it.

The damage caused by the Manchester Traction Company's flash-boards, at Garvin's Falls, has been amicably settled out of court.

This case took much time of the engineering department, but with the able assistance of the experts employed, our rights were protected and damages to the amount of \$7,600 paid.

NEW WORK.

BROADWAY.

398 feet of 10-inch Akron pipe laid.

Paid for labor,	\$245.54
pipe,	133.92
cement,	2.00
brick,	17.00

Total miles in city precinct to date, 34.48+.	

EAST CONCORD PRECINCT.

No work was done in this precinct and no money expended. The balance remains the same as last season; viz.: \$127.53.

WEST CONCORD SEWER PRECINCT.

The only expenditure in this precinct was for flushing the sewer system as no repairs were necessary.

Funds available, balance from 1910,	\$81.30
Paid for flushing,	28.78
	<hr/>
Balance December 31, 1911,	\$52.52

ST. PAUL'S SCHOOL SEWERAGE PRECINCT.

On the Hopkinton road roots caused a stoppage near the flush-tank and repairs were made at an expense of \$16.31. The annual charge for water service of \$45 was also paid.

Funds available, appropriation,	\$45.00
Balance from 1910,	33.86
	<hr/>
Total,	\$78.86
Expended, 1911,	61.31
	<hr/>
Unexpended balance December 31, 1911,	\$17.55

For the courtesies extended to me by this board I wish to thank you, and also for the privilege of attending the annual meeting of the American Society of Municipal Improvements.

Respectfully submitted,

WILL B. HOWE,
City Engineer.

REPORT OF BOARD OF EXAMINERS OF PLUMBERS.

CONCORD, N. H., December 31, 1911.

To the Board of Mayor and Aldermen:

The twelfth annual report of this board is herewith submitted.

During the past year the death of Thomas F. Foley, chairman of this board, caused a vacancy and Harris S. Parmenter was appointed to fill it.

The membership of the present board is as follows: Charles H. Cook, M. D.; Harris S. Parmenter, a journeyman plumber, and Will B. Howe, city engineer.

The board organized with Harris S. Parmenter, chairman, and Will B. Howe, clerk.

The total receipts were thirty-two (32) dollars, for which amount the clerk of the board holds the receipts of the city treasurer, and the expenditures were eighteen (18) dollars and sixteen (16) cents.

Nine meetings were held during the year. Nine applicants for journeymen's licenses were examined; eight were granted licenses and one failed to pass.

Two applicants for masters' licenses successfully passed the required examination and received their licenses.

The following list gives the names of all registered plumbers authorized by this board to work at the business of plumbing during the year ending March 31, 1912.

MASTER PLUMBERS.

W. Arthur Bean, certificate renewed.
Elmer E. Babb, license renewed.
Charles W. Bateman, license renewed.
George A. Bisson, license renewed.
Louis J. Cherrier, licensed December 6, 1911.
Mary E. Clifford, certificate renewed.
John J. Cronin, license renewed.
Edward F. Donovan, license renewed.
Seth R. Hood, certificate renewed.
George A. Harwood, certificate renewed.
William A. Lee, certificate renewed.
Michael J. Lee, certificate renewed.
Richard J. Lee, certificate renewed.
George S. Milton, certificate renewed.
Manley W. Morgan, license renewed.
George A. Nichols, license renewed.
Benjamin H. Orr, certificate renewed.
Willis H. Robbins, certificate renewed.
John C. Smith, license renewed.
William M. Trottier, license renewed.
Albert S. Trask, certificate renewed.
Frank Turnbull, license renewed.
Albert L. Worthen, license renewed.
John W. Zebringer, licensed August 15, 1911.

JOURNEYMAN PLUMBERS.

Joseph P. Audett, license renewed.
Arthur W. Bunten, license renewed.
Patriek A. Clifford, certificate renewed.
Henry P. Cilley, certificate renewed.
Frederick F. Converse, license renewed.
Albert Cooper, licensed March 3, 1911.

Alfred L. Crane, licensed December 6, 1911.
 Edward F. Edgeworth, license renewed.
 John L. Fahey, licensed August 15, 1911.
 Philip King, certificate renewed.
 Harry H. Kennedy, certificate renewed.
 P. Harrison D. Leary, certificate renewed.
 Foster E. Macharg, licensed September 12, 1911.
 Frank M. Murray, license renewed.
 John Morin, Jr., license renewed.
 William H. McGuire, certificate renewed.
 Harris S. Parmenter, license renewed.
 William L. Reagan, certificate renewed.
 Charles J. Reagan, license renewed.
 Henry Riley, license renewed.
 Arthur W. Robinson, licensed April 15, 1911.
 James F. Stevens, licensed August 15, 1911.
 William M. Sutton, license renewed.
 Joseph E. White, licensed January 12, 1911.
 Frank C. Whipple, licensed August 15, 1911.

Master plumbers,	24
Journeyman plumbers,	25
	<hr/>
Total issued 1911,	49

Respectfully submitted,

HARRIS S. PARMENTER,

WILL B. HOWE,

Board of Examiners of Plumbers.

REPORT OF BOARD OF HYDRANT COMMISSIONERS.

CITY ENGINEER'S OFFICE, CITY HALL,
CONCORD, N. H., December 31, 1911.

To the Board of Mayor and Aldermen:

The sixth annual report of this board is herewith submitted, showing its recommendations to the Board of Water Commissioners.

On February 21, 1911, a meeting of the full board was held and it was voted to recommend placing hydrants at the following locations:

On the westerly line of the South Church lot and on the southerly side of Pleasant Street.

Monroe Street, opposite the Rumford School House and on the southerly side of Monroe Street.

South State Street, westerly side, at Thorndike Street.

McKinley Street, northerly side, midway between South Main and Broadway.

Southerly side of Clinton Street at Dartmouth Street.

At the junction of Valley and High Streets.

At the junction of Beacon and White Streets.

Easterly side of North State Street, on northerly line of the Tahanto School lot.

Hanover Street, westerly side, near No. 10.

At a meeting held July 26, it was voted to recommend placing three hydrants on Lake Street, in West Concord, as follows:

On northerly line of premises numbered nine.

On southerly line of the westerly end of Lake Street.

On the westerly line of Quaker Street.

On September 2, it was voted to recommend the placing of a hydrant on the westerly side of the Fisherville road, half-way between the hydrants north and south of John Harriman's house.

On December 18, it was voted to recommend the installation of the following high-service hydrants: .

A four-way hose connection at Durgin Street on School Street.

A four-way hose connection at the junction of School and North State Streets.

A four-way hose connection at the junction of School and Green Streets.

At North Spring and School Streets.

A four-way hose connection at South State and Pleasant Streets.

A four-way hose connection on North Spring Street, opposite the High School.

A four-way hose connection at North State and Warren Streets.

A four-way hose connection at Warren Street and Odd Fellows Avenue.

A four-way hose connection on the westerly line of White's Block and on the northerly side of Capitol Street.

It is expected that the above high-service hydrants will be set early the coming season.

Respectfully submitted,

WILL B. HOWE,

W. C. GREEN,

PERCY R. SANDERS,

Board of Hydrant Commissioners.

REPORT OF CITY SOLICITOR.

To the Board of Aldermen:

This report is intended to show the condition of lawsuits and legal proceedings in which the city had any interest at the time of my assumption of office in July, 1910, and the progress made with them, as well as the proceedings commenced since that time, together with the progress made with such proceedings. The present condition of the legal matters in which the city is interested will also appear.

The case of *Boston & Maine Railroad v. Concord* is a petition which was filed at the October term, 1910, of the superior court, praying for the abatement of the taxes assessed by the city upon Contoocook River Park for the year 1910. The railroad claims that this property is not taxable by the city of Concord, but is included in the general railroad tax. A reserved case is in process of being drawn, and when completed the case will be transferred to the supreme court. Two petitions for the abatement of taxes, both entitled *Joseph Stickney v. Concord* (for the years 1900 and 1901), have been settled by the payment of two hundred dollars in each case. *Jennie P. Martin v. Concord*, a suit to recover damages for injuries to the plaintiff's real estate on the corner of South State and Downing Streets, alleged to have been caused by defective sewers, will probably be tried in April, 1912. *Carolyn P. Stickney v. Concord*, an appeal from an award of \$300 damages made to the plaintiff by the board of mayor and aldermen on account of the laying out and construction of a sewer from North Main Street through the plaintiff's land to the Merrimack River will also be tried in April, 1912. *Concord*

Street Railway v. Concord, an appeal taken by the Concord Street Railway from an award of damages to it by the board of mayor and aldermen upon the laying out of a highway in Penacook, entered at the April term, 1900, has not been pressed but still remains on the docket. *Grace O. Dutton v. Concord*, a suit for damages sustained by reason of a defective highway, as alleged, was entered at the April term, 1911, and will be tried at the April term, 1912. The same may be said of the case of *Gilbert S. Hibbard v. Concord*, except that it was entered at the October term, 1911.

The ease of *Concord v. Patriot Publishing Company*, for taxes for 1910, entered at the October term, 1910, has been settled, the city to have judgment against the trustees. Early in August I brought suit against F. W. Hartford for two months' rent of the Auditorium. The defendant admitted liability but claimed a set-off for lights furnished at Walker lectures, etc. The case was settled by the payment in full of the city's claim, \$200. The board is familiar with the city's action against the Manchester Traction, Light & Power Company, commenced in August, 1911, and continued through the fall. The amount paid the city in settlement of the ease was \$7,600.

I have, since my appointment, furnished written opinions on the following topics: validity of the Auditorium lease, in view of the bankruptcy of the lessee; duties of the board in the laying out of streets; and the authority of the board of public works to delegate its duties. I have made detailed reports of the progress of the sewer controversy, have drafted ordinances, resolutions, contracts, etc., advised city officials, committees of the board, and have prosecuted many criminal cases for the police department before the police court.

Respectfully submitted,

ALEXANDER MURCHIE,

City Solicitor.

January 9, 1912.

REPORT OF CLERK OF POLICE COURT.

To the Board of Aldermen:

The clerk of the police court submits the following report for the year 1911:

Number of civil cases entered in court January to December, inclusive, was forty-five. Received as entry fees for same at fifty cents each, twenty-two dollars and fifty cents (\$22.50). Paid to city treasurer twenty-two dollars and fifty cents (\$22.50).

Respectfully submitted,

RUFUS H. BAKER,
Clerk of the Police Court.

CONCORD, N. H., April 9, 1912.

REPORT OF COMMITTEE ON THE JOHN KIMBALL PLAYGROUND.

To the Board of Aldermen:

The John Kimball playground was appropriated the sum of three hundred and seventy-five dollars (\$375), out of which was expended the following:

Labor,	\$129.50
Arthur McCauley, instructor, \$15 per week for ten weeks,	150.00
Thompson & Hoague Co., supplies,	45.66
Concord Water-Works,	6.00
Posts used for fencing,	9.00
Orr & Rolfe, one bubbling cup,	• 4.15
Hutchinson Bldg. Co., lumber,	5.38
A. H. Britton & Co., paints,	13.50
	<hr/>
Total expenses,	\$363.19
Amount appropriated,	\$375.00
Total expenses,	363.19
	<hr/>
Balance,	\$11.81

ROY W. FRASER,
OLA ANDERSON,
R. A. BROWN.

REPORT OF THE CEMETERY COMMISSIONERS.

To the Board of Aldermen:

The amount placed at our disposal for the year 1911 for Blossom Hill Cemetery amounted to \$6,252.82, and we have expended \$6,204.44. For the Old North we received \$533.94 and expended \$513.33, for a detailed account of which we refer you to the report of the City Treasurer.

The burials for the past year have been, in Blossom Hill Cemetery, two hundred and nine (209); in the Old North, seven (7); and in the Minot Cemetery, two (2). The chapel has been used nine times.

In addition to the usual appropriation of \$100 for the Old North Cemetery, we would recommend an additional one of \$100 for the resetting and straightening up of many monuments and head-stones that have been thrown out of position by frost and have not been attended to by the owners of the lots and which give the cemetery a very bad appearance. We would also recommend the purchase of the old Quaker burial lot adjoining the northeast corner of the Old North Cemetery, which is in a very bad condition and a disgrace to our city. This lot is owned by Otis G. and Harry P. Hammond and can be bought for \$300.

The usual appropriation of \$1,000 for Blossom Hill we think will be sufficient for the coming year.

GEORGE A. FOSTER,
Secretary.

To the Board of Aldermen:

Your committee for West Concord Cemetery submit the following report for 1911:

1911.		
Jan. 1.	Cash on hand,	\$14.42
	Sale of lots,	44.00

Committee.

ASSESSORS' REPORT.

To the Taxpayers of the City of Concord:

The board of assessors submits to your consideration the following facts and figures showing the valuation of the city and of each of its school districts and special precincts, with the amount of taxes raised in each and returned to the tax collector for collection.

An increase in the amount of the warrants submitted, with changes in valuations, some taxable property having been taken to other places, caused an increase of the tax rate over the preceding year.

TABULATION OF WARRANTS SUBMITTED FOR ASSESSMENT,

TREASURY DEPARTMENT.

TRUST FUNDS.

CITY TREASURER'S ACCOUNTS AS CUSTODIAN OF TRUST FUNDS.

ABIAL WALKER TRUST.

For the benefit of the school fund.

Capital,	\$1,000.00
Income received, 1911,	40.00
Paid into the city treasury,	40.00

Deposited in Merrimack County Savings Bank.

COUNTESS OF RUMFORD TRUST.

For the benefit of the Concord Female Charitable Society. Income to be applied to the charitable uses and purposes of said society, and under its direction.

Capital,	\$2,000.00
Balance of income from last year,	\$40.00
Income received, 1911,	80.00
	————— 120.00
Paid Grace E. Foster, treasurer of the society,	120.00

Invested in Eagle and Phenix Hotel Company 4 per cent. note, secured by mortgage, \$1,000.00
Deposited in New Hampshire Savings Bank, \$1,000.00

MINOT ENCLOSURE CEMETERY TRUST.

Donated to the city by Abby P. Minot, the income to be expended annually by the superintendent of cemeteries for the preservation, care and embellishment of the burial lots known as the Minot enclosure, under the direction of the duly appointed officials, or members of the Minot Cemetery Association.

Capital,	\$3,000.00
Income received, 1911,	105.00
Paid H. H. Dudley, treasurer,	105.00

Deposited (at 3½ per cent.) with City of Concord, in general account.

DAVID OSGOOD TRUST.

The purpose of the donor of this trust was that the income should be used for the purchase of school-books for poor children; but since the bequest was made, a state law has been enacted that requires the town and cities to buy all the school-books; consequently the beneficiary of the fund, \$200, and accumulations, amount to \$533.71, and same will continue to accumulate forever without any benefit to any object, unless some legal action can be taken to divert the income from the specified purpose of the donor.

Capital,		\$200.00
Balance income from last year,	\$313.27	
Income received, 1911,	20.44	
	—————	333.71

Capital, \$200, deposited in New Hampshire Savings Bank; income deposited in the Union Guaranty Savings Bank.

COGSWELL COLLECTION OF THE PUBLIC LIBRARY.

Bequest of P. B. Cogswell, the income to be spent annually for the purchase of books of a biographical, geographical, historical, and scientific character, and the books relating to science shall be those that give the latest developments and discoveries by scientific persons from year to year.

Capital,	\$2,145.00
Income received, 1911,	83.03
Paid into the city treasury,	83.03

Deposited in Union Guaranty Savings Bank,	\$1,500.00
Deposited in New Hampshire Savings Bank,	500.00
Deposited in Loan and Trust Savings Bank,	145.00

G. PARKER LYON PUBLIC LIBRARY TRUST.

Capital,	\$1,000.00
Income received, 1911,	35.00
Paid into the city treasury,	35.00

Invested in City of Concord 3½ per cent. bond.

FRANKLIN PIERCE PUBLIC LIBRARY TRUST.

Capital,	\$1,000.00

Paid into the city treasury,	40.00

Deposited in New Hampshire Savings Bank,	\$500.00
Deposited in Union Guaranty Savings Bank,	500.00

THOMAS G. VALPEY PUBLIC LIBRARY TRUST.

Capital,	\$500.00
Income received, 1911,	17.50
Paid into the city treasury,	17.50

Invested in City of Concord 3½ per cent. bond.

BLOSSOM HILL CEMETERY FUND.

This fund is increased each year by the addition of one-half the amount received from the sale of lots. The income of the fund is used for the care, protection and ornamentation of Blossom Hill Cemetery.

Amount of capital January 1, 1911,	\$24,154.92
Received from one half sale of lots,	
1911,	1,524.69
Received from income of fund,	956.16
	————— \$26,635.77

Credited City of Concord, general account,	\$956.16	
Amount of capital, January 1, 1912,	25,679.61	
	—————	\$26,635.77
Invested in City of Concord 4% bonds,	\$8,500.00	
Invested in City of Concord 3½% bonds,	2,000.00	
Deposited in New Hampshire Savings Bank,	5,842.04	
Deposited in Union Guaranty Savings Bank,	9,337.57	
	—————	\$25,679.61

OLD NORTH CEMETERY FUND.

As the lots in this cemetery are all sold, there is no provision for an increase of the fund. Income devoted to the care, protection and ornamentation of Old North Cemetery.

Amount of capital, January 1, 1911,	\$815.00	
Received from income of fund,	30.10	
	—————	\$845.10

	—————	\$602.35

Capital and unexpended income deposited in New Hampshire Savings Bank.

WEST CONCORD SEWER PRECINCT SINKING FUND.

The city ordinance establishing the West Concord sewer precinct, and authorizing loans on the credit of the city to construct the system, also created a sinking fund which provided that the following amounts should be raised annually upon the taxable property of the precinct, for the purpose of paying the bonds as they mature, viz.:

\$1,400 annually for five years from October 1, 1907.

Balance on hand January 1, 1911,	\$4,687.44	
Income received, 1911,	184.14	
Received from City of Concord,	1,400.00	
	—————	\$6,271.58

Transferred to City of Concord general account, in accordance with joint resolution passed by city council, March 27, 1911,	\$400.00	
Deposited in Union Guaranty Savings Bank,	5,871.58	
	—————	\$6,271.58

PENACOOK SEWER PRECINCT SINKING FUND.

The city ordinance establishing the Penacook sewer precinct, and authorizing loans on the credit of the city to construct the system, also created a sinking fund, which provided that the following amounts should be raised annually upon the taxable property of the precinct for the purpose of paying the bonds as they mature, viz.:

\$100 annually for fifteen years from October 1, 1900.

\$1,000 annually for five years from May 1, 1908.

\$500 annually for six years from July 1, 1914.

\$500 annually for three years from October 1, 1915.

Balance on hand January 1, 1911,	\$3,247.77	
Income received, 1911,	127.88	
Received from City of Concord,	1,100.00	
	—————	\$4,475.65
Balance on hand January 1, 1912,		\$4,475.65

Deposited in Union Guaranty Savings Bank.

EAST CONCORD SEWER PRECINCT SINKING FUND.

The city ordinance establishing the East Concord sewer precinct, and authorizing loans on the credit of the city to construct the system, also created a sinking fund, which provided that the sum of one hundred dollars (\$100) should be raised annually for twenty years from July 1, 1895, upon the taxable property of the precinct for the purpose of paying the bonds as they mature.

Balance on hand January 1, 1911,	\$115.28	
Income received, 1911,	4.60	
Received from City of Concord,	100.00	
	—————	\$219.88

Balance on hand, January 1, 1912, \$219.88

Deposited in Union Guaranty Savings Bank.

SETH K. JONES TRUST.

Bequest to the city of Concord to be invested in some New England city bond, the income to be applied as follows: Twelve dollars each year to keeping lot in Blossom Hill Cemetery in neat and orderly condition; six dollars each year to be deposited in some savings institution to create a monument fund; and the balance of the income to be expended each year in purchasing books for the Concord public library.

Capital, \$1,000.00

OLD NORTH CEMETERY RECEIPTS.

Amounts received from sundry collections and income of permanent funds are added to the annual appropriation. The amounts expended on trust funds are paid on a special order from the mayor, from the income of individual deposits made with the city for that purpose, said income being used exclusively for the care of the lot specified in each trust.

BLOSSOM HILL CEMETERY RECEIPTS.

One half of the receipts for the sale of lots is added annually to the permanent fund. The remaining half, with the amount received for grading of lots sold, together with the amounts received from sundry collections and income of permanent fund, are added each year to the annual appropriation. The amounts expended on trust funds are paid on a special order from the mayor from the income of individual deposits made with the city for that purpose, said income being used exclusively for the care of the lot specified in each trust.

I hereby certify that I have examined the foregoing account of William F. Thayer, city treasurer, for the year 1911, and find all items of receipt and expenditure therein properly recorded and authenticated by appropriate vouchers, and the several items correctly cast, and cash balance to be seventy-seven thousand three hundred thirty-seven dollars and twenty-one cents (\$77,337.21), and as treasurer of the city water department, cash balance to be twenty-nine thousand six hundred seventeen dollars and eighty-four cents (\$29,617.84).

I have also verified the account of the trust and sinking funds of the city, and find such trust and sinking funds invested, and the income thereof for the year 1911 accounted for, as shown by the book of the city treasurer, kept for that purpose.

HENRY E. CHAMBERLIN,
City Clerk.
